1. INTRODUCTION

Thank you for choosing the Corberó CPCGY2314W Gas Glass Hob. This manual provides essential information for the safe and efficient operation, installation, and maintenance of your new appliance. Please read these instructions carefully before using the hob and keep them for future reference.

The Corberó CPCGY2314W is a powerful 7.8 Kw gas hob featuring four burners, including a dedicated wok zone, and durable cast iron grates. It is designed for use with Butane gas and includes a conversion kit for Natural Gas. Equipped with advanced safety features such as a gas cut-off safety valve and automatic disconnection, this hob ensures a secure cooking experience.

2. IMPORTANT SAFETY INFORMATION

WARNING: Improper installation, adjustment, alteration, service, or maintenance can cause property damage, injury, or death. Read the installation, operating, and maintenance instructions thoroughly before installing or servicing this equipment.

- This appliance is for domestic use only.
- Ensure adequate ventilation in the kitchen when the hob is in use.
- Do not leave the hob unattended during operation.
- Keep children away from the appliance during use.
- The hob is equipped with a **gas cut-off safety valve** and **automatic disconnection** feature, which will automatically cut off the gas supply if the flame accidentally extinguishes.
- Do not use abrasive cleaners or sharp objects on the glass surface.
- Ensure all controls are in the "OFF" position after use.
- In case of a gas leak, immediately turn off the gas supply, open windows, and do not operate any electrical switches. Contact a qualified technician.

3. PRODUCT OVERVIEW

The Corberó CPCGY2314W gas hob features a sleek glass surface and robust components designed for efficient cooking.

Figure 3.1: Top-down view of the Corberó CPCGY2314W Gas Glass Hob. This image displays the white glass surface, four black burners with their respective cast iron grates, and four control knobs located on the right side. Icons for "HIERRO FUNDIDO" (Cast Iron) and "WOK" are visible at the bottom right.

Components:

- **Glass Surface:** Durable and easy-to-clean white tempered glass.
- **Burners (4):** Four gas burners for various cooking needs.
- **Wok Zone:** One dedicated burner designed for high heat cooking with a wok.
- **Cast Iron Grates:** Robust and stable supports for cookware, ensuring even heat distribution.
- **Control Knobs:** Individual knobs for each burner to adjust flame intensity.
- **Safety Valve:** Automatically cuts off gas if the flame extinguishes.
- **Automatic Disconnection:** Additional safety feature for gas supply cut-off.

Figure 3.2: Close-up view of two burners and the control knobs. This image highlights the details of the burner caps, grates, and the design of the control knobs. Text overlay indicates "Placa Cristal Gas Potencia 7,8 Kw", "4 Fuegos", and "Gas Butano", confirming key features.

- Parrilla Hierro Fundido
- Válvula Seguridad Corte de Gas
- Desconexión Automática de Seguridad

Corbero

Figure 3.3: Detailed view of a burner with its cast iron grate. This image emphasizes the robust construction of the grate and the burner components. Text overlay mentions "Parrilla Hierro Fundido" (Cast Iron Grate), "Válvula Seguridad Corte de Gas" (Gas Cut-off Safety Valve), and "Desconexión Automática de Seguridad" (Automatic Safety Disconnection).

4. SETUP AND INSTALLATION

Installation of this gas hob must be carried out by a qualified and authorized technician in accordance with local regulations and standards. Incorrect installation can lead to serious hazards.

Key Installation Considerations:

- **Ventilation:** Ensure proper ventilation in the kitchen area where the hob will be installed.
- **Gas Supply:** The hob is designed for Butane gas. A conversion kit for Natural Gas is included, and conversion must be performed by a qualified professional.
- **Countertop Cut-out:** Ensure the countertop cut-out dimensions match the hob's specifications (refer to Section 8: Specifications).
- **Electrical Connection (if applicable):** While this model is listed as "Sin Autoencendido" (without auto-ignition),

some gas hobs may require an electrical connection for ignition or safety features. Consult the full installation manual provided with the product for specific requirements.

