4. OPERATING INSTRUCTIONS

The Kircuit AC/DC Adapter is designed for simple plug-and-play operation.

- Once properly connected to both the massager and a power outlet, the adapter will supply power to your device.
- A small LED indicator light on the adapter brick (if present) will illuminate, indicating that power is being supplied.
- Refer to your Belmint BEL-FBM massager's instruction manual for specific operating procedures of the massager itself.

5. MAINTENANCE

To ensure the longevity and optimal performance of your adapter, follow these maintenance guidelines:

- **Cleaning:** Disconnect the adapter from the power outlet and the device before cleaning. Use a soft, dry cloth to

wipe the adapter. Do not use liquid cleaners or abrasive materials.

- **Cable Care:** Avoid bending or kinking the cables sharply, especially near the connectors. Do not place heavy objects on the cables. The power cable is made of high-quality materials with a thick insulation layer to protect against wear and tear.
- **Storage:** When not in use, store the adapter in a cool, dry place, away from direct sunlight and extreme temperatures. Coil the cables loosely to prevent damage.
- **Anti-interference Magnetic Ring:** The adapter features an anti-interference magnetic ring on the DC output cable to enhance reliability and stability of system operation. Avoid damaging this component.
