

CB-801

Generic Portable Charging Case CB-801 User Manual

INTRODUCTION

This manual provides essential information for the safe and effective use of your Generic Portable Charging Case, Model CB-801. This premium charging case is designed for portability and convenience, offering a high-quality solution for charging and storing your device.

Key features include:

- **High Capacity:** The 1200mAh battery allows for 3-4 full charges of your device.
- **Fast Charging:** Charges your device within approximately 1 hour.
- **Smart Charging:** Charging automatically stops when the device battery is full to prevent overcharging.
- **Dual Storage:** Features two magnetic cavities for securely holding your device and an extra pod.
- **Compact Design:** Lightweight and portable, with dimensions of 114*55*13 mm and a weight of 70g.
- **Durable Construction:** Made with a high-quality anodized metal shell for longevity and scratch resistance.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- 1 x Generic Portable Charging Case (Model CB-801)
- 1 x Micro USB Charging Cable
- 1 x User Manual

This image displays the Generic Portable Charging Case alongside its retail packaging, illustrating the product's design and the included box.

SETUP

Before initial use, fully charge the portable charging case using the provided Micro USB cable and a compatible power source. The indicator lights on the case will show the charging status.

Inserting Your Device

1. Open the lid of the charging case.
2. Gently slide your device into the designated charging slot. The magnetic chamber will firmly hold your device in place.
3. Ensure the device is properly seated for charging to begin.
4. Close the lid to secure your device and any additional pods.

This video illustrates the process of placing a device into the portable charging case and removing it, highlighting the ease of use and secure fit.

OPERATING INSTRUCTIONS

Charging Your Device

Once your device is correctly inserted into the charging slot, the case will automatically begin charging. The indicator lights on the case will show the charging status of both the case and your device.

- The case's internal battery has enough capacity to fully charge your device 3-4 times.
- Charging will cease automatically once your device reaches full charge, preserving battery life and preventing overcharging.

Using the Storage Cavities

The case features two magnetic cavities. One is for your device, and the other is designed to hold an extra pod. This allows you to carry a spare pod securely, ensuring you have a backup when needed.

This video demonstrates how the magnetic chamber securely holds the device within the charging case and shows the charging indicator lights in operation.

This video provides a comprehensive look at the portable charging case, showing how to insert a device, the magnetic closure, and the location of the charging port.

MAINTENANCE

To ensure the longevity and optimal performance of your charging case, follow these maintenance guidelines:

- **Cleaning:** Wipe the exterior of the case with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the charging contacts inside the case are clean and free of debris.
- **Storage:** Store the charging case in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the case with care to prevent drops or impacts that could damage the internal components or the outer shell.

TROUBLESHOOTING

If you encounter issues with your Generic Portable Charging Case, refer to the following common solutions:

- **Device Not Charging:**
 - Ensure the charging case itself is charged.
 - Verify that your device is correctly inserted into the magnetic charging slot and making proper contact.
 - Check for any debris or obstruction on the charging contacts of both the case and your device.
- **Case Not Charging:**
 - Confirm that the Micro USB cable is securely connected to both the case and the power adapter.
 - Try using a different Micro USB cable or power adapter to rule out faulty accessories.
 - Ensure the power outlet is functional.
- **Lid Issues:**
 - If the lid does not close properly or feels loose, inspect for any physical damage or foreign objects obstructing its mechanism.

If these steps do not resolve the issue, please contact customer support for further assistance.
