# Pnitr Selfie Stick Tripod with Light - Instruction Manual

Model: PNQ02MP

## INTRODUCTION

---

Thank you for choosing the Pnitr Selfie Stick Tripod with Light. This versatile device combines a selfie stick, a stable tripod, and detachable fill lights to enhance your photography and videography experience. Its compact and lightweight design makes it an ideal companion for travel, content creation, and capturing memorable moments.

The Pntri Selfie Stick Tripod with Light in its various configurations: extended selfie stick, stable tripod, and compact folded state.

## PACKAGE CONTENTS

---

- 1 x Selfie Stick Tripod
- 2 x Detachable Fill Lights
- 1 x Wireless Remote Control

## SETUP GUIDE

---

### 1. Unfolding the Tripod

To use the device as a tripod, gently pull the bottom legs outwards until they form a stable base. The umbrella-shaped tripod structure provides enhanced stability.

# Longest Extension

37 inch

44.9 inch

**Others**

★ ★ ★

**Ours**

★ ★ ★ ★ ★

The reinforced tripod base with its umbrella triangle design ensures stability on various surfaces.

## 2. Attaching Your Smartphone

Extend the phone holder at the top of the stick. Place your smartphone securely into the holder. The holder is designed to accommodate a wide range of smartphone models.

## 3. Pairing the Wireless Remote

1. Turn on the remote control by pressing and holding the button until the indicator light flashes.
2. On your smartphone, go to Bluetooth settings and search for available devices.
3. Select 'PNQ02MP Remote' (or similar name) from the list to pair. The indicator light will stop flashing once paired.

