3. SETUP & ASSEMBLY

The Aosom 6V Licensed BMW S1000RR Kids Electric Motorcycle requires adult assembly. Please follow the detailed instructions provided in the packaging for step-by-step guidance. Ensure all components are securely fastened before allowing a child to use the product.

Charging the Battery:

- Locate the charging port on the motorcycle.
- Connect the provided charger to the charging port and then to a standard wall outlet.
- The initial charge time is 8–12 hours. Do not overcharge the battery.
- A full charge provides approximately 45 minutes of continuous play, depending on usage and terrain.
- Always charge the battery in a dry, well-ventilated area.

4. OPERATING INSTRUCTIONS

Starting the Motorcycle:

- Ensure the battery is fully charged.
- Press the start button (usually located on the dashboard or near the handlebars).
- To move forward, press the foot pedal. Release the pedal to stop.

Using Music and Headlights:

- The motorcycle features built-in music. Controls for music playback are typically located on the dashboard.
- The headlights can be turned on/off using the designated switch, usually found on the dashboard.

5. MAINTENANCE

Cleaning:

- Wipe the motorcycle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Avoid getting water into electrical components.

Battery Care:

- Recharge the battery after each use.
- If storing for an extended period, charge the battery fully every 3 months to prolong its lifespan.
- Do not store the battery in extreme temperatures.

General Inspection:

- Regularly check all screws, nuts, and bolts to ensure they are tight.
- Inspect wheels and tires for wear and tear.

6. TROUBLESHOOTING

Common Issues and Solutions:

- **Motorcycle does not move:**

- Check if the battery is charged.
 - Ensure all electrical connections are secure.
 - Verify the foot pedal is fully pressed.
- **Lights or music not working:**
 - Check battery charge.
 - Ensure switches are in the 'ON' position.
- **Slow speed or short play time:**
 - Battery may not be fully charged or is aging.
 - Operating on uneven or soft surfaces can reduce performance.
 - Ensure the rider's weight does not exceed the maximum limit.
