FOHERE AMR516

FOHERE AMR516 Centrifugal Juicer Instruction Manual

Model: AMR516

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using the FOHERE AMR516 Centrifugal Juicer. Keep this manual for future reference.

- Always ensure the juicer is properly assembled and the locking bar is securely in place before operation.
- Do not operate the appliance with a damaged cord or plug, or if the appliance malfunctions or has been damaged in any manner.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Use the food pusher provided.
- Unplug the juicer from the outlet when not in use, before assembling or disassembling parts, and before cleaning.
- Do not immerse the motor base in water or other liquids.
- This appliance is for household use only. Do not use outdoors.
- Ensure the appliance is placed on a stable, level, and dry surface during use.
- The motor is equipped with overheat protection. If the motor overheats, the juicer will automatically shut off. Unplug the unit and let it cool for 3-5 minutes before restarting.

PRODUCT COMPONENTS

Familiarize yourself with the parts of your FOHERE AMR516 Centrifugal Juicer:

- Food Pusher
- Transparent Lid
- Filter Basket (with 304 stainless steel 12-row sawtooth blades)
- Juicer Base (Motor Unit)

- Pulp Collector
- Juice Jug
- Locking Bar
- Speed Control Dial (P, 0, 1, 2)
- Cleaning Brush

Image: Overview of the FOHERE AMR516 juicer showing the pulp collector, juice jug, and main unit. The pulp collector gathers discarded fiber, while the juice jug collects the extracted liquid.

Food Grade Precise Filter

304 stainless steel and 12-row sawtooth blade make juicing faster and more efficient

- 12-Row Sawtooth Blades
- 304 Food Grade Stainless Steel

Image: Close-up of the food-grade 304 stainless steel filter basket, featuring 12-row sawtooth blades designed for efficient juice extraction.

SETUP

Assembly

1. Place the motor base on a dry, stable, and level surface.
2. Position the pulp collector onto the motor base, ensuring it fits securely.

3. Insert the filter basket into the juicer base, making sure it is firmly seated.
4. Place the transparent lid over the filter basket and pulp collector.
5. Secure the locking bar by lifting it and hooking it over the lid. Ensure it clicks into place, indicating the juicer is safely locked. The juicer will not operate if the locking bar is not secured.
6. Place the juice jug under the juice spout.

Initial Cleaning

Before first use, disassemble all removable parts (food pusher, lid, filter basket, pulp collector, juice jug) and wash them in warm, soapy water. Rinse thoroughly and dry. Wipe the motor base with a damp cloth.

OPERATING INSTRUCTIONS

Preparation

- Wash fruits and vegetables thoroughly.
- Cut larger items into pieces that fit comfortably into the feed chute. Remove pits from fruits like peaches, cherries, etc.
- For citrus fruits, peel them before juicing.

Juicing Process

1. Ensure the juicer is correctly assembled and the juice jug is in place.
2. Plug the juicer into a power outlet.
3. Turn the speed control dial to the desired setting (1 or 2).
4. Gradually feed the prepared fruits and vegetables into the feed chute using the food pusher. Do not force ingredients down.
5. Once juicing is complete, turn the dial to "0" and unplug the appliance.

Speed Settings

The FOHERE AMR516 juicer features a 3-speed control dial for optimal juicing:

- **Speed 1 (13,000 - 15,000 RPM):** Ideal for soft fruits and vegetables such as oranges, grapes, tomatoes, and soft leafy greens.
- **Speed 2 (15,000 - 18,000 RPM):** Suitable for harder fruits and vegetables like carrots, apples, celery, and ginger.
- **"P" (Pulse) Function:** Provides maximum speed instantly for short bursts, useful for clearing blockages or processing very hard ingredients quickly. Release the dial to return to "0".

Three Speed Adjustment

Easily squeeze all kinds of fruits and vegetables

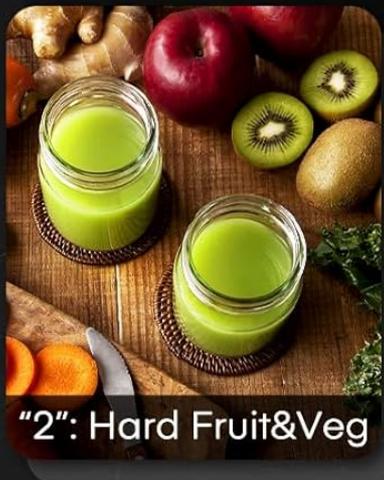

Image: The speed adjustment dial on the FOHERE AMR516 juicer, illustrating the 'P' (Pulse), '0' (Off), '1' (Low Speed), and '2' (High Speed) settings for various fruit and vegetable types.

