4. Press the control dial to start. The appliance will blend the ingredients to a smooth consistency.

6. MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity and optimal performance of your appliance.

- **Unplug:** Always unplug the appliance from the power outlet before cleaning.
- **Main Unit:** Wipe the main unit with a soft, damp cloth. Do not use abrasive cleaners or immerse the unit in water.
- **Mixing Bowl and Accessories:** The mixing bowl, lid, and all accessories are dishwasher-safe. Alternatively, they can be washed by hand with warm soapy water. Ensure all parts are thoroughly dried before reassembly or storage.
- **Automatic Cleaning Program:** For quick cleaning of the mixing bowl, use the dedicated automatic cleaning program. Add water and a drop of dish soap to the bowl and run the program.
- **Storage:** Store the appliance and its accessories in a clean, dry place when not in use. The cable storage

compartment helps keep the cord tidy.

7. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outage; faulty outlet.	Check power cord connection; check circuit breaker; try a different outlet.
Motor not running or stops during operation.	Lid not properly closed; mixing bowl not correctly seated; overload protection activated.	Ensure lid is securely locked; re-seat the mixing bowl; reduce ingredients if overloaded and restart.
Display is unresponsive.	Temporary software glitch.	Unplug the appliance for a few minutes, then plug it back in.
Wi-Fi connection issues.	Incorrect password; out of range; router issues.	Verify Wi-Fi password; move appliance closer to router; restart router.
Ingredients not mixing/chopping effectively.	Incorrect blade/attachment; too much or too little liquid; ingredients too large.	Ensure correct attachment is used; adjust liquid content; cut ingredients into smaller pieces.
