SETUP

1. Initial Charging

Before first use, fully charge your tablet using the provided charger and cable. Connect the Type-C cable to the tablet's charging port and the adapter to a power outlet. The battery indicator on the screen will show charging progress.

Figure 5: Tablet connected to power, illustrating the charging process and battery capacity.

2. Powering On/Off

- **To Power On:** Press and hold the Power button located on the side of the tablet until the Blackview logo appears.
- **To Power Off:** Press and hold the Power button until the power options menu appears, then select "Power off".

3. Initial Setup Wizard

Upon first power-on, the tablet will guide you through an initial setup process. This includes selecting your language, connecting to a Wi-Fi network, setting up your Google account, and configuring basic security settings.

MAINTENANCE

Cleaning the Tablet

Use a soft, lint-free cloth to clean the screen and body of the tablet. For stubborn smudges, slightly dampen the cloth with water or a screen-cleaning solution. Avoid using harsh chemicals or abrasive materials.

Battery Care

- Avoid exposing the tablet to extreme temperatures (hot or cold) as this can degrade battery life.
- For optimal battery longevity, avoid frequently discharging the battery completely or keeping it at 100% charge for extended periods.
- Use only the original or certified compatible charging accessories.

Software Updates

Regularly check for and install software updates to ensure your tablet has the latest features, security patches, and performance improvements. Go to Settings > System > System update.

TROUBLESHOOTING

This section addresses common issues you might encounter with your Blackview Tab 11 WiFi.

Tablet Not Powering On

- Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on.
- Press and hold the Power button for at least 10-15 seconds to perform a forced restart.

Wi-Fi Connectivity Issues

- Toggle Wi-Fi off and on in Settings.
- Restart your Wi-Fi router.
- Forget the network and reconnect by re-entering the password.

Slow Performance

- Close unused applications running in the background.
- Clear cache for frequently used apps (Settings > Apps > [App Name] > Storage & cache > Clear cache).
- Ensure sufficient storage space is available. Delete unnecessary files or apps.
- Restart the tablet periodically.
