PARWIN PRO BEAUTY HT0288

PARWIN PRO BEAUTY - 2-Barrel Mermaid Hair Waver

Model: HT0288

1. INTRODUCTION

Thank you for choosing the PARWIN PRO BEAUTY 2-Barrel Mermaid Hair Waver. This innovative styling tool is designed to help you create beautiful, long-lasting mermaid waves with ease. Featuring adjustable temperature settings, anti-scald protection, and negative ion technology, it ensures a safe and effective styling experience for all hair types.

2. SAFETY WARNINGS

WARNING: This appliance can become very hot.

- Avoid direct contact with skin and hair to prevent burns.
- Always allow the appliance to cool down completely after use before engaging the safety lock for storage.
- Do not use near water or while bathing.
- Keep out of reach of children.
- Unplug the appliance when not in use.

3. PRODUCT FEATURES

- **Large Mermaid Waver:** Two barrels designed to create instant, large, natural-looking waves. Ideal for beginners.

Mermaid Hairstyles

2 Barrel

Hair Waver for hair

- **Suitable for All Hair Types with Negative Ion Technology:** Designed for short, medium, and long hair. The negative ion emitter releases negative ions to neutralize static electricity, keeping hair supple and retaining moisture for lasting hydration. A slight buzzing sound from the negative ion emitter is normal during operation.

20 MILLION Negative Ion Technology.

Equipped with a negative ion emitter, the powerful negative ion function makes hair soft and shiny.

Image: A woman holding the hair waver, with text indicating "20 Million Negative Ion Technology" and explaining its benefits for soft and shiny hair.

- **Adjustable Temperature Settings:** Features 4 temperature levels (140°C, 170°C, 200°C, 230°C) to suit various hair types, from coarse to fine, thick to thin.

Stable heating PTC technology

Perfect for every hair type (4 Temperature Levels)

140°C-170°C

Thin & Fine Hair

170°C-200°C

Normal hair

200°C-230°C

Thick & Coarse hair

- **Safety Lock for Convenient Storage:** Once the barrel has cooled, simply turn the safety cap to the locked position for compact and secure storage.
- **Additional Features:**
 - **60-Minute Auto-Off:** For safety and peace of mind, the device automatically turns off after 60 minutes of inactivity.
 - **110V-220V Dual Voltage:** Suitable for international travel.
 - **360° Rotatable Cable:** Provides greater flexibility during styling.

4. SETUP

1. **Unpack:** Carefully remove the hair waver from its packaging.
2. **Inspect:** Check the appliance for any visible damage. Do not use if damaged.
3. **Plug In:** Connect the power cord to a suitable electrical outlet. Ensure the voltage is compatible (110V-220V).

5. OPERATING INSTRUCTIONS

Follow these steps to achieve beautiful mermaid waves:

1. **Power On:** Press and hold the power button to turn on the appliance.
2. **Select Temperature:** Use the temperature control buttons to select the desired heat setting (140°C, 170°C, 200°C, or 230°C) based on your hair type. The digital display will show the selected temperature. Allow the

waver to heat up; it heats quickly.

3. **Prepare Hair:** Ensure your hair is clean, dry, and detangled. For best results, divide your hair into manageable sections.
4. **Wave Hair:**
 - Take a section of hair and place it between the barrels of the waver, close to the roots.
 - Gently clamp down for a few seconds (typically 3-5 seconds, depending on hair type and desired wave intensity).
 - Release and move the waver down the same section of hair, overlapping the last wave to create a continuous pattern.
 - Repeat this process until the entire section is waved.

Image: A woman demonstrating the use of the hair waver on her hair, with text indicating "No practice required" and "Instant wave & Long lasting."

5. **Finish Styling:** Once all sections are waved, allow your hair to cool before gently separating the waves with your fingers or a wide-tooth comb for a softer look.
6. **Power Off:** Press and hold the power button to turn off the appliance.
7. **Cool Down:** Allow the waver to cool completely on a heat-resistant surface before storing.
8. **Engage Safety Lock:** Once cool, turn the safety cap to the locked position for convenient storage.

6. MAINTENANCE

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the barrels and exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
- **Storage:** Store the waver in a dry, safe place, away from moisture and extreme temperatures. Use the safety lock for compact storage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in correctly; power outlet issue; appliance malfunction.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet. If the problem persists, contact customer support.
Waves are not holding.	Incorrect temperature setting for hair type; hair not completely dry; sections too large.	Increase temperature if hair is coarse/thick. Ensure hair is completely dry. Use smaller sections of hair. Allow waves to cool before disturbing.
Appliance is too hot to handle.	Normal operation (barrels get hot); improper handling.	Always hold the appliance by the handle, not the heated barrels. Utilize the anti-scald protective shell. Allow to cool completely before storing.

8. SPECIFICATIONS

Feature	Detail
Brand	PARWIN PRO BEAUTY
Model Number	HT0288
Barrel Size	32 millimeters
Material	Ceramic Tourmaline
Color	Prussian Blue
Power Source	Corded Electric
Max Temperature Setting	230°C (446°F)
Dimensions (L x W x H)	31 x 11 x 11 cm
Weight	680 grams
Auto-Off	60 minutes
Voltage	110V-220V (Dual Voltage)

9. WARRANTY AND SUPPORT

PARWIN PRO BEAUTY is committed to providing high-quality products and excellent customer service.
