## CONOPU DH-JH06

# CONOPU Air Purifier User Manual

Model: DH-JH06

## 1. IMPORTANT SAFETY INSTRUCTIONS

---

Please read all instructions carefully before using this appliance and keep them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always place the air purifier on a firm, level surface.
- Do not block air inlets or outlets.
- Keep the appliance away from water or other liquids.
- Unplug the air purifier before cleaning or performing any maintenance.
- Do not use the appliance if the power cord or plug is damaged.
- This appliance is for indoor use only.
- Keep out of reach of children and pets.

## 2. PRODUCT OVERVIEW

---

The CONOPU Air Purifier is designed to improve indoor air quality by effectively removing various airborne particles. It features a 3-stage filtration system and an aromatherapy function for a pleasant environment.

Figure 2.1: Front view of the CONOPU Air Purifier, showing the control panel and air intake vents.

### 3. COMPONENTS AND FEATURES

---

This air purifier incorporates advanced features for comprehensive air purification:

- **3-Stage Filtration System:** Includes a Pre-Filter, H13 True HEPA Filter, and Activated Carbon Filter.
- **Aromatherapy Function:** Allows for the addition of essential oils to diffuse fragrance.
- **Night Light:** Integrated soft lighting for ambient use.
- **Quiet Operation:** Designed for low noise levels, suitable for bedrooms.
- **Compact Design:** Ideal for rooms up to 20m<sup>2</sup> (215 sq ft).

Figure 3.1: Illustration of the 3-stage filtration process, showing the Pre-Filter, H13 HEPA Filter, and Activated Carbon Filter.

# 360° Air Circulation

CADR 65m<sup>3</sup>/Hour, powerful motor, more purer air.

