6. TROUBLESHOOTING

While your Juicy Couture Cosmetics Bag is designed for durability, here are some common issues and

their solutions:

Problem	Possible Cause	Solution
Zipper gets stuck or is difficult to close/open.	Fabric or lining caught in the zipper teeth; zipper teeth are dry or misaligned.	Gently pull any caught fabric away from the zipper. Apply a small amount of zipper lubricant (e.g., wax, graphite from a pencil) to the zipper teeth and carefully work the zipper back and forth. Avoid forcing the zipper.
Bag has an odor.	New product smell; residual moisture or spills.	Air out the bag in a well-ventilated area. Ensure the bag is completely dry after cleaning. You can place a sachet of baking soda inside for a few hours to absorb odors.
Stains on the lining.	Spilled liquids or cosmetics.	Wipe immediately with a damp cloth and mild soap. For stubborn stains, a gentle fabric cleaner designed for synthetic materials may be used, followed by thorough wiping with a clean damp cloth.
