

## CONOPU JH04LX-EU

# CONOPU JH04 Air Purifier Replacement Filter User Manual

Model: JH04LX-EU

Brand: CONOPU

## 1. INTRODUCTION

This manual provides essential information for the proper use, maintenance, and replacement of your CONOPU JH04 Air Purifier Replacement Filter. This filter is designed to work specifically with the CONOPU JH04 Air Purifier, ensuring optimal air quality in your environment.

The CONOPU JH04 replacement filter features a multi-layer filtration system, including a pre-filter, an H13 True HEPA filter, and an activated carbon filter, to effectively capture various airborne particles and odors.

## 2. FILTER INSTALLATION AND REPLACEMENT

It is recommended to replace the filter every 2000 hours of operation or approximately every 3-6 months, depending on air quality and usage. Regular replacement ensures the continued efficiency of your air purifier.

### 2.1. Preparing for Replacement

1. Ensure the CONOPU JH04 Air Purifier is turned off and unplugged from the power outlet before proceeding.
2. Locate the filter compartment on your air purifier. Refer to your air purifier's main user manual for specific instructions on accessing the filter compartment.

### 2.2. Removing the Old Filter

1. Open the filter compartment cover.
2. Carefully remove the used filter. It may be dusty, so handle it over a waste bin.
3. Dispose of the old filter responsibly according to local regulations.

### 2.3. Installing the New Filter

The CONOPU JH04 replacement filter is designed for easy installation.

Image: The CONOPU JH04 replacement filter, showing its compact, rectangular design with a black frame and blue filter material.

1. Unpack the new CONOPU JH04 replacement filter from its protective packaging.
2. Insert the new filter into the air purifier's filter compartment, ensuring it is oriented correctly. The filter typically has a specific direction for airflow; consult your air purifier's manual if unsure.
3. Close the filter compartment cover securely.

## 2.4. Resetting the Filter Life Indicator

After replacing the filter, you must reset the filter life indicator on your CONOPU JH04 Air Purifier. This step is crucial for the purifier to accurately track the new filter's lifespan.

- Refer to your CONOPU JH04 Air Purifier's user manual for specific instructions on how to reset the filter life indicator. This usually involves pressing and holding a specific button for a few seconds.

## 3. HOW THE FILTER WORKS (FILTRATION PROCESS)

The CONOPU JH04 replacement filter employs a comprehensive 3-layer filtration system to purify the air:

- **Pre-filter:** This initial layer captures larger airborne particles such as dust, lint, pet hair, and fibers. This extends the life of the subsequent filters.

# Catch Harmful Particles

Pre-filter captures big particles like dust, hair, pet fur.

Image: A visual representation of the pre-filter layer, showing it capturing larger particles like dust, hair, and pet fur.

- **H13 True HEPA Filter:** The core of the filtration system, the H13 True HEPA layer is highly effective at capturing 99.97% of airborne particles as small as 0.3 microns. This includes pollen, pet dander, mold spores, and dust mites.

# True HEPA H13

Removes 99.97% of particles larger than 0.3 microns.

