

## JONR JONR ED12

# JONR ED12 Cordless Wet Dry Vacuum Cleaner User Manual

Model: JONR ED12

Brand: JONR

## INTRODUCTION

---

Welcome to the JONR ED12 Cordless Wet Dry Vacuum Cleaner user manual. This guide provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read this manual thoroughly before first use and keep it for future reference.

## Product Overview

The JONR ED12 is a versatile 2-in-1 cordless wet dry vacuum cleaner designed for efficient cleaning of hard floors. It combines vacuuming and mopping functions, features self-cleaning capabilities, and offers enhanced edge cleaning for comprehensive floor care.

## IMPORTANT SAFETY INSTRUCTIONS

---

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, or injury.

- Read all instructions before using the appliance.

- Use only as described in this manual.
- Do not immerse the appliance in water or other liquids.
- Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts.
- Use only JONR recommended attachments.
- Do not use with damaged cord or plug.
- Do not use to pick up flammable or combustible liquids.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Unplug from outlet when not in use and before servicing.
- Store indoors in a dry place.

## SETUP AND ASSEMBLY

---

### Unpacking

Carefully remove all components from the packaging. Ensure all listed parts are present.

Image: All components of the JONR ED12 package, including the main vacuum unit, charging dock, spare roller brush, adapter, and user manual.

## Assembly

Follow these steps to assemble your JONR ED12 vacuum cleaner:

1. Attach the handle to the main body until it clicks into place.
2. Ensure the clean water tank and dirty water tank are securely installed.

## OPERATING INSTRUCTIONS

### Filling the Clean Water Tank

Gently rotate the clean water tank and pull it outwards to detach it. Remove the cover, fill the tank with clean water, and add a cleansing tablet if desired. Securely reattach the tank to the vacuum cleaner. The clean water tank has an 850ml capacity.

## Edge Cleaning

The creative floor brush can be designed to reach close to the edge and effectively absorb corners.

## Powering On and Cleaning Modes

To start cleaning, gently step on the switch located on the brush cover and tilt the vacuum backward. Press the power button on the handle to turn on the device.

The JONR ED12 offers two cleaning modes:

- **Auto Mode:** Ideal for basic cleaning and everyday messes like spilled oatmeal or milk.
- **Max Mode (9000PA):** Provides powerful suction for particle stains and stubborn messes.

## Edge Cleaning

The unique narrow edge design allows for deep cleaning along wall edges and corners, ensuring no dirt is left behind.

# 35s Fast Self-Cleaning

One-button deep self-cleaning, preventing mildew and odors.

## MAINTENANCE

### Self-Cleaning Function

The self-cleaning function requires adequate water in the clean tank and a minimum of 15% battery power to activate. Simply place the vacuum on its base and press the Mode Switch Button. The self-cleaning cycle will flush out internal pipes and the brush roll in 35 seconds.

## Cleaning the Dirty Water Tank and Brush Roll

After each use, it is recommended to empty and rinse the dirty water tank and clean the brush roll.

1. Press the release button and gently pull the dirty water tank outward to detach it.
2. Pull out the tank cover, then empty and rinse the used water tank and sponge filter under running water.
3. Press the release buttons located at both ends inward to remove the brush cover.
4. Rotate the end cap knob, move the entire roller brush to the left, and take out the roller brush. Rinse the roller brush thoroughly.
5. Clean the tube and wipe away any debris around the inlet with a damp cloth or cleaning brush.
6. Insert the entire brush into the left side, and tighten the end cap knob to complete the installation.
7. Reinstall the water tank for the next use.

## TROUBLESHOOTING

### Machine Pauses and Flashes Red (4 times)

This usually indicates two main problems: the dirty water tank is too full, or there's water and grime on the upper latch of the tank.

To fix: Empty and clean the dirty water tank. Wipe the metal piece of the tank with a paper towel.

### Machine Pauses and Flashes Red (5 times)

This indicates debris entangled in the brush roll or a low battery.

To fix: Start by clearing any debris from the brush roll. Then, recharge the unit to ensure it has enough power.

## General Troubleshooting Tips

- Ensure the clean water tank is filled and the dirty water tank is empty before use.

- Check for any blockages in the suction path.
- Fully charge the battery before extended cleaning sessions.
- Refer to the official JONR support for further assistance if issues persist.
