BORUIT V3, V7

BORUIT V3 and V7 Flashlight Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your BORUIT V3 and V7 EDC flashlights. Please read this manual thoroughly before operation to ensure proper functionality and longevity of your devices.

SETUP

Charging the Flashlights

Both BORUIT V3 and V7 flashlights are equipped with a Type-C charging port. Before first use, or when the battery is low, charge the flashlight using a standard USB-C cable and a compatible power source.

- Connect the Type-C cable to the flashlight's charging port.
- Connect the other end of the cable to a USB power adapter or a computer's USB port.
- For the V7 flashlight, a red light will flash during charging, and a green light will indicate a full charge.
- The V3 flashlight has a battery indicator display that shows charging status.

TYPE-C CHARGING

Built-in 500mAh lithium polymer battery, using Type-C charging interface, practical and convenient.

Charing:red light

Full charging:green light

OPERATING INSTRUCTIONS

BORUIT V3 Flashlight Operation

The BORUIT V3 flashlight features 12 lighting modes, including 5 main light modes and 7 side light modes.

Main Light Modes:

- Super Bright
- High Light
- Medium Bright
- Low Light
- Economic

Side Light Modes:

- White Light
- UV Light
- Red Light
- Red Light Flash
- Red Blue Light Flash

Operating the V3 Main Light:

- **Turn On/Off:** Press the main light switch button to turn on. Release to turn off.
- **Change Modes:** Double-click the main light switch button to cycle through modes.
- **Turn Off from Mode:** Press and hold the main light switch button to turn off.

Operating the V3 Side Light:

- **White Light:** Long press the side light switch to turn on the white light. Long press again to turn it off.
- **Red-Blue Flash:** Click the side light switch three times to activate the red-blue flash.
- **Change Modes:** Double-click the side light switch to cycle through other side light modes.
- **Turn Off from Mode:** Press and hold the side light switch to turn off.

BORUIT V7 Flashlight Operation

The BORUIT V7 flashlight features 3 powerful LED lights and multi-color side lights. Specific mode cycling instructions are similar to the V3 model, typically involving single clicks, double clicks, and long presses of the power button to cycle through brightness levels and special modes.

Magnetic Tail and Clip:

The V7 flashlight includes a magnetic tail, allowing it to be attached to metallic surfaces for hands-free operation. A clip on the back enables secure attachment to pockets, straps, or hats.

MAINTENANCE

To ensure optimal performance and extend the lifespan of your BORUIT flashlights, follow these maintenance guidelines:

- **Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The V3 is IP65 waterproof, and the V7 is IPX5 waterproof. While resistant to splashes and rain, avoid submerging the flashlights in water for extended periods. Ensure the charging port cover is securely closed to maintain water resistance.
- **Storage:** Store the flashlights in a cool, dry place away from direct sunlight and extreme temperatures. If storing for a long period, ensure the battery is partially charged (around 50%) to prevent deep discharge.
- **Battery Care:** Recharge the battery regularly, even if not in frequent use, to maintain battery health.

TROUBLESHOOTING

If you encounter issues with your BORUIT flashlight, refer to the following common troubleshooting steps:

- **Flashlight Not Turning On:**

  - Ensure the battery is charged. Connect to a charger and check the indicator light.
  - Verify that the power button is being pressed correctly according to the operating instructions (e.g., single press, double-click, long press).

- **Dim Light Output:**

  - The battery may be low. Recharge the flashlight.
  - Ensure the flashlight is not in an economic or low-power mode. Cycle through the modes to a brighter setting.

- **Charging Issues:**

  - Check the charging cable and adapter for damage. Try a different cable or power source.

- Ensure the Type-C cable is fully inserted into the charging port.

SPECIFICATIONS

BORUIT V3 Flashlight

Parameter	Detail
Material	PC + 304 Stainless Steel
Lumens	900 LM
Light Source	LED
Lighting Modes	12 (5 Main, 7 Side)
Light Color	UV, White, Red, Blue Light
Charging Type	TYPE-C
Waterproof Grade	IP65
Irradiation Distance	100 meters
Product Size	15mm * 31mm * 56mm

BORUIT V7 Flashlight

Parameter	Detail
Lighting Source	3*LED
Lamp Luminous (lm)	1100lm
Beam Distance	100 Meters (328 feet)
Battery Capacity	800mAh Polymer Lithium Battery
Input	5V
Charging Time	3 Hours
Charging Indicator	Red light flash (charging), Green light (full)
Shell Material	Aluminium Alloy
