Yumiga 70046

Yumiga 8-in-1 Dinosaur Robot Building Blocks Instruction Manual

Model: 70046

1. INTRODUCTION

This manual provides detailed instructions for assembling and maintaining your Yumiga 8-in-1 Dinosaur Robot Building Blocks set. This educational toy allows for the construction of eight individual dinosaur models, which can then be combined to form a larger robot figure. Please read all instructions carefully before beginning assembly.

2. PRODUCT OVERVIEW

The Yumiga Dinosaur Robot Building Blocks set (Model 70046) includes 831 pieces designed to create a versatile play experience. You can build eight distinct dinosaur models, each with unique characteristics. These individual models can then be reconfigured to construct one large Mecha Robot.

3. SETUP AND ASSEMBLY

Follow these steps for successful assembly:

1. **Unpacking:** Carefully open the product packaging. The building blocks for each individual dinosaur model are typically separated into individual bags.
2. **Review Instructions:** Locate the included instruction manual. It contains detailed, step-by-step diagrams for building each of the eight dinosaur models and the larger robot.
3. **Organize Pieces:** Before starting, sort the pieces by color or type as indicated in the instructions. This will simplify the building process.
4. **Assemble Individual Dinosaurs:** Begin by assembling the eight smaller dinosaur models one by one, following the corresponding sections in the manual.
5. **Combine for Robot:** Once all eight dinosaur models are complete, refer to the specific instructions for transforming and combining them into the large Mecha Robot figure.

Image: Detail showing the secure connection points of the building blocks, ensuring stability of the assembled models.

Note: Some instructions may feature colors that differ slightly from the actual block colors. Focus on the shape and connection points for accurate assembly. Younger builders may require adult assistance.

4. OPERATING AND PLAY

Once assembled, the dinosaur models and the robot figure offer various play possibilities:

- **Movable Parts:** Many of the assembled models feature movable joints and parts, allowing for dynamic posing and imaginative play. Gently manipulate these parts to avoid damage.
- **Creative Reconfiguration:** While the manual provides specific models, the building blocks can be used to create custom designs and figures, encouraging creativity.

5. MAINTENANCE

To ensure the longevity of your building block set, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the blocks. For more thorough cleaning, a damp cloth with mild soap can be used, followed by air drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the building blocks and assembled models in a cool, dry place away from direct sunlight and extreme temperatures. Keep them in their original packaging or a dedicated storage container to prevent loss of pieces.
- **Handling:** Handle assembled models with care, especially those with movable parts, to prevent accidental disassembly or damage.

6. TROUBLESHOOTING

If you encounter issues during assembly or play, consider the following:

- **Pieces Not Connecting Tightly:** Ensure that the blocks are aligned correctly and pressed firmly together. If a piece consistently fails to connect, check for any deformities or obstructions.
- **Missing Pieces:** Double-check all packaging and the building area. If a piece is genuinely missing, contact customer support (if available) with details of the missing part and the set model number.
- **Difficulty Following Instructions:** The instruction manual contains detailed images. Pay close

attention to the visual cues for piece placement and orientation. If needed, seek assistance from an adult or another builder.

- **Assembled Model Instability:** Review the assembly steps for the specific section that is unstable. Ensure all connections are firm and that no steps were missed.

7. SPECIFICATIONS

Feature	Detail
Brand	Yumiga
Model Number	70046
Number of Pieces	831
Product Dimensions	9.06 x 1.97 x 6.1 inches (packaging)
Item Weight	14.1 ounces
Material	Premium ABS (Acrylonitrile Butadiene Styrene)
Recommended Age	6 - 12 years
Manufacturer	BULUKE TOYS FACTORY

MECHA DINOSAUR

PRODUCT SIZE:

8IN1
