## 1. Introduction

Thank you for choosing the SMALLRT Surge Protector Power Strip Tower. This device is designed to provide a versatile and safe power solution for your home, office, or dorm room. Featuring multiple AC outlets and USB charging ports, including USB-C, it helps organize your power needs while protecting your electronic devices from power surges and overloads.

## 2. Important Safety Instructions

**Please read and follow all safety instructions carefully before using this product.**

- **Indoor Use Only:** This power strip is designed for indoor use in dry locations. Do not use outdoors or in wet environments.
- **Avoid Overloading:** Do not exceed the maximum power rating of 125V/10A. Overloading can cause overheating and fire.
- **Grounding:** Ensure the power strip is plugged into a properly grounded 3-prong outlet.
- **Keep Away from Water:** Do not expose the power strip to water or other liquids.
- **Do Not Disassemble:** Do not attempt to open or modify the power strip. Refer servicing to qualified personnel.
- **Children and Pets:** Keep out of reach of children and pets.
- **Ventilation:** Do not cover the power strip or block its ventilation openings.
- **Overload Protection:** The built-in overload protection will automatically cut power to connected devices if a voltage surge is detected. If this occurs, unplug devices, reset the switch, and reduce the load.

### 3. Product Features

---

- **12 AC Outlets:** Provides ample power connections for multiple devices.
- **4 USB Ports:** Includes 3 USB-A ports (2.4A Max each) and 1 USB-C port (3A Max) for fast and smart charging.
- **10FT Extension Cord:** Long cord made of pure copper with reinforced junction for durability and flexible placement.
- **1200 Joules Surge Protection:** Safeguards your electronics from power fluctuations and spikes.
- **8-Security Overload Protection:** Automatically cuts power to prevent damage from overcurrent, overvoltage, short-circuit, and overheating.
- **Space-Saving Tower Design:** Vertical design minimizes desk clutter and allows for easy access to all ports.
- **Fire-Resistant Material:** Constructed with fireproof ABS plastic and PVC for enhanced safety.
- **One-Touch Power Switch:** Conveniently power on/off all connected devices.
- **Anti-Slip Feet:** Ensures stability on various surfaces.

### 4. Package Contents

---

- 1 x SMALLRT Surge Protector Power Strip Tower (Model ZYC06)
- 1 x User Manual

### 5. Setup Instructions

---

1. **Unpack:** Carefully remove the power strip from its packaging.
2. **Placement:** Place the power strip on a stable, flat, and dry surface, away from direct sunlight, heat sources, and moisture.
3. **Connect to Power:** Plug the 10FT extension cord into a standard 3-prong 125V AC wall outlet.
4. **Power On:** Press the red power switch to the 'ON' position. The indicator light will illuminate.

## 7. Maintenance

- **Cleaning:** Disconnect the power strip from the wall outlet before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners or sprays.
- **Inspection:** Periodically inspect the power cord and the unit for any signs of damage, such as frayed wires or cracked casing. If damage is found, discontinue use and contact customer support.
- **Storage:** When not in use for extended periods, store the power strip in a cool, dry place.

## 8. Troubleshooting

- **No Power to Devices:**
  - Ensure the power strip's main switch is in the 'ON' position.
  - Check if the power strip is securely plugged into a working wall outlet.
  - If the overload protection has tripped (red switch might be popped out), unplug some devices, then press the switch to reset.
- **Slow USB Charging:**
  - Ensure your device's charging cable is not damaged and is properly connected.
  - Verify your device supports fast charging if expecting high speeds.
  - The total current draw from all USB ports should not exceed 3.4A.
