WOWOW Bridge Kitchen Faucet with Side Sprayer (Model 23115A1FB) Instruction Manual

Brand: WOWOW | Model: 23115A1FB | Finish: Antique Bronze

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your WOWOW Bridge Kitchen Faucet with Side Sprayer. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product. Keep this manual for future reference.

The WOWOW Bridge Kitchen Faucet features a vintage Victorian-style design with an antique bronze finish, crafted from solid brass for durability and resistance to rust and corrosion. It includes a high-pressure side sprayer and two lever handles for precise control over water temperature and volume.

PRODUCT FEATURES

- **Antique Bronze Finish:** Blends a deep antique bronze base with a cool metallic luster, adding a contemporary crispness to its vintage Victorian-style design.
- **Solid Brass Construction:** Heavy-duty faucet made of premium solid brass (7.76 lbs), resistant to rust and corrosion, ensuring water safety and a long lifespan. Features dual brass cartridges tested through 500,000 cycle tests for precision water control without dripping or leaking.
- **Brass Side Sprayer:** Provides effortless power cleaning with a high-pressure jet for stubborn dirt and food residue. The flexible pull-out hose extends up to 20 inches for easy cleaning of sink corners. Remember to press the button again to deactivate after use.
- **Two Handles Design:** Two lever handles offer precise control over water volume and temperature.
- **High Arc 360° Swivel Spout:** Allows more space for kitchen tasks and is ideal for single and double sinks.
- **Easy Installation:** Designed for 4-hole countertop installation (8-inch center-set). Comes with flexible hot & cold supply hoses and a quick connect sprayer hose for installation within 30 minutes. A diverter cap is included for installations without the sprayer.

PACKAGE CONTENTS

The WOWOW Bridge Kitchen Faucet package includes:

- Kitchen Faucet with Side Sprayer
- Instruction Manual
- A spare aerator
- Flexible hot & cold supply hoses
- Quick connect sprayer hose
- Diverter cap (for installations without sprayer)

Color	F: Antique Bronze
Material	Brass
Finish Type	Bronze
Mounting Type	Deck Mount
Hole Count	4
Number of Handles	2
Handle Type	Lever
Spout Design	High Arc
Spout Height	6.3 Inches
Spout Reach	7 Inches
Hose Length (Sprayer)	20 Inches
Item Weight	3.32 Kilograms
Special Feature	360 Swivel Spout

INSTALLATION GUIDE

The WOWOW Bridge Kitchen Faucet is designed for easy 4-hole countertop installation. Follow these steps for a smooth setup:

1. **Prepare the Mounting Holes:** Ensure your countertop has four pre-drilled holes with a size between 1.15"-1.5" and a maximum thickness of 2".
2. **Disassemble the Faucet:** Loosen the washer and copper nut from the faucet body components.
3. **Insert Faucet Components:** Insert the faucet body and the pull-out hose for the side sprayer into their respective mounting holes on the countertop.
4. **Secure the Faucet Body:** From underneath the sink, secure the faucet body by tightening the gasket and lock nut onto the threaded rods.

5. **Connect Water Hoses:** Connect the flexible hot (red indicator) and cold (blue indicator) water supply hoses to the angle valves using a wrench.
6. **Connect Sprayer Hose:** Attach the pull-out hose to the quick connector on the center rod. Ensure a proper connection; you should hear a click. Do not use tape or extra gasket here.
7. **Install Gravity Ball:** Install the gravity ball onto the pull-out hose to ensure the sprayer retracts properly.
8. **Flush the System:** Before final use, run both hot and cold water through the faucet and sprayer for 1-2 minutes to clear any debris from the water lines.

Optional: If you do not wish to install the side sprayer, use the provided diverter cap to plug the center threaded rod.

OPERATING INSTRUCTIONS

Your WOWOW Bridge Kitchen Faucet is designed for intuitive and efficient use:

- **Water Flow and Temperature Control:** Use the two lever handles to control water flow and temperature. The right handle typically controls cold water, and the left handle controls hot water.
- **Swivel Spout:** The high arc spout can swivel 360 degrees, allowing you to direct water flow to different areas of your sink or to fill large pots.
- **Side Sprayer Operation:** To activate the side sprayer, press the button on its head. This will deliver a high-pressure jet of water. To return to regular faucet flow, press the button again. The flexible hose extends up to 20 inches for extended reach.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your faucet:

- **Cleaning:** Clean the faucet regularly with a soft cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Aerator Maintenance:** The high-performance aerator is detachable for easy cleaning or replacement. Gently touch with

fingers to remove scale and calcium buildup. Regular cleaning prevents clogs and maintains smooth water flow.

- **Cartridge Care:** The dual brass cartridges are designed for long-lasting, leak-free performance. If dripping or leaking occurs, consult a professional plumber for cartridge inspection or replacement.
- **Hose Inspection:** Periodically check the flexible hoses for any signs of wear or damage. Replace immediately if any issues are found.

TROUBLESHOOTING

If you encounter any issues with your faucet, refer to the following common troubleshooting tips:

- **Low Water Pressure:** Check if the aerator is clogged with mineral deposits. Clean or replace the aerator as described in the Maintenance section. Ensure water supply valves are fully open.
- **Leaking Faucet:** Tighten all connections, especially the water supply hoses and the nuts securing the faucet body. If leaking persists from the spout or handles, the internal cartridges may need inspection or replacement by a qualified plumber.
- **Sprayer Not Working/Dripping:** Ensure the sprayer button is fully pressed to activate and released to deactivate. Check

the sprayer hose connection for tightness. If dripping, ensure the button is fully disengaged.

- **Difficulty Controlling Temperature/Volume:** Ensure the lever handles are functioning smoothly. If stiff or inconsistent, the cartridges may require attention.

For issues not resolved by these steps, please contact WOWOW customer support or a certified plumber.

WARRANTY AND SUPPORT

Your WOWOW Bridge Kitchen Faucet comes with a **limited warranty**. Please refer to the warranty card included in your package for specific terms and conditions. For technical support, replacement parts, or warranty claims, please contact WOWOW customer service through their official website or the contact information provided in your product packaging.
