Ajjas GO (Wireless)

User Manual: Ajjas GO Wireless GPS Tracker

Model: GO (Wireless)

1. INTRODUCTION

The Ajjas GO Wireless GPS Tracker is a portable device designed for real-time location tracking of vehicles, bags, or other assets. It features a long-lasting 10,000 mAh battery, magnetic grip for easy installation, and voice monitoring capabilities. This manual provides comprehensive instructions for setting up, operating, and maintaining your Ajjas GO device.

2. WHAT'S IN THE BOX

Upon unboxing your Ajjas GO Wireless GPS Tracker, verify that all the following components are included:

- Ajjas GO Portable Device
- 10,000 mAh Battery (integrated)
- USB Cable for charging
- Pre-installed Airtel SIM (inactive, requires activation/recharge)
- User Manual (this document)

3. SETUP GUIDE

3.1. Initial Charging

Before first use, fully charge your Ajjas GO device using the provided USB cable. Connect the USB cable to the device's charging port and a standard USB power adapter (not included). The device's LED indicator will show charging status.

3.2. SIM Card Activation and App Access

Your Ajjas GO device comes with a pre-installed Airtel SIM card. To activate tracking and access the mobile application features, an annual recharge of ₹699 is required via the Ajjas mobile app. This recharge provides 1 year of free application access.

3.3. Mobile Application Installation

Download the official Ajjas mobile application from the Google Play Store (for Android devices) or the Apple App Store (for iOS devices). Once installed, open the app and log in using the credentials provided or create a new account. A demo login is available for initial exploration: Mobile: 66666 66666 | Password: demo123.

3.4. Device Placement and Installation

The Ajjas GO device features a strong magnetic body, allowing for flexible and hidden installation. It can be placed in various locations within a vehicle or bag without requiring complex wiring. Recommended placement areas include:

- Under the seat
- In the boot space
- Inside the glovebox
- Under a seat cover
- Attached to any metal surface

Ensure the device is placed securely and is not easily visible to unauthorized individuals.

One Device Countless Tracking

200,000+ Indians Trust It for Real-Time Tracking

Image: Four scenarios demonstrating the versatile placement of the Ajjas GO device: inside a car's boot, under a scooter's seat, within a child's backpack, and on a truck's chassis.

4. OPERATING INSTRUCTIONS

4.1. Real-Time GPS Tracking

Once the device is active and connected, open the Ajjas mobile app to view the real-time location of your device. The app displays the current position on a map, along with speed and other relevant data.

Track Every Ride in Real-Time & Playback Anytime

100 Million+ rides captured and tracked

Image: A user viewing the Ajjas mobile application on a smartphone, showing real-time vehicle tracking on a map and a detailed trip history log.

4.2. Full Day History and Route Playback

The Ajjas app stores a complete movement history, allowing you to review past routes, distances covered, and speeds at any time. This feature is useful for monitoring vehicle usage or tracking personal safety.

4.3. Live Voice Monitoring

The Ajjas GO device supports live voice monitoring. To use this feature, ensure your SIM card has an active voice plan. You can call the device's number from your registered mobile phone to listen to the audio surroundings of the device in real-time. The device's in-built microphone captures long-range audio.

VOICE MONITORING

LISTEN TO AUDIO FROM THE DEVICE SURROUNDINGS

The device's in-built microphone enables the capture of long-range audio.

Note: Only for voice monitoring need to use your own SIM card that supports calling facilities

Image: A smartphone screen showing an active call, with the Ajjas GO device and its integrated microphone depicted, illustrating the voice monitoring feature.

4.4. Anti-Theft Alerts

The Ajjas app provides instant alerts for various events, enhancing security:

- **Geo-fence Alerts:** Set up virtual boundaries (geo-fences) on the map. You will receive an alert if the device enters or exits these predefined areas.
- **Movement/Towing Alerts:** Get notified immediately if your vehicle is moved or towed without authorization.
- **Overspeed Alerts:** Configure a maximum speed limit. If the device exceeds this limit, an alert will be sent.

Know When Vehicle Moves Out Safe Zone Alerts

600+ vehicle thefts prevented using Ajjas GPS

Image: A user interacting with a smartphone displaying a geo-fence alert notification from the Ajjas application, indicating a vehicle's movement.

4.5. Battery Saver Mode

To maximize battery life, the Ajjas GO device can operate in a saver mode, extending its battery life up to 50 days depending on usage. This mode is ideal for long parking periods or transport vehicles where frequent charging is not feasible.

Long Battery. Strong Grip

Just Stick & Track

Used in 100 Million+ rides for safety

5. MAINTENANCE

5.1. Device Charging

Recharge the Ajjas GO device when the battery level is low. The 10,000 mAh battery provides extended usage, but regular charging ensures continuous tracking. Use the provided USB cable for charging.

5.2. Annual SIM Recharge

To maintain continuous service and app access, the pre-installed SIM card requires an annual recharge of ₹699. This can be done conveniently through the Ajjas mobile application.

6. TROUBLESHOOTING

If you encounter any issues with your Ajjas GO device, consider the following common troubleshooting steps:

- **No Location Data:** Ensure the device is fully charged and has an active SIM plan. Check for strong GPS signal in the device's location.
- **App Connectivity Issues:** Verify your smartphone's internet connection. Ensure the Ajjas app is updated to the latest version.
- **Voice Monitoring Not Working:** Confirm that the SIM card in the device has an active voice plan.
- **Battery Draining Quickly:** Review usage patterns. Consider using battery saver mode if extended standby time is needed.

For persistent issues or advanced troubleshooting, please contact Ajjas customer support.
