Lepulse S5

Lepulse S5 Digital Smart Scale User Manual

Model: S5

1. Introduction

Thank you for choosing the Lepulse S5 Digital Smart Scale. This manual provides essential information for the safe and effective use of your new scale. Please read it thoroughly before use and retain it for future reference.
The Lepulse S5 is a high-precision digital scale designed to measure body weight and calculate Body Mass Index (BMI). It features Bluetooth connectivity for seamless data synchronization with a dedicated smartphone application, allowing you to track your health metrics over time.

2. Safety Information

- Always place the scale on a hard, flat, and stable surface. Using it on soft surfaces like carpet may result in inaccurate readings.
- The scale's surface is made of tempered glass. Avoid jumping on the scale or dropping heavy objects on it, as this may cause damage or injury.
- Do not use the scale on wet or slippery surfaces to prevent falls. Ensure your feet and the scale surface are dry before use.
- This scale is intended for household use only. It is not a medical device and should not be used for medical diagnosis or treatment.
- Keep the scale out of reach of children and pets.
- Do not attempt to disassemble or repair the scale yourself. Contact customer support if issues arise.

3. Package Contents

5.2 App Download and Pairing

1. Download the **ViHealth** app from your smartphone's app store (available on iOS and Android).
2. Enable Bluetooth on your smartphone.
3. Open the ViHealth app and create a user profile.
4. Step onto the scale to activate it. The app should automatically detect and pair with the scale via Bluetooth 4.0. Follow any on-screen prompts in the app to complete the pairing process.

6. Operating Instructions

6.1 Initial Calibration

For the first use or if the scale has been moved, it is recommended to calibrate it:

1. Place the scale on a hard, flat surface.
2. Step on the scale briefly with one foot until the display shows numbers, then step off.
3. The display will show "0.0" or similar, indicating successful calibration.

6.2 Taking a Measurement

1. Ensure the scale is on a hard, flat surface.
2. Step onto the scale barefoot and stand still.
3. The display will show your weight. Wait for the reading to stabilize and a "beep" sound (if enabled) to confirm the measurement is complete.
4. If the ViHealth app is open and Bluetooth is active, your weight and BMI data will automatically synchronize to your profile.

6.3 Changing Weight Units

The scale supports kilograms (kg), pounds (lb), and stones (st).

- On the underside of the scale, locate the "UNIT" button.
- Press the button to cycle through the available units. The selected unit will be displayed on the LCD screen.

6.4 Using the ViHealth App

The ViHealth app provides detailed tracking and analysis of your weight and BMI data.

- **Data Synchronization:** Ensure the app is open on your smartphone when taking a measurement for automatic data transfer.
- **Progress Tracking:** View detailed graphs and trends of your weight and BMI over days, weeks, months, or years.
- **Third-Party App Integration:** The ViHealth app can synchronize data with popular fitness applications such as Fitbit, Google Fit, and Apple Health.

7. Maintenance

7.1 Cleaning

- Wipe the scale surface with a damp cloth and mild detergent.

- Do not use abrasive cleaners or immerse the scale in water.

7.2 Storage

- Store the scale in a cool, dry place.
- Avoid direct sunlight or extreme temperatures.

7.3 Battery Replacement

- When the battery indicator appears on the display, replace all 3 AAA batteries.
- Ensure proper disposal of used batteries according to local regulations.

8. Troubleshooting

Problem	Possible Cause	Solution
