Setup

The John Deere Prestige Collection 4010 Tractor with 46A Loader is typically sold as a pre-assembled model. No complex assembly is required for immediate display or use.

1. **Unpacking:** Carefully remove the tractor and loader from its packaging. Retain packaging for future storage or transport.
2. **Inspection:** Inspect the model for any signs of damage during transit. Ensure all parts, including the loader arms and bucket, are securely attached and functional.
3. **Placement:** Place the model on a stable, flat surface for display or operation.

Operating the Loader

The 46A Loader on the 4010 Tractor model features movable parts for realistic operation.

- **Raising/Lowering Loader Arms:** Gently grasp the loader arms and manually pivot them upwards or downwards to simulate lifting and lowering actions.
- **Tipping the Bucket:** The bucket at the end of the loader arms can be manually tilted to simulate dumping or scooping.

Note: This is a static display model with manual movable parts, not a remote-controlled toy. Avoid excessive force when manipulating parts to prevent damage.

Maintenance

Proper care will ensure the longevity and appearance of your John Deere Prestige Collection model.

- **Cleaning:** Use a soft, dry cloth to gently wipe dust from the model. For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or solvents.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures to prevent fading or material degradation.
- **Handling:** Always handle the model by its main body. Avoid holding by delicate parts like the exhaust pipe, mirrors, or loader arms to prevent breakage.

Troubleshooting

As a static display model, troubleshooting is generally limited to physical integrity.

Problem	Possible Cause	Solution
Loose or Detached Part	Impact during handling or shipping.	If a small part has detached, it may be reattached using a small amount of model-safe adhesive. For significant damage, contact customer support.
Dust Accumulation	Exposure to open environment.	Regularly clean with a soft, dry cloth. Consider displaying in a dust-proof case.
Fading Paint	Prolonged exposure to direct sunlight.	Store and display the model away from direct sunlight.