- **Leveling:** Ensure the hob is perfectly level after installation to prevent spills and ensure proper burner operation.

5. OPERATING INSTRUCTIONS

Follow these steps to safely operate your Corberó gas hob.

Igniting a Burner:

1. Place appropriate cookware on the chosen burner's cast iron grate.
2. Push down and turn the corresponding control knob counter-clockwise to the maximum flame position.
3. Immediately apply a flame (e.g., from a match or lighter) to the burner.
4. Once the burner ignites, hold the knob down for a few seconds (approximately 5-10 seconds) to allow the thermocouple (safety device) to heat up and activate the gas cut-off safety valve. Release the knob.
5. If the flame extinguishes when you release the knob, repeat the process, holding the knob down for a slightly longer duration.
6. Adjust the flame intensity by turning the knob between the maximum and minimum flame positions.

A close-up photograph of a gas burner on a black hob. The burner is lit, showing a bright blue flame. A black cast iron grate is positioned over the burner. The background is slightly blurred, showing the rest of the hob and the kitchen surface.

Corbero

- Placa Cristal Gas Potencia 7,8 Kw
- 4 Fuegos
- Gas Butano

Figure 5.1: A close-up view of a lit gas burner with a pan placed on the cast iron grate. This image demonstrates the hob in operation, showing the blue flame. Text overlay reiterates "Placa Cristal Gas Potencia 7,8 Kw", "4 Fuegos", and "Gas Butano".

Using the Wok Zone:

The dedicated wok zone provides higher heat output, ideal for stir-frying and other high-temperature cooking methods. Ensure you use a wok with a suitable base that fits securely on the wok burner's grate.

Turning Off a Burner:

Turn the control knob clockwise until it clicks into the "OFF" position. Ensure the flame is completely extinguished.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your hob. Always ensure the hob is cool and disconnected from the gas supply before cleaning.

Cleaning the Glass Surface:

- Use a soft cloth or sponge with warm soapy water.
- For stubborn stains, use a non-abrasive ceramic hob cleaner.
- Wipe dry with a clean cloth to prevent water marks.
- Do not use abrasive pads, scourers, or harsh chemical cleaners as they can damage the glass.

Cleaning the Cast Iron Grates and Burner Caps:

- Remove the grates and burner caps when cool.
- Wash them in warm soapy water. For stubborn food residue, soak them for a while.
- Rinse thoroughly and dry completely before placing them back on the hob. Ensure burner caps are correctly seated.
- Do not clean cast iron grates in a dishwasher as this may cause discoloration or damage.

General Maintenance:

- Periodically check the gas hose and connections for any signs of wear or leaks. This should ideally be done by a qualified technician.
- Ensure the burner ports are not clogged. Use a fine brush or needle to clear any blockages if necessary.

7. TROUBLESHOOTING

Before contacting customer service, please check the following common issues:

Problem	Possible Cause	Solution
Burner does not ignite.	No gas supply; burner ports clogged; control knob not held long enough.	Check gas supply valve; clean burner ports; hold knob down for 5-10 seconds after ignition.
Flame is weak or uneven.	Burner ports clogged; incorrect gas pressure.	Clean burner ports; contact a qualified technician to check gas pressure.
Flame extinguishes when knob is released.	Thermocouple not heated sufficiently; thermocouple faulty.	Hold knob down for a longer period (10-15 seconds); if problem persists, contact service.
Gas smell.	Gas leak.	Immediately turn off gas supply, open windows, do not operate electrical switches, and contact a qualified technician or emergency services.

8. TECHNICAL SPECIFICATIONS

Feature	Detail
Model Number	CPCGY2314W
Brand	Corberó
Type	Gas Glass Hob
Total Power Output	7.8 Kw
Number of Burners	4

Feature	Detail
Special Burner	Wok Zone
Grates Material	Cast Iron
Surface Material	Tempered Glass
