LOKEME PWC0005-black

LOKEME Portable Closet Instruction Manual

Model: PWC0005-black

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your LOKEME Portable Closet, Model PWC0005-black. Please read this manual thoroughly before assembly and use to ensure proper setup and longevity of your product.

2. SAFETY INFORMATION

Please observe the following safety guidelines to prevent injury or damage to the product:

- Keep away from children during assembly. Small parts may pose a choking hazard.
- Ensure the product is properly assembled and stable before use. Verify all connections are secure.
- Do not place excessively heavy items on top shelves to prevent tipping or structural damage. Distribute weight evenly.
- Avoid climbing on or hanging from the closet structure.
- Do not expose the closet to open flames or extreme heat sources.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Steel Pipes (16mm diameter)
- Plastic Connectors
- Non-woven Fabric Pads (for shelves)
- Non-woven Fabric Cover with Zipper and Velcro
- Hanging Rods (3 units)
- Instruction Manual
- Additional spare parts

4. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. Follow these steps carefully:

1. **Unpack Components:** Lay out all steel pipes, plastic connectors, fabric pads, and the cover on a clean, flat surface. Refer to the parts list to ensure all items are present.
2. **Assemble the Base Frame:** Connect the shortest steel pipes to the plastic connectors to form the bottom rectangular base. Ensure all pipes are fully inserted into the connectors for stability.
3. **Build Vertical Supports:** Insert longer vertical steel pipes into the connectors of the base frame.
4. **Add Shelf Levels:** As you build upwards, insert the fabric pads onto the designated shelf levels, supported by horizontal steel pipes and connectors. Ensure the fabric pads are taut and flat.
5. **Install Hanging Rods:** Place the three hanging rods into their designated slots within the upper sections of the frame.
6. **Complete the Top Frame:** Finish the top section of the frame using the remaining steel pipes and connectors, mirroring the base structure.

7. **Attach the Fabric Cover:** Carefully drape the non-woven fabric cover over the assembled frame. Ensure the zippers align with the front opening. When installing the cover, it is recommended to open the cloth cover first to ease placement.
8. **Secure the Cover:** Zip up the front of the cover and use the Velcro fasteners to secure it around the frame as needed.

Tip: Apply gentle pressure when inserting pipes into connectors. If a connection feels loose, ensure the pipe is fully seated.

5. OPERATING INSTRUCTIONS

The LOKEME Portable Closet is designed for organized storage of clothing and accessories.

- **Hanging Area:** Utilize the three hanging rods for shirts, coats, dresses, and other garments. Distribute weight evenly across the rods. Each hanging rod can support approximately 30 lbs.
- **Storage Shelves:** The six storage shelves are suitable for folded clothes, pants, hats, handbags, and other items. Each shelf can support approximately 14 lbs.
- **Side Pockets:** The four side pockets provide convenient storage for smaller items such as scarves, gloves, or accessories.
- **Access:** Use the zippered front cover to easily access your stored items. The cover can be rolled up and secured with Velcro for open access.

6. MAINTENANCE

To maintain the appearance and functionality of your portable closet:

- **Cleaning:** Wipe the non-woven fabric cover and shelves with a dry cloth to remove dust. For minor stains, a damp cloth with mild soap can be used, followed by drying thoroughly.
- **Structural Check:** Periodically inspect all steel pipe connections to ensure they remain secure. Re-seat any loose pipes into their connectors.
- **Weight Distribution:** Always ensure weight is distributed evenly to prevent stress on the frame and potential bending of pipes.

7. TROUBLESHOOTING

If you encounter issues with your LOKEME Portable Closet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Closet feels unstable or wobbly.	Pipes not fully inserted into connectors; uneven weight distribution.	Press firmly on all pipe-connector junctions to ensure full insertion. Redistribute items to balance weight.
Hanging rods or shelves sag.	Overloading beyond weight capacity.	Reduce the weight on the affected rod or shelf. Refer to operating instructions for capacity limits.
Zipper on cover sticks or breaks.	Fabric caught in zipper; excessive force.	Gently pull fabric away from the zipper path. Avoid forcing the zipper. Lubricate with a pencil lead if necessary.

Problem	Possible Cause	Solution
Missing parts during assembly.	Packaging error.	Contact LOKEME customer support for replacement parts.

8. SPECIFICATIONS

Feature	Detail