High Juice Yield

Precise filter can squeeze out fresher and purer juice, effectively increasing the juice yield by 40%

Image: The FOHERE AMR516 juicer in operation, demonstrating its high juice yield as it extracts green juice into a glass, surrounded by fresh produce.

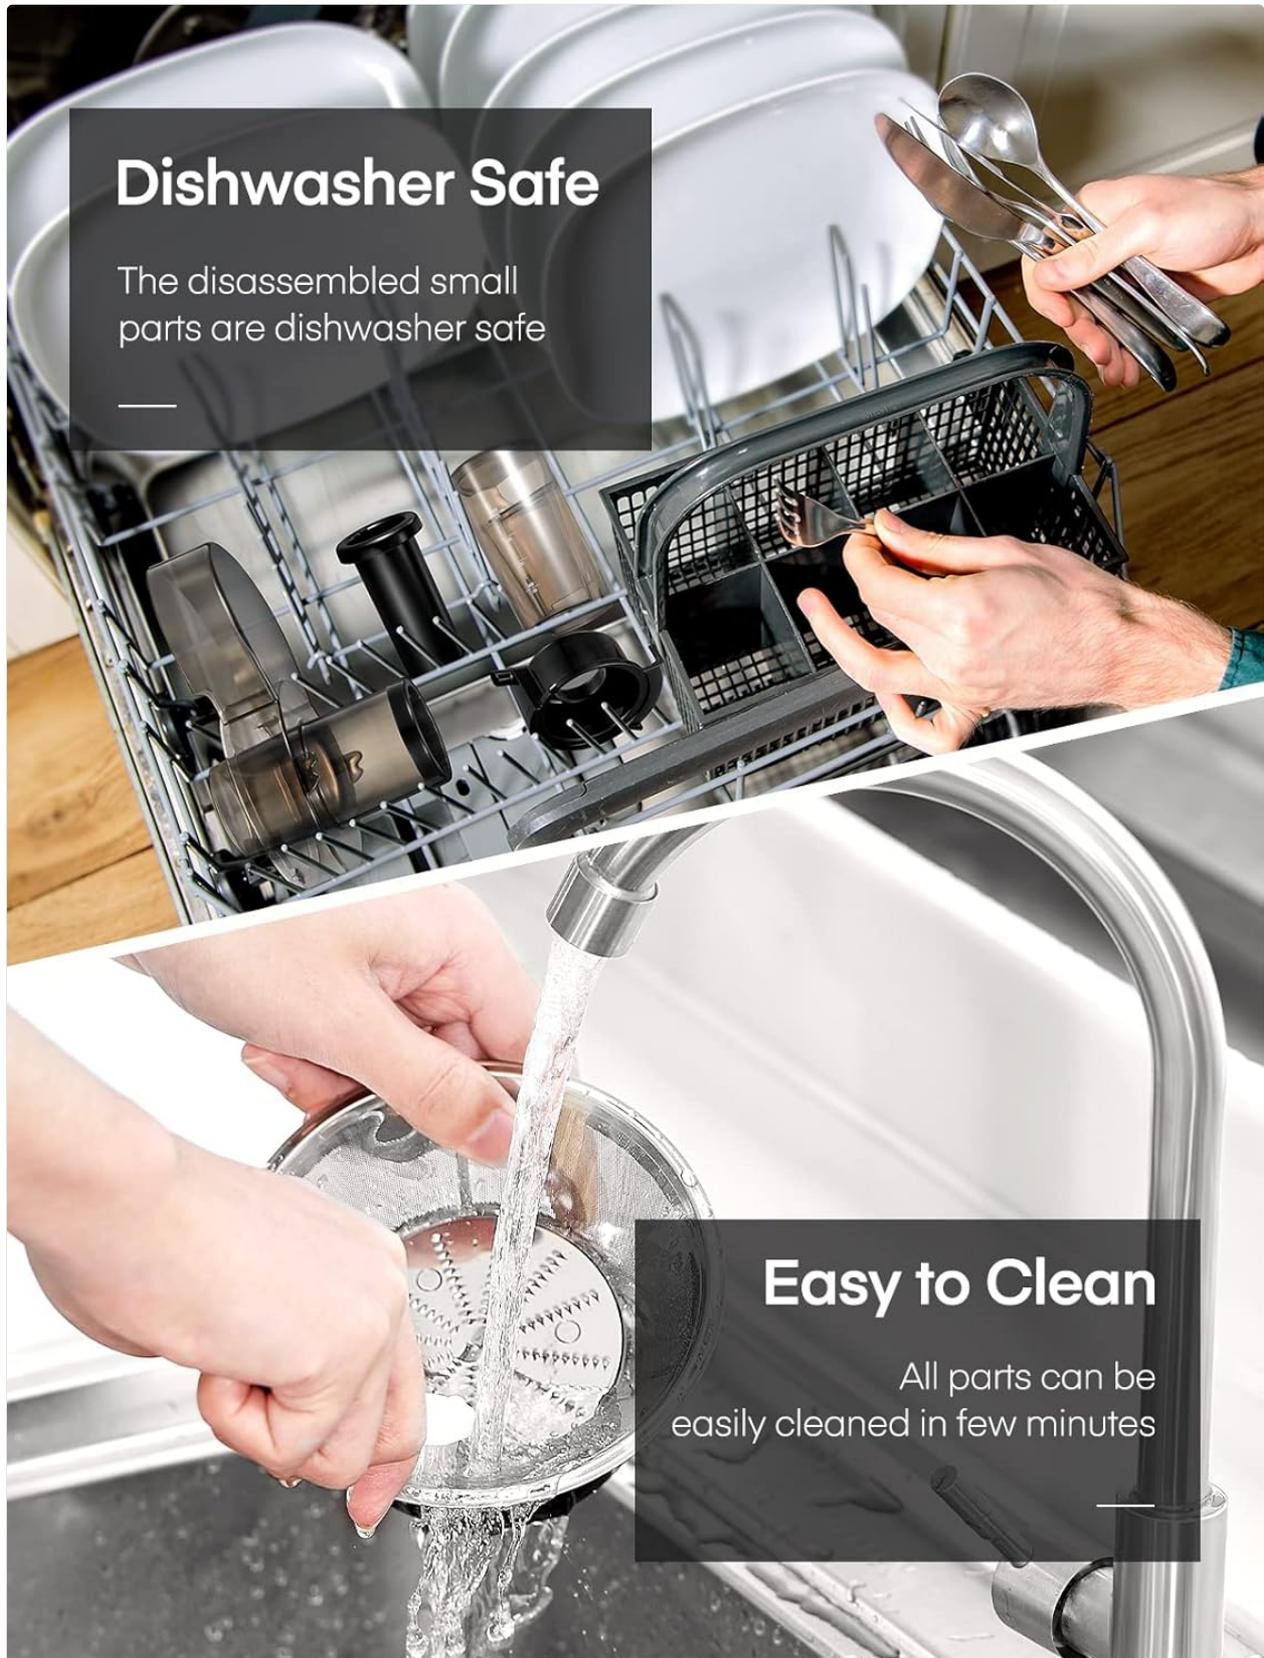

MAINTENANCE

Cleaning

Regular cleaning ensures optimal performance and longevity of your juicer.

1. Always unplug the juicer before cleaning.

2. Disassemble all removable parts: food pusher, lid, filter basket, pulp collector, and juice jug.
3. Rinse all removable parts under running water to remove pulp residue.
4. Use the provided cleaning brush to thoroughly clean the filter basket, paying special attention to the mesh and blades.
5. Wash all removable parts in warm, soapy water. They are also dishwasher safe.
6. Wipe the motor base with a damp cloth. Never immerse the motor base in water.
7. Dry all parts completely before reassembling or storing.

Dishwasher Safe

The disassembled small parts are dishwasher safe

Easy to Clean

All parts can be easily cleaned in few minutes

Image: Cleaning instructions for the FOHERE AMR516 juicer, highlighting that disassembled small parts are dishwasher safe and the filter can be easily cleaned manually with water and the provided brush.

TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
Juicer does not turn on.	Not plugged in. Locking bar not secured. Overheat protection activated.	Ensure the power cord is securely plugged into an outlet. Check that the locking bar is fully engaged over the lid. Unplug the juicer and let it cool for 3-5 minutes before restarting.
Motor stops during operation.	Overheat protection activated. Too much pressure applied to food pusher. Filter basket clogged.	Unplug the juicer and let it cool for 3-5 minutes. Reduce pressure on the food pusher. Turn off, unplug, disassemble, and clean the filter basket.
Low juice yield or excessive pulp in juice.	Incorrect speed setting for ingredients. Filter basket is dirty or clogged.	Use Speed 2 for harder fruits/vegetables. Clean the filter basket thoroughly.

SPECIFICATIONS

Feature	Detail
Brand	FOHERE
Model Number	AMR516
Color	Black
Material	Stainless Steel
Power	400 Watts
Voltage	220 Volts
Capacity (Juice Jug)	450 Milliliters
Number of Speeds	3 (P, 1, 2)

Feature	Detail
Special Features	Powerful motor, multiple speed settings, large juice and pulp container, BPA-free materials, overheat protection.
Item Weight	2.65 Kilograms
Dimensions (Product)	31P x 30I x 19H centimeters
Care Instructions	Dishwasher safe parts

WARRANTY AND SUPPORT
