ANYFAR A6

ANYFAR A6 Autoflix Box Wireless CarPlay AI Box Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your ANYFAR A6 Autoflix Box. This device converts your car's factory wired CarPlay system into a wireless multimedia hub, enabling access to streaming services and other applications directly on your car's display. Please read this manual thoroughly before use to ensure proper functionality and safety.

2. SAFETY INFORMATION

Warning:

- Installation should be performed by a qualified professional to avoid electrical interference and damage to the vehicle.
- Do not operate the device or watch videos while driving. Always prioritize safe driving practices.
- Ensure the device is securely placed to prevent it from becoming a projectile during sudden stops or accidents.
- Keep the device away from water, moisture, and extreme temperatures.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- ANYFAR A6 Autoflix Box
- USB-A to USB-C Cable
- USB-C to USB-C Cable
- Instruction Manual

4. SETUP INSTRUCTIONS

Follow these steps to set up your ANYFAR A6 Autoflix Box:

1. **Connect the Device:** Plug the ANYFAR A6 Autoflix Box into your car's USB port (USB-A or USB-C) that supports wired CarPlay. The device will power on, indicated by a red light.

Image: The ANYFAR A6 Autoflix Box connected to a car's USB port, with the car's infotainment screen displaying the CarPlay interface.

2. **Bluetooth Pairing:** On your smartphone, go to Bluetooth settings and search for available devices. Select "A6 Box" from the list to pair. If prompted for a passcode, refer to the instruction booklet for the default code (commonly 0000).

Image: A smartphone displaying its Bluetooth settings, showing a successful connection to 'CarPlayBox', which is the device's Bluetooth name.

3. **Initial Connection:** Once paired, the car's screen will display the ANYFAR interface. The device will automatically connect to your phone for Wireless CarPlay or Android Auto.

4. **Internet Connection:** For streaming services like Netflix and YouTube, connect your phone to the ANYFAR A6 Box's Wi-Fi hotspot, or enable your phone's personal hotspot and connect the A6 Box to it via the device's settings menu.

Your browser does not support the video tag.

Video: This video demonstrates the setup process, including connecting the ANYFAR A6 Box, pairing via Bluetooth, and accessing applications like Netflix and YouTube on the car's display.

5. OPERATING INSTRUCTIONS

5.1. Wireless CarPlay / Android Auto

The ANYFAR A6 Box converts your wired CarPlay/Android Auto to wireless. After initial setup, your phone will automatically connect when you start your car.

Image: Demonstrates the car's display showing both Apple CarPlay and Android Auto interfaces, indicating compatibility with both systems.

5.2. Media Playback (Netflix, YouTube, etc.)

Access pre-installed applications like Netflix and YouTube directly from the device's main interface on your car screen. Ensure the device has an active internet connection via your phone's hotspot.

Image: The car's infotainment screen showing a selection of applications, including Phone, Music, Maps, Siri, Netflix, YouTube, and an SD Card icon.

5.3. SD Card Playback

The device supports media playback from a Micro SD card. Insert the card into the designated slot on the ANYFAR A6 Box to access stored videos or music.

5.5. Control Methods

The device integrates with your car's existing control systems:

- **Touch Screen:** Directly interact with the car's display.

- **Voice Control:** Use Siri or Google Voice commands for hands-free operation.
- **Steering Wheel Controls:** Utilize your car's steering wheel buttons for media control and navigation.
- **Knob Controls:** Operate the device using your car's physical control knobs.

6. TROUBLESHOOTING

- **Device Not Powering On:** Ensure the USB cable is securely connected to both the ANYFAR A6 Box and the car's USB port. Verify the car's USB port is active.
- **No Display on Car Screen:** Confirm your car's infotainment system is set to CarPlay mode. Try restarting both the car's system and the ANYFAR A6 Box.
- **Bluetooth Connection Issues:** Delete the "A6 Box" from your phone's Bluetooth history and attempt to re-pair. Ensure your phone's Bluetooth is enabled and discoverable.
- **No Internet Access for Streaming Apps:** Check that your phone's personal hotspot is active and the ANYFAR A6 Box is connected to it. Verify your phone has an active data plan.
- **Lag or Freezing:** Ensure the device has adequate ventilation. Close any unnecessary background applications on the ANYFAR A6 Box or your phone. Check for firmware updates for the device.

7. SPECIFICATIONS

- **Model:** A6
- **Processor:** Quad-core Cortex-A35
- **RAM:** 2GB
- **ROM:** 8GB
