hohem iSteady XE

HoHem iSteady XE Smartphone Gimbal Instruction Manual

Model: iSteady XE

1. Introduction

The HoHem iSteady XE is a compact and lightweight 3-axis smartphone gimbal designed to provide superior stabilization for mobile videography. It enhances video quality by eliminating shakes and jitters, making it ideal for vlogging, live streaming, and capturing smooth cinematic footage with your smartphone. This manual provides detailed instructions on how to set up, operate, and maintain your iSteady XE gimbal.

2. Package Contents

Please verify that all items listed below are included in your package:

- iSteady XE Gimbal Stabilizer
- Magnetic Fill Light (optional, may be sold separately or included in kit)
- Mini Tripod
- Storage Pouch
- USB-C Charging Cable

Image: The HoHem iSteady XE gimbal kit, including the gimbal, magnetic fill light, mini tripod, storage pouch, and USB-C charging cable.

Image: A visual representation of the items included in the iSteady XE package: iSteady XE gimbal, magnetic fill light, tripod, storage pouch, and USB-Type C charging cable.

3. Product Overview

The iSteady XE is engineered for portability and performance, featuring advanced stabilization and user-friendly controls.

- **Ultralight and Portable:** Weighing only 0.57 lbs (259g) and foldable to smartphone length, it's highly compact for easy transport.
- **Maximized Payload Capacity:** Supports smartphones up to 0.62 lbs (280g) with an extendable phone holder (2.17 - 3.54 inches).
- **3-Axis Stabilization:** Utilizes iSteady 7.0 Algorithm for smooth, shake-free footage across Pan, Roll, and Tilt axes.
- **Face and Object Tracking:** Advanced algorithms in the Hohem Joy app automatically recognize and track subjects.
- **Independent Magnetic Fill Light:** Features 3 light colors and 10 brightness levels, attachable to the gimbal or usable independently.
- **Simplified Control:** No tedious leveling required; quick start by centering the phone.
- **Multiple Usage Modes:** Includes Inception mode (180° rotation) and quick switching between Landscape and Portrait modes.

Image: The iSteady XE gimbal, weighing 259g, shown next to an iPhone to illustrate its compact and portable size.

Image: An illustration highlighting the upgraded iSteady 7.0 Stabilization Algorithm, indicating the Tilt (90°), Roll (320°), and Pan (320°) ranges of motion.

Image: The magnetic fill light attached to the gimbal, demonstrating its 3 types of light colors, 10 brightness levels, and 180° rotatable design.

Image: A hand holding the iSteady XE gimbal with a smartphone, illustrating the ease of rotation and control.

4. Setup Guide

4.1 Charging the Gimbal

Before first use, fully charge the iSteady XE using the provided USB-C cable. Connect the USB-C end to the gimbal's charging port and the USB-A end to a power adapter (not included) or computer USB port. The indicator lights will show charging status.

4.2 Installing the Hohem Joy App

For full functionality, download the "Hohem Joy" app from your smartphone's app store (App Store for iOS, Google Play Store for Android). The app enables advanced features like face tracking and mode selection.

4.3 Mounting Your Smartphone

1. Unfold the gimbal to its operating position.
2. Extend the phone clamp and carefully place your smartphone in the center of the clamp. Ensure the phone is securely held and balanced as centrally as possible.
3. The iSteady XE features a simplified design that does not require tedious manual leveling. Simply lock the phone in the central position, and the gimbal is ready to operate.

Image: The iSteady XE gimbal displayed alongside various smartphone models, demonstrating its compatibility with different phone sizes.

5. Operating Instructions

5.1 Power On/Off and Bluetooth Connection

- **Power On:** Press and hold the power button until the indicator lights illuminate.
- **Bluetooth Connection:** Open the Hohem Joy app on your smartphone. The app will automatically detect and connect to the gimbal via Bluetooth.
- **Power Off:** Press and hold the power button until the indicator lights turn off.

5.2 Gimbal Modes

The iSteady XE offers several operating modes to suit different shooting scenarios. You can switch between modes using the function button on the gimbal handle.

Mode	Description
Pan Follow (PF)	The camera pans left/right following your hand movements, while tilt and roll axes are locked.
Pan & Tilt Follow (PTF)	The camera pans left/right and tilts up/down following your hand movements, while the roll axis is locked.
All Lock (L)	All three axes (pan, tilt, roll) are locked, keeping the camera pointing in a fixed direction.
POV (Point of View)	The camera follows all three axes (pan, tilt, roll) according to your hand movements, providing a first-person perspective.