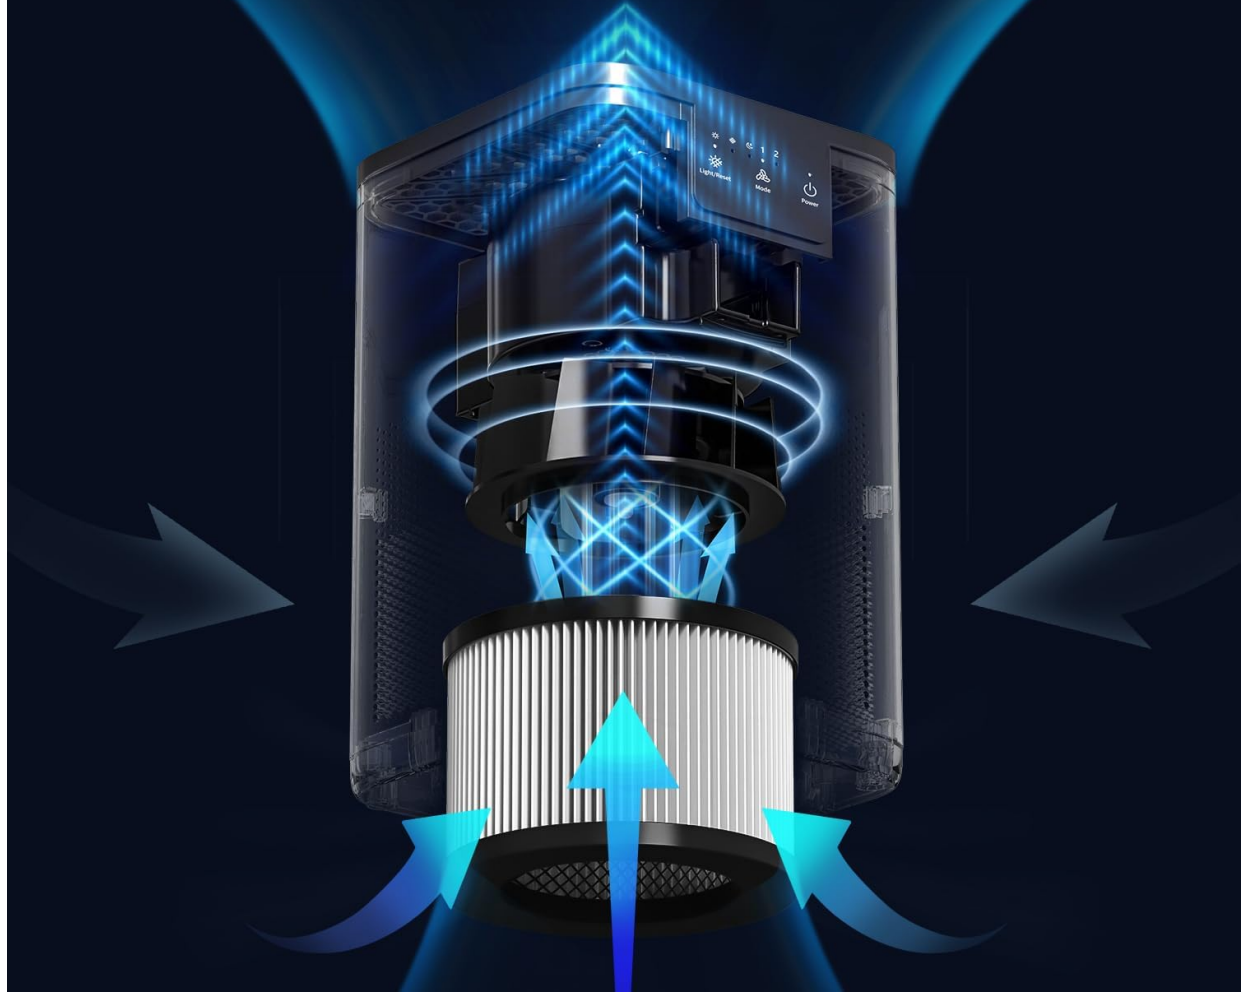

Figure 3.2: Visual representation of the 360-degree air circulation, indicating air intake from all sides and clean air output from the top.

# Add Favourite Scent

Add your favorite essential oil (not included) to fill the room with fragrance, alongside purified air.

Figure 3.3: Demonstrates how to add essential oils to the dedicated aromatherapy slot on top of the unit.

## 4. SETUP GUIDE

---

Follow these steps to set up your air purifier:

1. **Unpack:** Carefully remove the air purifier and all packaging materials from the box.
2. **Remove Filter Packaging:** Turn the unit upside down and twist the base counter-clockwise to unlock. Remove the filter and discard its plastic packaging.
3. **Install Filter:** Place the unwrapped filter back into the unit, ensuring it is seated correctly.
4. **Secure Base:** Reattach the base by twisting it clockwise until it locks securely.
5. **Placement:** Place the air purifier on a flat, stable surface, ensuring at least 15 cm (6 inches) of clearance from walls or furniture for optimal airflow.
6. **Connect Power:** Plug the power adapter into the air purifier and then into a standard electrical outlet.

## 5. OPERATING INSTRUCTIONS

---

Familiarize yourself with the control panel for easy operation:

Figure 5.1: Close-up of the control panel with Power, Mode, and Light/Reset buttons.

- **Power Button (Power):** Press to turn the air purifier ON or OFF.
- **Mode Button (Mode):** Press to cycle through fan speeds (e.g., Low, Medium, High, Sleep Mode). Sleep mode operates at the lowest noise level.
- **Light/Reset Button (Light/Reset):**

- Press once to turn the night light ON/OFF.
- Press and hold for 3 seconds to reset the filter replacement indicator after changing the filter.
- **Aromatherapy Function:** Open the aromatherapy slot cover on the top of the unit. Add 3-5 drops of your preferred essential oil onto the aromatherapy pad (not directly into the unit). Close the cover. The fan will diffuse the scent into the air.

## 6. MAINTENANCE

---

Regular maintenance ensures optimal performance and extends the life of your air purifier.

### Filter Replacement

The filter should be replaced every 3-6 months, depending on usage and air quality. The filter indicator light will illuminate when a replacement is needed.

1. Unplug the air purifier from the power outlet.
2. Turn the unit upside down and twist the base counter-clockwise to unlock.
3. Remove the old filter and dispose of it properly.
4. Insert a new CONOPU replacement filter (Model: DH-JH06 Filter) into the unit.
5. Reattach the base by twisting it clockwise until it locks securely.
6. Plug in the air purifier. Press and hold the Light/Reset button for 3 seconds to reset the filter indicator.

# True HEPA H13

Removes 99.97% of particles larger than 0.3 microns.

