3. SETUP AND INSTALLATION

The AKAMATE Portable Car Stereo is designed for easy plug-and-play installation. Follow these steps to set up your device:

- Choose Mounting Location:** Decide whether to mount the unit on your dashboard or windshield. The suction cup mount allows for flexible positioning.
- Attach Mount to Unit:** Align the four holes on the back of the portable car screen with the corresponding pegs on the suction cup holder. Gently push until it clicks into place.
- Secure Mount:**
 - For Windshield: Press the suction cup firmly against the clean windshield surface and engage the locking lever to create a strong vacuum seal.
 - For Dashboard: Use the self-adhesive bracket (if included, or a separate adhesive pad) to secure the mount to a flat, clean area of your dashboard.

4. **Connect Power:** Insert the cigarette lighter power cable into your vehicle's 12V/24V cigarette lighter socket. Connect the other end to the "Power Supply Input" port on the side of the portable car screen.
5. **Initial Power On:** The device should power on automatically once connected to power. Follow any on-screen prompts for initial setup.

5. MAINTENANCE

To ensure the longevity and optimal performance of your AKAMATE Portable Car Stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that could damage the surface.
- **Temperature:** Do not expose the device to extreme temperatures (hot or cold) for extended periods, as this can affect internal components and battery life.
- **Storage:** If storing the device for a long time, disconnect it from power and store it in a cool, dry place.
- **Handling:** Handle the device with care. Avoid dropping it or subjecting it to strong impacts.
- **Power Connection:** Ensure the power cable is securely connected but do not force it. Disconnect by pulling the plug, not the cable.

6. TROUBLESHOOTING

If you encounter issues with your AKAMATE Portable Car Stereo, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not power on.	No power from cigarette lighter; loose connection.	Check if the cigarette lighter socket is working. Ensure the power cable is securely plugged into both the device and the car socket.
Touch screen malfunction.	Unit reset incorrectly.	Do not reset the unit unless instructed by support. If this occurs, contact customer support for assistance.
Cannot connect to CarPlay/Android Auto wirelessly.	Bluetooth/Wi-Fi off; incorrect pairing; interference.	Ensure Bluetooth and Wi-Fi are active on your phone. Forget the device in your phone's Bluetooth settings and re-pair. Try restarting both the phone and the car stereo.
No audio or poor audio quality.	Incorrect audio output setting; FM interference; loose AUX cable.	Check audio output settings (Bluetooth, AUX, FM). For FM: Ensure the car stereo and device are on the same, clear FM frequency. Adjust the power cord routing to minimize interference. For AUX: Ensure the AUX cable is fully inserted into both devices.
Steering wheel control not responding.	Remote battery low; remote not paired.	Check the remote's battery. Ensure the remote is properly paired with the unit according to the setup instructions.

For issues not listed here, please contact AKAMATE customer support.
