Sanctuary Diamond Series Home & Office Safe

COMBINATION DIAL LOCK INSTRUCTION MANUAL

Introduction

This manual provides comprehensive instructions for the proper setup, operation, and maintenance of your Sanctuary Diamond Series Home & Office Safe with Combination Dial Lock. Designed to protect your important valuables and documents from fire, water, and unauthorized access, this safe offers robust security features. Please read this manual thoroughly before using your safe to ensure optimal performance and safety.

Safety Information

- **Secure Placement:** Always secure the safe to a floor or wall using the provided bolt-down kit to prevent unauthorized removal or tipping.
- **Child Safety:** Do not leave the safe unlocked or unattended, especially in households with children. Ensure the safe is always closed and locked when not in use.
- **Weight:** The safe is heavy (approximately 60.4 pounds). Exercise caution and use proper lifting techniques or assistance when moving it.
- **Fire and Water Protection:** While the safe is fire-rated and waterproof, avoid submerging it or exposing it to extreme conditions beyond its specified ratings.
- **Combination Security:** Keep your combination confidential and stored in a secure location separate from the safe. Do not write it on the safe itself.

Setup

1. **Unpacking:** Carefully remove the safe from its packaging. Inspect for any shipping damage. Retain packaging for future transport if needed.
2. **Placement:** Choose a secure, level location for your safe. Consider a discreet area that is easily accessible to you but not obvious to others.
3. **Bolt-Down Installation:**

   The safe includes a waterproof bolt-down kit for added security. Locate the pre-drilled holes inside the safe. Using appropriate tools (not included), secure the safe to a solid surface (e.g., concrete floor, wall studs) according to the instructions provided with the bolt-down kit. Ensure a tight and secure fit to prevent removal.

Image: Front view of the Sanctuary Diamond Series Safe, showing the combination dial lock and handle. This safe is designed for secure storage of valuables.

4. **Initial Access:** Your safe comes with a preset combination. Refer to the documentation included inside the safe for your specific combination. Practice opening the safe several times before storing valuables.

Operating Instructions

1. **Opening the Safe:**

   To open the safe, use the preset combination provided. Turn the dial according to the sequence of numbers. Once the combination is entered correctly, turn the handle to open the door.

Image: Interior view of the safe with the door open, revealing adjustable shelves and a door-mounted organizer for small items.

2. **Closing and Locking:**

   Close the safe door firmly. Turn the handle to the locked position. Rotate the combination dial several turns to scramble the combination and ensure the safe is securely locked.

3. **Interior Lighting:**

   The safe is equipped with a door-mounted 100 Lumen factory-installed 6 LED lightbar. This light activates automatically when the door is opened, providing visibility to the contents. Ensure batteries are installed and functional for the light to operate.

Maintenance

- **Cleaning:** Use a soft, damp cloth to clean the exterior of the safe. Avoid abrasive cleaners or solvents that could damage the finish.
- **Battery Replacement:** The interior LED lightbar requires batteries (not included). If the light dims or stops working, replace the batteries according to the instructions provided with the light unit.
- **Door Seal Inspection:** Periodically inspect the triple seal around the door for any signs of wear or damage to ensure continued fire, water, and smoke protection.
- **Lock Mechanism:** The combination dial lock is designed for durability. Avoid forcing the dial or handle. If you experience stiffness, contact customer support.

Troubleshooting

Problem	Possible Cause	Solution
Safe will not open.	Incorrect combination entered.	Re-enter the combination carefully, ensuring each number is precisely aligned. Refer to your combination record.
Interior light is dim or not working.	Low or dead batteries.	Replace the batteries in the LED lightbar. Ensure correct polarity.

Problem	Possible Cause	Solution
Door is difficult to close or latch.	Obstruction in the door frame or mechanism.	Check for any items blocking the door. Ensure the safe is on a level surface.

Specifications

Brand	Sports Afield
Model Number	SA-DIA2C
Product Dimensions	18"D x 14.5"W x 15"H
Lock Type	Combination Lock
Material	Metal
Special Feature	Waterproof
Mounting Type	Door Mount (for light) / Bolt-down (for safe)
Included Components	Safe, Bolt-Down Kit
Water Resistance Level	Waterproof (for seven days up to handle)
Fire Rating	90 minutes at 1,800 degrees Fahrenheit
Item Weight	60.4 pounds
UPC	813204027137
