Kekoy 36 Inch Grabber Reacher Tool

Kekoy 36-Inch Foldable Grabber Reacher Tool Instruction Manual

Model: 36 Inch Grabber Reacher Tool

INTRODUCTION

The Kekoy 36-inch foldable grabber reacher tool is designed to extend your reach, making it easier to pick up objects from high shelves, the floor, or hard-to-reach areas. Its lightweight, foldable design and precise gripping capabilities make it suitable for various daily tasks, enhancing independence and convenience.

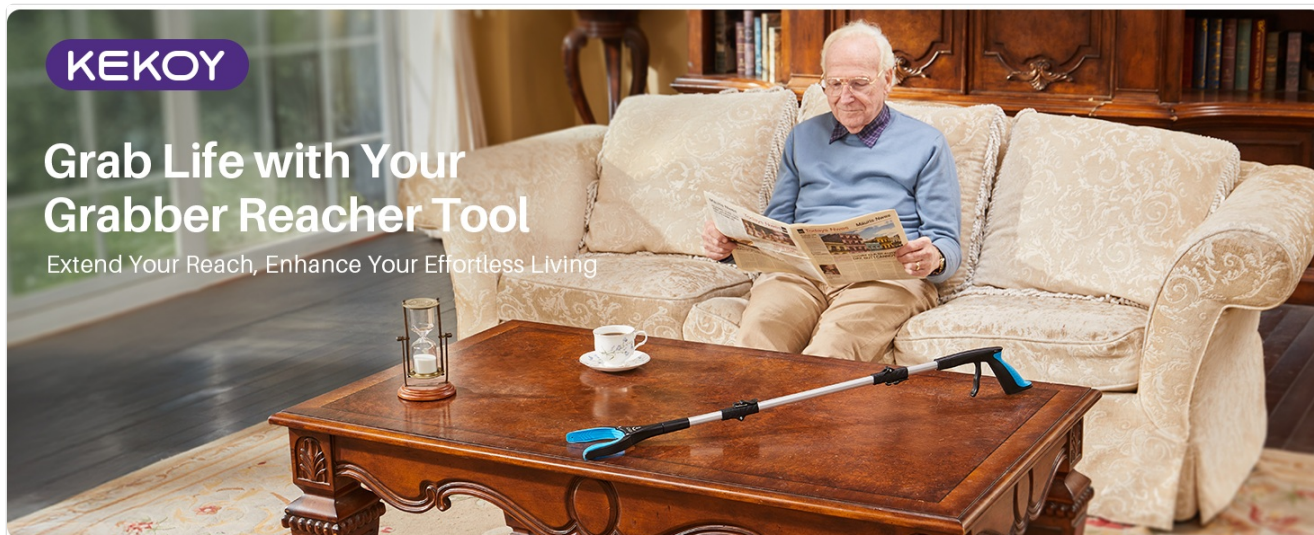

Image: The Kekoy grabber reacher tool provides extended reach for daily activities.

PRODUCT FEATURES

- **Foldable and Compact:** The tool features an ingenious folding mechanism, reducing its length to less than 12 inches for easy storage and portability. Constructed from lightweight yet strong aluminum alloy, it weighs only 10 ounces, minimizing user fatigue.
- **Precise Grip for Small Items:** The "horseshoe" claw jaw is coated with a deeper, rougher non-slip rubber layer, increasing contact area and friction. This design allows for precise pickup of tiny items like paperclips

and coins.

- **360-Degree Rotating Jaw:** The head can swivel 360 degrees, enabling flexible usage for upper, vertical, and horizontal tasks without needing to twist your wrist.
- **Magnetic Claws:** Integrated magnets in the claws assist in picking up small metallic objects.
- **Durable Construction:** Made with a lightweight, rust-proof aluminum shaft and sturdy steel cable internals for enhanced durability and security when gripping items.

SETUP

The Kekoy grabber reacher tool comes pre-assembled. To prepare it for use:

1. **Unfolding:** If the tool is in its folded state, gently pull the two sections apart until they click into place, forming a rigid shaft. Ensure the locking mechanism is secure.
2. **Jaw Orientation:** The jaw can be rotated 360 degrees. To adjust its orientation, hold the shaft firmly and rotate the jaw section until it is in the desired position for gripping.

OPERATING INSTRUCTIONS

To use your Kekoy grabber reacher tool effectively:

1. **Positioning:** Extend the tool towards the object you wish to retrieve. Use the 360-degree rotating jaw to align the claws with the object's shape and position.
2. **Gripping:** Squeeze the trigger on the handle to close the claws around the object. Apply gentle, consistent pressure to secure the item. The non-slip rubber coating ensures a firm grip.
3. **Retrieval:** Carefully lift or pull the object towards you. For metallic items, the integrated magnet can provide additional assistance.
4. **Releasing:** Release the trigger to open the claws and deposit the object.

The tool is designed for picking up a variety of items, from small scraps to moderately weighted objects. Avoid attempting to lift excessively heavy items to prevent damage to the tool or injury.

Rubber Grip for Precise Pick-up

MAINTENANCE

To ensure the longevity and optimal performance of your Kekoy grabber reacher tool:

- **Cleaning:** Wipe the tool with a damp cloth to remove dirt and debris. Avoid using harsh chemicals or abrasive cleaners, which can damage the rubber grips or aluminum finish.

- **Storage:** When not in use, fold the tool for compact storage. Store it in a dry place away from extreme temperatures.
- **Inspection:** Periodically check the cable and jaw mechanism for any signs of wear or damage. Ensure the folding mechanism locks securely.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Tool does not grip items securely.	Insufficient pressure on trigger; object too heavy or slippery; worn rubber grips.	Apply more pressure to the trigger. Ensure the object is within the tool's weight capacity. Clean the rubber grips. If grips are severely worn, consider replacement.
Folding mechanism is stiff or not locking.	Dirt or debris in the hinge; mechanism misalignment.	Clean the hinge area. Ensure the sections are properly aligned before attempting to lock. Do not force the mechanism.
Jaw does not rotate smoothly.	Dirt or debris in the rotating joint.	Clean the rotating joint area. A small amount of silicone lubricant may be applied if necessary.

SPECIFICATIONS

- **Product Dimensions:** 12.8 x 7.09 x 1.5 inches (folded)
- **Weight:** 1.12 Pounds
- **Length:** 36 inches (extended)
- **Material:** Aluminum alloy shaft, rubberized jaw
- **Jaw Features:** Anti-slip, 360° rotating, 4" wide extended claw with magnet

Recommended Length by User Height:

User Height Range	Suggested Grabber Length
5'1" - 5'5"	32 Inch
5'5" - 5'9"	36 Inch
5'9" - 6'1"	40 Inch
Over 6'1"	44 Inch
