# HECASA Seat Bottom Cushion Instruction Manual

Model: MO-1796 | Brand: HECASA

## 1. INTRODUCTION

Thank you for choosing the HECASA Driver Side Seat Bottom Cushion. This manual provides essential information for the proper installation, maintenance, and use of your new seat cushion. Designed for durability and comfort, this replacement cushion ensures a secure and stable ride.

## 2. PRODUCT OVERVIEW

The HECASA Seat Bottom Cushion is engineered to provide robust body support, helping drivers maintain balance and stability, especially on uneven terrain. Its heavy-duty construction ensures longevity and resistance to wear.

### Key Features:

- **Body Support:** Provides support for drivers to help maintain balance and stability on bumpy roads, reducing impact and fatigue.
- **Heavy Duty Construction:** Made of high-quality automotive-grade plastic, lightweight, strong, stable, and resistant to deformation, breakage, and fading for a longer lifespan.
- **Direct Fit Replacement:** Designed for direct bolt-on installation without additional drilling or modifications.

### Compatibility:

This seat bottom cushion is compatible with 2013-2019 Polaris Ranger ETX, EU, EV, XP 570, 900, 1000, Diesel, EU HST Deluxe, CREW, 900XP, and 1000XP models. It is a direct replacement for OEM part number 2684966-070.

### 3. PACKAGE CONTENTS

---

- 1 x Driver Side Seat Bottom Cushion
- Hardware (included)

*Note: Additional instructions beyond this manual are not included.*

### 4. INSTALLATION INSTRUCTIONS

---

The HECASA Seat Bottom Cushion is designed for easy, direct bolt-on installation without requiring modifications to your vehicle or the seat itself. Follow these general steps for installation:

1. **Remove Old Seat:** Carefully remove the existing driver side seat bottom cushion from your Polaris Ranger. Note the location of any mounting hardware or heat shields.
2. **Transfer Heat Shield (if applicable):** Some Polaris Ranger models may have a heat shield attached to the underside of the original seat. If your original seat has a removable heat shield, transfer it to the new HECASA cushion. The new cushion includes pre-drilled mounting provisions for this purpose. If your original seat used foil tape for heat protection, you can apply new foil tape (included with the seat) to the underside of the new cushion as needed.
3. **Position New Cushion:** Align the hinge brackets on the front of the new seat cushion with the corresponding frame points on your vehicle.

4. **Secure Mounting Posts:** Drop the seat into place, ensuring the mounting posts on the underside of the cushion align with the rubber grommets on the rear frame of your vehicle.
5. **Final Check:** Ensure the seat is securely fastened and does not wobble.

## 5. MAINTENANCE

---

To ensure the longevity and appearance of your HECASA Seat Bottom Cushion, regular maintenance is recommended:

- **Cleaning:** Wipe the vinyl surface with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that could damage the material.
- **Inspection:** Periodically check all mounting points and hardware for tightness. Re-tighten if necessary.
- **Storage:** If the vehicle is stored outdoors for extended periods, consider using a protective cover to shield the seat from prolonged sun exposure and harsh weather conditions.
