

ZOKOP SAIQ749214

ZOKOP Clothes Dryer with LCD Screen (Model SAIQ749214) User Manual

Comprehensive instructions for safe and efficient operation.

1. INTRODUCTION

Thank you for choosing the ZOKOP Clothes Dryer. This appliance is designed for efficient and convenient drying of household laundry. Featuring a 5kg capacity drum and an intuitive LCD screen, this dryer is built for ease of use and reliable performance. Please read this manual thoroughly before installation, operation, or maintenance to ensure safe and optimal use of your dryer.

2. IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury to persons, read all instructions before operating this appliance.

- Ensure the dryer is properly grounded according to local codes and ordinances.
- Do not dry articles that have been previously cleaned in, washed in, soaked in, or spotted with gasoline, dry-cleaning solvents, or other flammable or explosive substances.
- Do not allow children to play on or in the appliance. Close supervision of children is necessary when the appliance is used near children.
- Before the appliance is removed from service or discarded, remove the door to the drying compartment.
- Do not reach into the appliance if the drum is moving.
- Do not install or store this appliance where it will be exposed to the weather.
- Do not tamper with controls.
- Clean lint screen before or after each load.
- Keep area around the exhaust opening and adjacent surrounding areas free from the accumulation of lint, dust, and dirt.
- The interior of the appliance and exhaust duct should be cleaned periodically by qualified service personnel.
- Do not place items exposed to cooking oils in your dryer.

- Do not dry unwashed items in the tumble dryer.
- Items that have been soiled with substances such as cooking oil, acetone, alcohol, petrol, kerosene, spot removers, turpentine, waxes and wax removers should be washed in hot water with an extra amount of detergent before being dried in the tumble dryer.
- Items containing foam rubber (latex foam), shower caps, waterproof textiles, rubber backed articles and clothes or pillows fitted with foam rubber pads should not be dried in the tumble dryer.

3. PRODUCT OVERVIEW

The ZOKOP Clothes Dryer is a compact, front-load appliance designed for household use. It features an LCD screen for program selection and monitoring, a 5kg capacity drum, and a multi-stage filtration system.

3.1 Components

Figure 3.1.1: Front View of Dryer. This image displays the ZOKOP Clothes Dryer from the front, highlighting its white casing, the central dark-tinted door, and the top-mounted LCD control panel.

Figure 3.1.2: Dryer Interior. The dryer door is open, revealing the stainless steel drum and the removable lint filter located at the front of the drum opening.

Figure 3.1.3: Rear View and Exhaust. This image shows the back of the dryer, including the power cord connection and the exhaust vent with a flexible hose attached for ventilation.

Figure 3.1.4: Important Notes and Filter Cleaning Guide. A detailed view of the label inside the dryer door, providing crucial safety warnings and visual instructions for cleaning the lint and intake filters.

4. SETUP AND INSTALLATION

4.1 Unpacking

Carefully remove the dryer from its packaging. Inspect for any shipping damage. Retain packaging materials for future transport if needed.

4.2 Placement

- Place the dryer on a firm, level floor.
- Ensure adequate clearance around the dryer for proper air circulation and maintenance.
- Do not install the dryer in an area where it may be exposed to water or extreme temperatures.

4.3 Ventilation

Proper ventilation is critical for efficient drying and safety. The dryer must be vented to the outside. Connect the exhaust hose (as shown in Figure 3.1.3) to the dryer's exhaust opening and route it to an outdoor vent.

Ensure the hose is not kinked or obstructed.

4.4 Electrical Connection

Connect the dryer to a dedicated, properly grounded electrical outlet. Refer to the specifications section for electrical requirements. Do not use extension cords.

5. OPERATING INSTRUCTIONS

5.1 Loading the Dryer

- Sort laundry by fabric type and drying requirements.
- Do not overload the dryer. The 5kg capacity refers to dry weight. Leave enough space for clothes to tumble freely.
- Check pockets for foreign objects before loading.

5.2 Control Panel and Programs

The LCD screen and control buttons allow selection of drying programs. While specific program details are not provided, typical options include:

- **Auto:** Automatically detects moisture levels and adjusts drying time.
- **Sterilization:** High-temperature cycle for sanitizing items.
- **Delicates:** Lower heat and gentle tumbling for sensitive fabrics.
- **Air:** Air fluff cycle without heat.

Refer to the LCD screen for current settings and remaining time.

5.3 Starting a Cycle

1. Load the dryer and close the door securely.
2. Press the Power button to turn on the dryer.
3. Select the desired drying program using the control buttons.
4. Press the Start/Pause button to begin the cycle.

5.4 Ending a Cycle

The dryer will automatically stop when the cycle is complete. Remove clothes promptly to reduce wrinkling. Always clean the lint filter after each load.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your ZOKOP Clothes Dryer.

6.1 Cleaning the Lint Filter

The lint filter must be cleaned before or after every load. This prevents lint buildup, which can reduce drying efficiency and pose a fire hazard.

1. Open the dryer door.
2. Locate the lint filter at the front of the drum opening (refer to Figure 3.1.2).
3. Remove the lint filter by pulling it out.

4. Peel off any accumulated lint.
5. Reinsert the clean lint filter firmly into its housing.

Refer to Figure 3.1.4 for visual instructions on filter cleaning.

6.2 Cleaning the Intake Filter

The intake filter should be cleaned monthly to maintain proper airflow.

1. Locate the intake filter (as indicated in Figure 3.1.4).
2. Remove the intake filter.
3. Clean any dust or debris from the filter.
4. Reinstall the intake filter.

6.3 Exterior Cleaning

Wipe the exterior surfaces of the dryer with a soft, damp cloth. Do not use abrasive cleaners or solvents.

6.4 Interior Cleaning

Periodically wipe the interior of the drum with a damp cloth. For stubborn stains, use a mild detergent and rinse thoroughly.

7. TROUBLESHOOTING

Before contacting customer support, review the following common issues and solutions:

Problem	Possible Cause	Solution
Dryer does not start.	Power cord unplugged; Door not closed properly; Circuit breaker tripped.	Ensure power cord is securely plugged in; Close door firmly; Reset circuit breaker.
Clothes are not drying properly.	Lint filter clogged; Overloaded dryer; Improper program selection; Restricted exhaust vent.	Clean lint filter; Reduce load size; Select appropriate drying program; Check and clear exhaust vent.
Dryer is noisy.	Foreign objects in drum; Dryer not level.	Check drum for loose items; Ensure dryer is on a level surface.
Dryer stops mid-cycle.	Overheating; Power interruption.	Allow dryer to cool down; Check power supply.

If the problem persists after attempting these solutions, please contact customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	ZOKOP
Model Number	SAIQ749214
Capacity	5 Kilograms

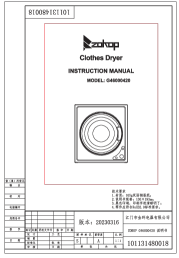

Feature	Detail
Dimensions (L x W x H)	26.72 x 20.86 x 28.86 inches
Item Weight	63.8 pounds (28.9 kg)
Material	Acrylonitrile Butadiene Styrene (ABS), Stainless Steel
Form Factor	Front Load
Access Location	Front Load
Certification	ETL Certified

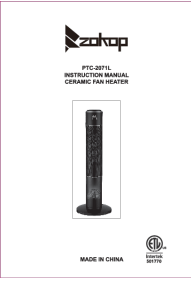

9. WARRANTY AND CUSTOMER SUPPORT

For warranty information or technical assistance, please refer to the product registration card or contact the retailer where the product was purchased. Keep your purchase receipt as proof of purchase.
