GUWELL 22000 Lumen 2-Adjustable Head LED Work Light - Instruction Manual

Model: 23-WL-01 | Brand: GUWELL

1. INTRODUCTION

This manual provides essential information for the safe and efficient use of your GUWELL 22000 Lumen 2-Adjustable Head LED Work Light. This powerful lighting solution is designed to provide bright, pure white illumination (6500K color temperature) for various indoor and outdoor tasks. Its adjustable features and durable construction ensure reliable performance in diverse working conditions.

2. SETUP

The GUWELL LED Work Light comes with a telescoping tripod stand for versatile positioning. Assembly is straightforward and requires no additional tools.

1. **Unfold the Tripod:** Carefully extend the tripod legs until they are fully spread, ensuring a stable base. Tighten any locking mechanisms to secure the legs in place.

2. **Adjust Tripod Height:** Loosen the twist-lock knob on the tripod pole. Extend the pole to your desired height and then tighten the knob securely to prevent slippage.
3. **Attach the Light Bar:** Align the central bolt of the light bar with the top of the tripod pole. Secure it by twisting the knob until the light bar is firmly attached.
4. **Position Light Heads:** Adjust the individual light heads to direct illumination where needed. Each head can be rotated 360 degrees horizontally and vertically.

3. OPERATING INSTRUCTIONS

The GUWELL LED Work Light is designed for ease of use, offering flexible lighting options.

1. **Power Connection:** Plug the power cord into a standard 120V electrical outlet. The cord is sufficiently long to allow for flexible placement.
2. **Turning On/Off:** Each lamp head is equipped with an individual switch. Press the red button located on the back of each light head to turn it on or off. This allows you to use one, two, or all lights as required.
3. **Adjusting Light Direction:** The light heads feature a manual twist-lock knob and twist-lock ring design, allowing for 360° horizontal rotation and 360° one-way upward vertical rotation. Adjust the angle of each light head to precisely illuminate your work area without moving the entire appliance.
4. **Detachable Use:** For tasks requiring closer or more focused illumination, the light bar with the two heads can be detached from the tripod stand. The light bar has rubber feet, allowing it to be placed directly on the ground or other surfaces.

FREE ADJUSTMENT

360°

Flip horizontally
360°

Vertical rotation 360°

- ✓ No tools required
- ✓ Manual twist lock knob and twist lock ring design
- ✓ Precise lighting to the location and range you want

4. FEATURES AND DESIGN

- **Super Bright LED Light Source:** Provides 21000 lumens of bright, pure white light with a 6500K color temperature, ensuring excellent visibility in various conditions.
- **Adjustable and Foldable Tripod Stand:** The telescoping tripod can be easily adjusted to different heights and folds compactly for transport and storage.
- **360° Rotatable Heads:** Each light head can be independently rotated 360° horizontally and vertically, allowing precise light direction.
- **Durable Structure:** Constructed with a rugged die-cast aluminum housing, tempered glass, and an aluminum alloy bracket. The heat emission structure on the back ensures efficient operation and extends service life.
- **IP65 Waterproof Design:** The light is designed to be waterproof, making it suitable for use in poor working conditions and outdoor environments.

5. SPECIFICATIONS

Feature	Detail
Brightness	21000 Lumen
Color Temperature	6500 Kelvin
Number of Light Sources	2
Wattage	210 Watts
Light Source Type	Light Emitting Diode (LED)
Material	Aluminum, Glass
Mounting Type	Tripod

Waterproof Rating	IP65
Power Source	Corded Electric
Item Weight	8.64 pounds
Item Model Number	23-WL-01

6. MAINTENANCE

To ensure the longevity and optimal performance of your GUWELL LED Work Light, follow these simple maintenance guidelines:

- **Cleaning:** Regularly wipe the light heads and stand with a soft, damp cloth to remove dust and debris. Avoid using abrasive cleaners or solvents that could damage the finish or electrical components.
- **Storage:** When not in use, fold the tripod stand for compact storage. Store the work light in a dry, cool place away from direct sunlight and extreme temperatures.
- **Cable Inspection:** Periodically check the power cord for any signs of damage, fraying, or cuts. If any damage is found, discontinue use immediately and contact customer support.
- **Heat Dissipation:** Ensure the heat emission structure on the back of the light heads remains clear of obstructions to allow for proper cooling.

7. TROUBLESHOOTING

If you encounter any issues with your GUWELL LED Work Light, please refer to the following basic troubleshooting steps:

- **Light Not Turning On:**
 - Ensure the power cord is securely plugged into a functional electrical outlet.
 - Check if the individual power switch on the back of the light head is in the 'ON' position.
 - Verify that the power outlet is receiving electricity by testing it with another device.
- **Unstable Stand:**
 - Ensure the tripod legs are fully extended and the locking mechanisms are tightened.
 - Place the stand on a flat, stable surface.

For issues not covered here, please contact our customer support.

8. WARRANTY AND SUPPORT

GUWELL is committed to providing high-quality products and excellent customer service. Your GUWELL LED Work Light comes with a **3-year warranty service**.

If you experience any defects or have questions regarding your product, please do not hesitate to contact us. We offer **7/24 hours customer service** to address your concerns.

For support, please visit our official website or refer to the contact information provided on your product packaging.