5.3 Face and Object Tracking

Within the Hohem Joy app, activate the face or object tracking feature. The gimbal will automatically follow the selected subject, ensuring they remain in the frame. This is particularly useful for vlogging or dynamic shots.

5.4 Magnetic Fill Light Operation

If your kit includes the magnetic fill light, simply snap it onto the top of your smartphone. It offers 3 light colors (cold, natural white, warm) and 10 adjustable brightness levels. Press the power button on the light to turn it on/off and cycle through modes. Use the +/- buttons to adjust brightness.

Image: A close-up view of the magnetic fill light, highlighting its compact design and magnetic attachment capability.

Image: A visual guide demonstrating the magnetic fill light's versatility with 10 brightness levels and three light color options: Cold light, Natural white light, and Warm light.

Image: A detailed view of the magnetic fill light's controls, including the power/mode button and brightness adjustment buttons.

5.5 Inception Mode and Portrait/Landscape Switching

- **Inception Mode:** Activate this mode (often by double-tapping a specific button or via the app) to achieve a 180° spinning shot, creating a dynamic visual effect.
- **Portrait/Landscape Switching:** Quickly switch between horizontal (landscape) and vertical (portrait) shooting orientations by pressing the function button, ideal for different social media platforms.

Image: A collage showcasing the versatile applications of the iSteady XE gimbal in different scenarios, including daily vlogging, travel vlogging, street vlogging, family vlogging, sports vlogging, and content creation for social media.

6. Maintenance

Proper maintenance ensures the longevity and optimal performance of your HoHem iSteady XE gimbal.

- **Cleaning:** Use a soft, dry cloth to wipe the gimbal body. Do not use liquid cleaners or solvents.
- **Storage:** When not in use, fold the gimbal and store it in the provided storage pouch to protect it from dust and scratches. Store in a cool, dry place away from direct sunlight.
- **Battery Care:** For long-term storage, charge the battery to about 50-60% every three months to prevent over-discharge.
- **Avoid Impact:** Protect the gimbal from drops or strong impacts, which can damage the motors and internal components.

7. Troubleshooting

If you encounter issues with your iSteady XE, refer to the following common problems and solutions:

Problem	Possible Solution
Gimbal not powering on	Ensure the battery is charged. Connect to a power source and check indicator lights.
Unstable footage / Gimbal shaking	Ensure the smartphone is properly mounted and centered in the clamp. Check for any obstructions to the gimbal's movement. Recalibrate the gimbal via the Hohem Joy app if available.
Bluetooth connection issues	Make sure Bluetooth is enabled on your phone. Restart both the gimbal and the Hohem Joy app. Forget the device in your phone's Bluetooth settings and try pairing again.
App not responding or crashing	Ensure the Hohem Joy app is updated to the latest version. Close and reopen the app. Restart your smartphone.
Magnetic fill light not working	Check if the fill light is charged. Ensure it is securely attached if used on the gimbal.

8. Specifications

Feature	Detail
Model	iSteady XE
Brand	hohem
Product Dimensions (Folded)	179 x 79 x 39 mm
Product Dimensions (Unfolded)	7.9 x 17.8 x 3.8 cm (approx. 79 x 178 x 38 mm)
Weight	259 grams (0.57 lbs)
Max Payload	280 grams (0.62 lbs)
Compatible Phone Width	2.17 - 3.54 inches
Battery Life	Up to 8 hours (from feature bullets)
Stabilization	3-axis (Pan, Roll, Tilt) with iSteady 7.0 Algorithm
Connectivity	Bluetooth
Charging Port	USB-C
Country of Origin	China

9. Warranty and Support

Hohem Technology Co., LTD. provides a warranty for this product. For specific warranty details and return policies, please refer to the information provided at the point of purchase or contact Hohem customer support.

- **Return Policy:** Products can typically be returned within 30 days of receipt if you change your mind. For defective or damaged products, specific return policies apply.
- **Manufacturer:** hohem Technology Co., LTD.

- **Online Support:** Visit the official Hohem store on Amazon for additional product information and support resources: Hohem Amazon Store.