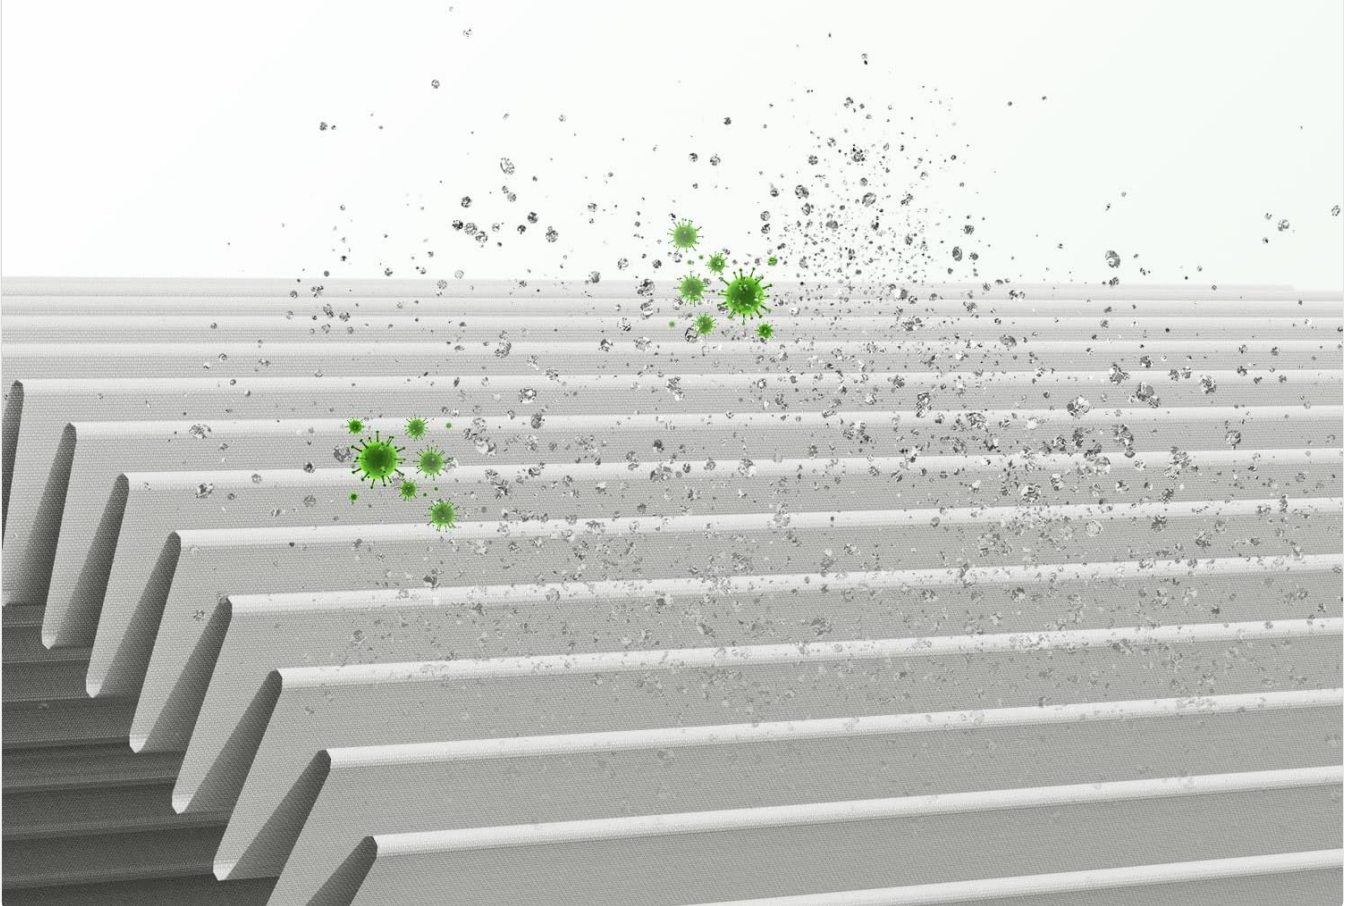

Image: An illustration depicting the True HEPA H13 filter effectively removing microscopic particles such as PM2.5, pollen, and bacteria.

- **Activated Carbon Filter:** This layer is designed to absorb various household odors, volatile organic compounds (VOCs), smoke, cooking smells, and pet odors, leaving the air fresh and clean.

# Activated Carbon Layer

Remove most of smoke fume, pet odor, VOCs, formaldehyde.

## 4. MAINTENANCE AND CARE

The CONOPU JH04 replacement filter is a consumable part and cannot be washed or reused. For optimal performance and air quality, adhere to the following maintenance guidelines:

- **Filter Lifespan:** The filter has an estimated lifespan of 2000 hours. The air purifier's filter indicator light will typically signal when a replacement is due.
- **Replacement Frequency:** Depending on the air quality in your environment and the frequency of use, the filter may need to be replaced every 3 to 6 months. In areas with higher pollution or frequent pet presence, more frequent replacement might be necessary.
- **Cleaning:** Do not attempt to wash or clean the filter with water or any cleaning solutions. This can damage the filter media and reduce its effectiveness.
- **Storage:** If storing a new filter, keep it in its original sealed packaging in a cool, dry place away from direct sunlight and extreme temperatures.

## 5. TROUBLESHOOTING

If you encounter issues after replacing your filter, consider the following common scenarios:

Problem	Possible Cause	Solution
Air quality does not improve after filter replacement.	<ul style="list-style-type: none"><li>Filter life indicator not reset.</li><li>Filter not installed correctly.</li><li>Air purifier unit malfunction.</li></ul>	<ul style="list-style-type: none"><li>Ensure the filter life indicator on your air purifier has been reset.</li><li>Check that the filter is fully seated and the compartment cover is closed securely.</li><li>Refer to your air purifier's main user manual for troubleshooting the unit itself.</li></ul>
Filter does not fit into the air purifier.	Incorrect filter model purchased.	Verify that you have purchased the correct replacement filter (Model JH04LX-EU) for your CONOPU JH04 Air Purifier. Double-check the model number on your air purifier.
Unusual odor after new filter installation.	New filter "new smell" or packaging residue.	A slight "new" smell is normal for the first few hours of operation with a new activated carbon filter. Ensure all packaging is removed from the filter. If the odor persists, contact customer support.

## 6. PRODUCT SPECIFICATIONS

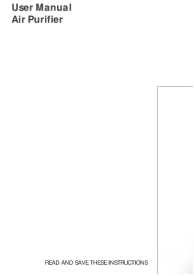

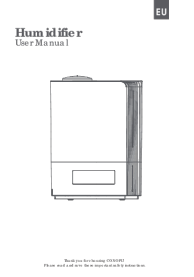

Feature	Detail
Brand	CONOPU
Model Number	JH04LX-EU
Filter Type	True HEPA H13 + Activated Carbon + Pre-filter (3-layer filtration)
Filtration Efficiency	Captures 99.97% of particles 0.3 microns and larger
Estimated Lifespan	2000 hours
Dimensions (L x W x H)	22.6 x 27.1 x 3.5 cm (8.9 x 10.67 x 1.38 inches)
Item Weight	150 g (0.33 lbs)
Compatibility	Specifically designed for CONOPU JH04 Air Purifier

## 7. WARRANTY AND CUSTOMER SUPPORT

This replacement filter is a consumable item. For information regarding the warranty of your CONOPU JH04 Air Purifier or for any support related to the filter, please refer to the original air purifier's user manual or contact CONOPU customer support directly.

For further assistance, please visit the official CONOPU website or contact their customer service department. Keep your purchase receipt for any warranty claims.
