AirClub Bassinet Bedside Sleeper Instruction Manual

Model: COS-gray

Brand: AirClub

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use of the AirClub Bassinet Bedside Sleeper. Keep this manual for future reference.

- Always ensure the bassinet is placed on a firm, horizontal surface.
- Never use the bassinet if any parts are missing, damaged, or broken. Contact AirClub for replacement parts.
- Ensure all locking mechanisms are engaged before placing a child in the bassinet.
- The mattress provided is specifically designed for this bassinet. Do not add additional padding or mattresses, as this can create a suffocation hazard.
- Always use the safety straps when using the bassinet in bedside sleeper mode to securely attach it to the adult bed.
- The breathable mesh sides are designed for optimal airflow and visibility. Ensure they are always unobstructed.
- Do not use the bedside sleeper mode if the height of the adult bed mattress is not compatible with the bassinet's adjustable height range (28" to 31").
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached the weight limit specified by the manufacturer, whichever comes first.

Image: AirClub Bassinet Safety Certifications. This image displays various safety and quality certifications, including CPSC Children Product Certified, ASTM F406-22 Standard Consumer Safety Specification for Crib/Play Yards, BSCI, Consumer Product Safety Commission (CPSC) United States, and ISO 9001:2000 SGS.

WHAT'S IN THE BOX

Before beginning assembly, ensure all components are present:

- 1 x Bassinet Frame (with attached fabric)
- 1 x Integrated Supporting Board
- 1 x Mattress
- 4 x Dual-Function Feet
- 2 x Support Tubes
- 1 x Storage Bag
- 2 x Safety Straps

SETUP INSTRUCTIONS

The AirClub Bassinet Bedside Sleeper is designed for quick and easy setup.

1. **Unpack Components:** Remove all items from the storage bag and packaging.
2. **Extend the Frame:** Place the folded bassinet frame on a flat surface. Gently pull the sides outwards to extend the frame until it locks into place. The design allows for an assemble-free quick extend.
3. **Attach Feet and Support Tubes:** Insert the dual-function feet into the designated slots on the bassinet frame. Attach the support tubes between the feet for added stability. Ensure all connections are secure.
4. **Insert Supporting Board:** Place the integrated supporting board at the bottom of the bassinet.
5. **Place Mattress:** Lay the mattress flat inside the bassinet on top of the supporting board.
6. **Adjust Height (if needed):** Use the height adjustment mechanisms on the legs to set the bassinet to

your desired height. There are 4 adjustable levels from 28 inches to 31 inches, with each level 1 inch apart.

Image: Assemble-Free Quick Extend. This image demonstrates the bassinet's frame extending easily without requiring complex assembly steps.

Image: 3s Quick Stand Up. This image shows the bassinet quickly standing upright, highlighting its ease of deployment.

OPERATING INSTRUCTIONS

2-in-1 Convertible Modes

The AirClub Bassinet offers two primary modes of use:

- **Standalone Bassinet Mode:** Use the bassinet independently in any room. Ensure all four legs are fully extended and the auto-lock wheels are retracted for maximum stability.
- **Bedside Sleeper Mode:** Position the bassinet next to your adult bed. Unzip and lower the retractable side for direct access to your baby. Secure the bassinet to your bed using the provided safety straps. This mode is ideal for nighttime feeding and comforting.

Image: Bassinet vs. Bedside Crib Modes. This image visually distinguishes between the standalone bassinet mode and the bedside sleeper mode, showing a mother reading next to the bassinet and a mother sleeping next to it.

Retractable Side Operation

To use the bedside sleeper function, locate the zipper on the side of the bassinet. Unzip and gently lower the side. The second layer of the bedside sleeper is secured by a zipper to prevent collapse and ensure even support.

Image: Zipper Protection and Even Support. This image highlights the zipper mechanism that secures the retractable side, ensuring stability and preventing collapse.

Auto-Lock Wheels

The bassinet features exclusive 4 auto-lock wheels for enhanced stability and mobility:

- **For Movement:** Lift one side of the bassinet. The supporting two feet will convert into wheels, allowing for smooth movement.
- **For Stability:** When all four legs are landed, the wheels retract into the feet, ensuring a tight grip on the floor and preventing accidental movement. This design eliminates the need to manually lock and unlock wheels.

Image: Auto-Lock Wheels Feature. This image illustrates how the auto-lock wheels function, showing them exposed for mobility when lifted and hidden for stability when landed.

Adjustable Height

The bassinet's height can be adjusted to 4 different levels, ranging from 28 inches to 31 inches, with each level being 1 inch apart. This allows for compatibility with various adult bed heights and provides flexibility for daytime use.

Image: Adjustable Height Feature. This image shows the bassinet with height measurements, indicating the 4 adjustable levels from 28 to 31 inches.

Portability

The AirClub Bassinet is lightweight (approximately 16 pounds) and designed for easy portability. It can be folded down to a compact, carry-on baggage size (38.6" x 23.6") and stored in the included storage bag, making it convenient for travel.

MAINTENANCE AND CARE

Proper care will extend the life of your AirClub Bassinet Bedside Sleeper:

- **Mattress Cover:** The mattress cover is removable and machine washable. Follow the care instructions on the label for best results.

- **Frame:** Spot clean the bassinet frame with a damp cloth. Do not immerse the frame in water.
- **General Cleaning:** Regularly wipe down all surfaces with a mild soap and water solution. Ensure all parts are completely dry before reassembly or storage.

Image: Easy Detach and Wash Feature. This image shows hands unzipping the fabric cover of the bassinet, illustrating how easily it can be detached for washing.

TROUBLESHOOTING

If you encounter any issues with your AirClub Bassinet Bedside Sleeper, please refer to the following common solutions:

- **Bassinet feels unstable:** Ensure all four dual-function feet are fully landed and the auto-lock mechanism has engaged, retracting the wheels. Check that the support tubes are securely attached.
- **Retractable side not lowering/raising smoothly:** Check for any fabric obstructions or debris in the zipper track. Ensure the zipper is fully unzipped before attempting to lower the side.
- **Difficulty adjusting height:** Ensure no weight is in the bassinet when adjusting height. Check that the adjustment buttons or levers are fully depressed or released as required by the mechanism.
- **Bassinet not folding compactly:** Ensure the mattress and supporting board are removed, and all frame components are properly aligned before attempting to fold. Refer to the setup section for folding instructions in reverse.

If the problem persists or you experience an issue not listed here, please contact AirClub customer support for assistance.
