YORTOT AC198-Grey

YORTOT Wireless Charging Station with Alarm Clock

Model: AC198-Grey | Brand: YORTOT

INTRODUCTION

The YORTOT Wireless Charging Station is a versatile 5-in-1 device designed to streamline your bedside or desk setup. It combines a multi-device wireless charger with a digital alarm clock and a customizable 7-color night light. This station ensures your essential devices are charged and ready while providing convenient timekeeping and ambient lighting. It features advanced safety protections including over-current, over-voltage, over-temperature, and foreign object detection to safeguard your devices during charging. Please note: The Apple Watch charging cable is not included and must be supplied by the user.

WHAT'S IN THE Box

- YORTOT Wireless Charging Station (includes Wireless Charging Pad and Alarm Clock)
- Power Adapter

Important: Apple Watch charging cable is NOT included.

2. Apple Watch Charging Cable Installation:

- Open the cover on the back of the Apple Watch charging stand.
- Insert your original Apple Watch magnetic charging cable (not included) into the designated slot.
- Route the cable through the internal channels and connect its USB-A or USB-C end to the corresponding port inside the cubby.
- Securely close the cover, ensuring the cable is neatly tucked away.

Charging Apple Watch

Once your Apple Watch charging cable is installed (as per Setup Guide), simply place your Apple Watch onto the magnetic charging puck on the dedicated stand. Ensure it snaps into place and the charging icon appears on your watch screen.

Charging AirPods

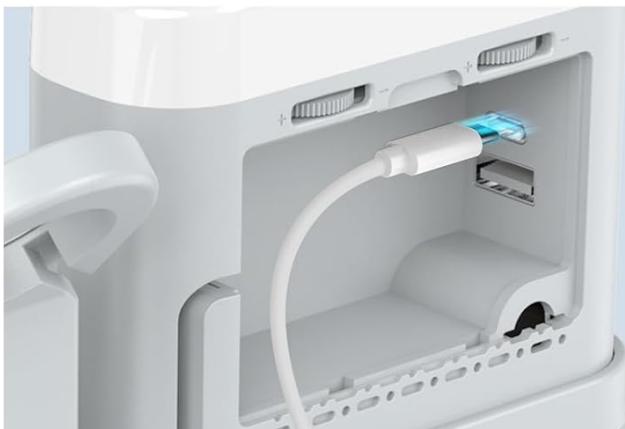

Place your AirPods case onto the built-in Lightning connector located next to the Apple Watch stand. Ensure it is firmly seated. The indicator light on your AirPods case will show charging status.

Build-in Airpods Plug

Cable Tie to Bind Wire

Support Both USB-A
USB-C Cable

Alarm Clock Functions

- **Setting Time/Alarm:** Use the dedicated buttons on the top panel (e.g., 'Set', '+', '-') to adjust the time and set your desired alarm.
- **12/24 Hour Mode:** Toggle between 12-hour (with AM/PM indicator) and 24-hour display modes as preferred.
- **Volume Adjustment:** The alarm features 3 adjustable volume levels. Use the appropriate button or dial to select your preferred volume.
- **Display Brightness:** Use the "Display Dimmer" wheel on the back of the unit to adjust the brightness of the LED clock display from 0% to 100%. This allows for comfortable viewing in any lighting condition, including dimming for sleep.
- **Snooze Function:** Press the "LIGHT/SNOOZE" button on the top to activate snooze when the alarm sounds.

Dial Controls & Easy Setup

Image: Rear view of the charging station highlighting the dimmer dials for the display and night light.

Night Light Operation

- **Changing Colors:** Press the "LIGHT/SNOOZE" button (or dedicated light button if present) to cycle through the 7 available night light colors.
- **Brightness Adjustment:** Use the "Nightlight Dimmer" wheel on the back of the unit to adjust the night light brightness from 10% to 100%.

7 Colors Night Light

0-100% Adjustable Brightness

MAINTENANCE

- Keep the charging station clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Ensure the ventilation holes on the unit are not blocked to prevent overheating.
- Protect the device from extreme temperatures, direct sunlight, and moisture.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Device not charging wirelessly.	<ul style="list-style-type: none"> ◦ Ensure your device is Qi-compatible. ◦ Check if the device is properly centered on the charging pad. ◦ Remove any thick phone cases or metallic objects that may interfere with charging. ◦ Verify the power adapter is securely connected.
Alarm clock display is dim, flickering, or showing incorrect time.	<ul style="list-style-type: none"> ◦ Adjust the "Display Dimmer" wheel on the back of the unit. ◦ Unplug the power adapter, wait 10 seconds, and plug it back in to reset the unit. ◦ If the unit has backup batteries (not specified in product details, but common for clocks), ensure they are installed and functional to maintain time during power outages.
Apple Watch or AirPods not charging.	<ul style="list-style-type: none"> ◦ For Apple Watch: Ensure your original Apple Watch charging cable is correctly installed and connected inside the cubby. ◦ For AirPods: Ensure the case is firmly seated on the built-in Lightning connector. ◦ Verify the power adapter is securely connected.
Night light not working or changing colors.	<ul style="list-style-type: none"> ◦ Press the "LIGHT/SNOOZE" button to activate or cycle colors. ◦ Adjust the "Nightlight Dimmer" wheel on the back. ◦ Ensure the unit is properly powered.