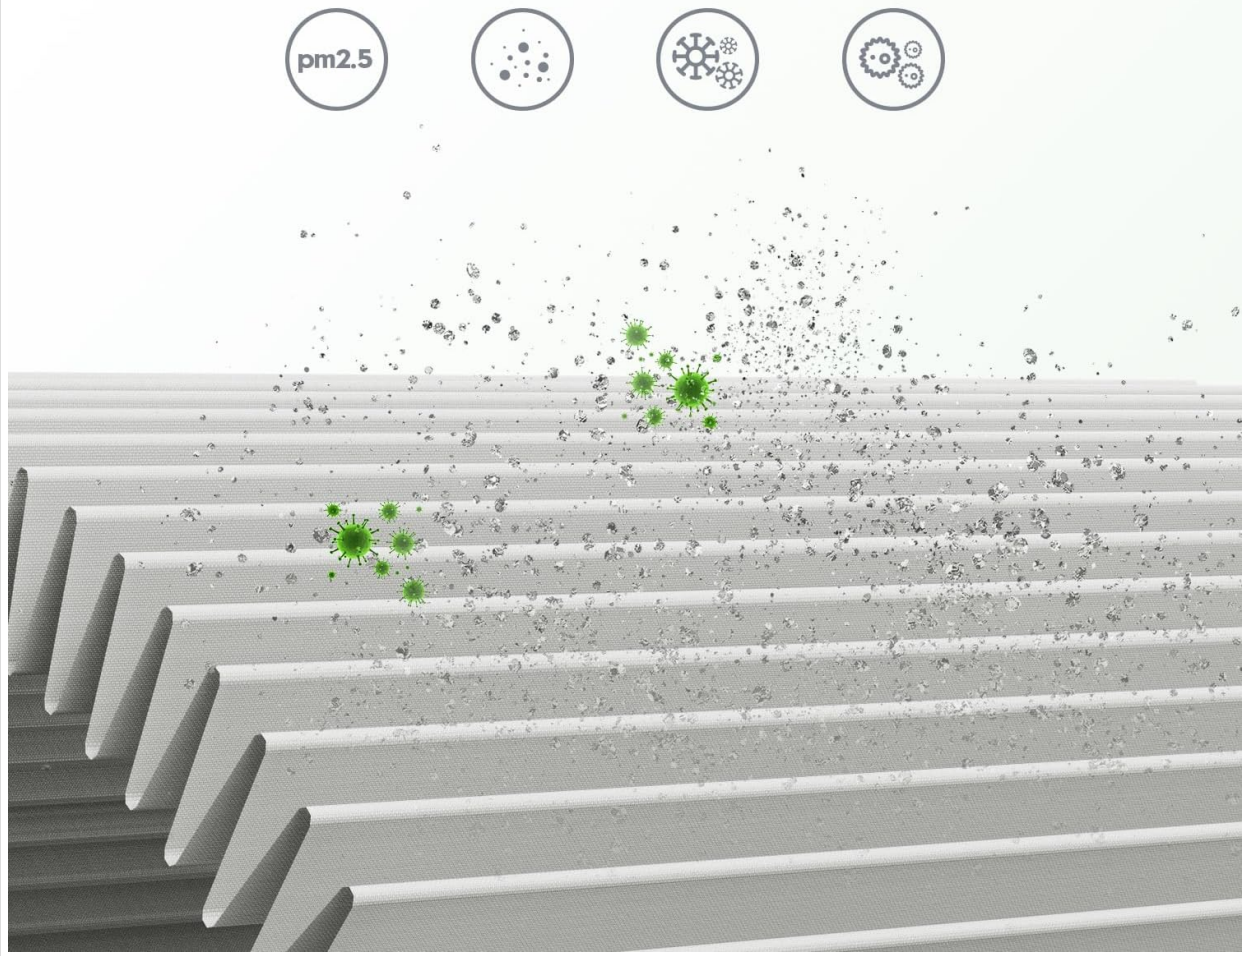

Figure 6.1: Detail of the True HEPA H13 filter, highlighting its ability to capture fine particles.

## Cleaning the Unit

- Wipe the exterior of the air purifier with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- The pre-filter layer of the composite filter can be gently vacuumed to remove large dust particles and pet hair between replacements. Do not wash the HEPA or activated carbon layers.

## Aromatherapy Pad Cleaning

If using different essential oils, you may wish to clean the aromatherapy pad. Remove the pad from its slot and gently rinse it with water. Allow it to air dry completely before reinserting or adding new essential oils.

## 7. TROUBLESHOOTING

---

Refer to this table for common issues and their solutions:

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outage; damaged power cord.	Ensure power cord is securely plugged in. Check power outlet. Contact customer support if cord is damaged.
Weak airflow or no air coming out.	Filter clogged; filter packaging not removed; air inlets/outlets blocked.	Check and replace filter if necessary. Ensure filter plastic packaging is removed. Clear any obstructions from air vents.
Unusual noise during operation.	Filter not installed correctly; foreign object inside unit.	Ensure filter is seated properly and base is locked. Unplug and check for any foreign objects.
Odor not dispersing from aromatherapy.	No essential oil added; aromatherapy pad dry; pad clogged.	Add more essential oil. Clean the aromatherapy pad.
Filter indicator light remains on after replacement.	Filter reset not performed.	Press and hold the Light/Reset button for 3 seconds to reset the indicator.
