# Sojag Bahia Patio Glider Chair User Manual

Model: 108-9161212

## INTRODUCTION

This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your Sojag Bahia Patio Glider Chair. Crafted with a heavy-duty aluminum frame and PVC-coated fabric, this chair is designed for outdoor use, offering a smooth gliding motion for relaxation.

Please read these instructions carefully before assembly and use to ensure proper function and longevity of your product. Keep this manual for future reference.

## 1. SETUP AND ASSEMBLY

The Sojag Bahia Patio Glider Chair requires assembly. Follow the step-by-step illustrated instructions provided in the product packaging for a quick and straightforward setup. Ensure all components are present before beginning assembly.

### Included Components:

- Assembly hardware
- Chair frame components
- Seating fabric

Refer to the detailed diagrams for correct part identification and assembly sequence.

**Figure 1:** Dimensional drawing of the Sojag Bahia Glider Chair, illustrating key measurements for assembly and placement.

**Figure 2:** An assembled Sojag Bahia Glider Chair, ready for use in an outdoor environment.

## 2. OPERATION

---

The Sojag Bahia Glider Chair is designed for comfortable outdoor relaxation. Its easy-glide mechanism provides a smooth, gentle rocking motion. To operate, simply sit in the chair and gently push off with your feet to initiate the gliding movement.

- Ensure the chair is placed on a stable, level surface before use.
- Avoid sudden, forceful movements that could strain the gliding mechanism.
- This chair is intended for outdoor use only.

### 3. MAINTENANCE

---

Proper care and maintenance will extend the life and preserve the appearance of your Sojag Bahia Glider Chair.

#### Cleaning Instructions:

- **Frame:** The aluminum frame is rustproof and requires minimal maintenance. Clean with a soft cloth dampened with water and a mild soap solution. Rinse thoroughly and dry completely.
- **Fabric:** The PVC-coated polyester fabric resists stretching and fading. Clean the fabric with a soft brush or sponge using water and a mild soap solution. Rinse well and allow to air dry.
- **General:** Avoid using abrasive cleaners, bleach, or harsh chemicals, as these can damage the finish and fabric.

#### Protective Coating:

The frame is finished with AkzoNobel's Interpon powder coating, which provides superior resistance to scratches, chips, and corrosion. Regular cleaning helps maintain this protective layer.

### 4. TROUBLESHOOTING

---

If you encounter issues with your Sojag Bahia Glider Chair, refer to the following common solutions:

- **Assembly Difficulties (e.g., misaligned holes):** Double-check the assembly instructions to ensure all parts are correctly oriented. Do not force components. If parts appear defective or significantly misaligned, contact customer support.
- **Gliding Mechanism Noise or Stiffness:** Ensure all bolts and fasteners are securely tightened. Lubricate moving parts of the gliding mechanism with a silicone-based lubricant if necessary. Verify the chair is placed on a flat, level surface.
- **Wobbling or Instability:** Confirm all assembly hardware is fully tightened. Ensure the chair is on a firm, level surface.

If problems persist after attempting these solutions, contact customer support for further assistance.

### 5. SPECIFICATIONS

---

| Feature      | Detail      |
|--------------|-------------|
| Brand        | Sojag       |