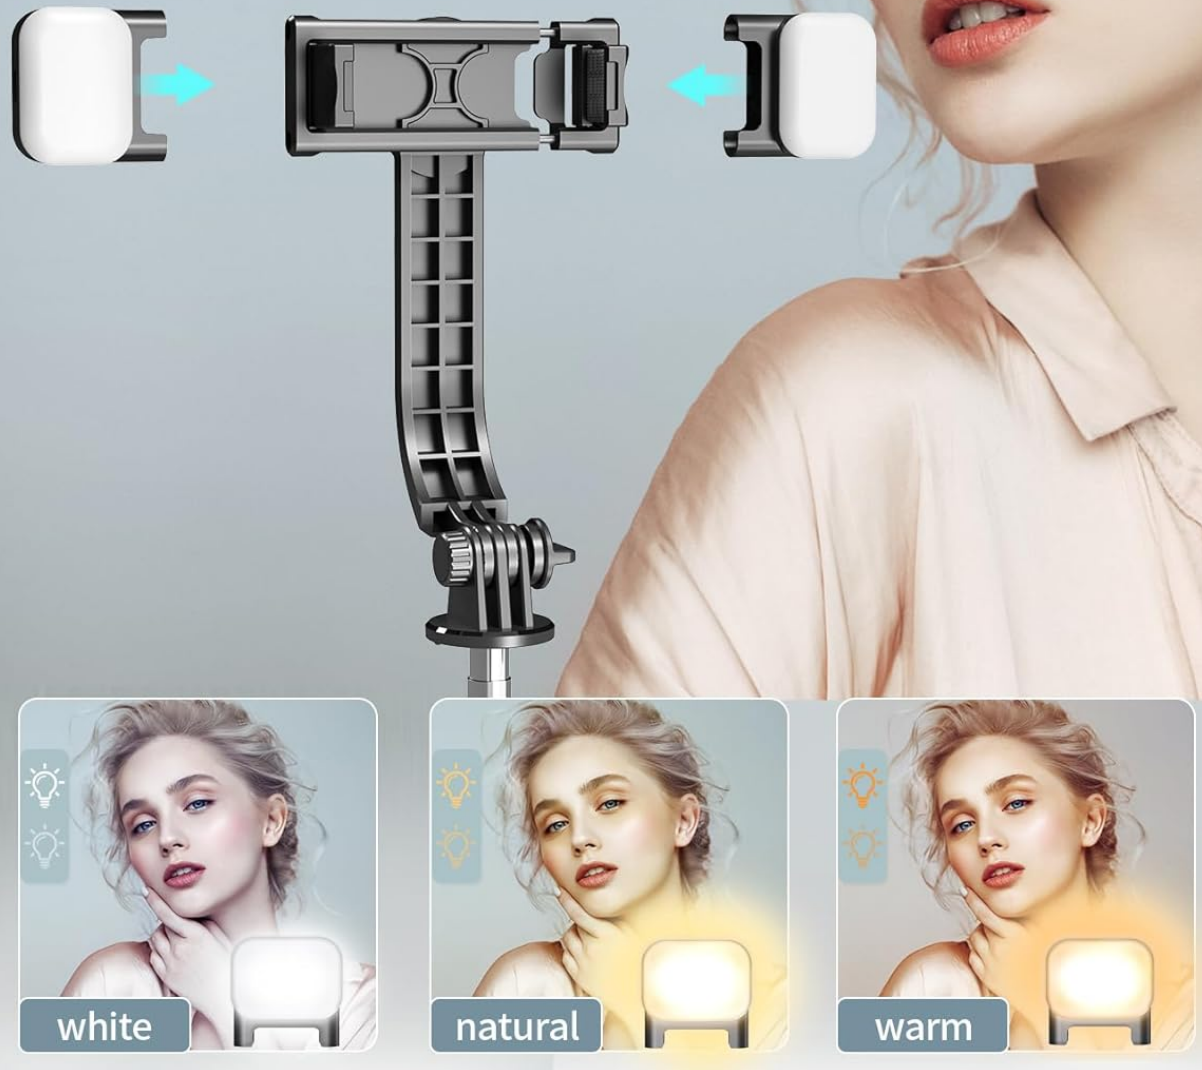

The wireless Bluetooth remote control allows for quick and easy connection to your smartphone for remote photography.

#### 4. Attaching and Charging Fill Lights

The two fill lights are detachable. They can be slid into the designated slots on either side of the phone holder. To charge them, use the provided charging cable. A red light indicates charging, and the light turns off when fully charged.

# Detachable Double Fill Lights

Capture your beauty in different light modes

The detachable double fill lights offer three different color modes (white, natural, warm) to suit various lighting needs.

## OPERATING INSTRUCTIONS

---

### 1. Extending the Selfie Stick

Pull the telescopic pole upwards to extend the selfie stick. It can extend up to 44.9 inches, providing a wide field of view for your photos and videos.

# 5S Fast Connection

 **5.2**  
Bluetooth

32.8ft range

10,000 selfies

 iOS 5.1+

 Android 4.4+

The selfie stick extends to 44.9 inches, allowing for broader shots and including more subjects.

## 2. Adjusting Angles and Rotation

The phone holder can be adjusted 180 degrees vertically and rotated 360 degrees horizontally. This allows you to find the optimal angle for any shot, whether landscape or portrait.

## Selfie at the Best Angle

Achieve the best angle with 360-degree rotation and 180-degree adjustment of your smartphone.

### 3. Using the Fill Lights

Each fill light offers 3 different color modes (warm, natural, white) and 2 brightness levels per mode, totaling 6 options. Press the power button on each light to cycle through modes and brightness. The lights provide wider illumination for various situations.

# Minimized

21cm

213g

The integrated fill lights significantly improve photo and video quality, especially in low-light conditions.

#### 4. Remote Shutter Operation

Once paired, simply press the button on the wireless remote control to capture photos or start/stop video recording from a distance of up to 10 meters (33 feet). Toggle the remote's switch off when not in use to conserve battery life.

#### USAGE SCENARIOS

---

The Pntri Selfie Stick Tripod is designed for maximum versatility:

- **Selfie Stick Mode:** Ideal for close-up selfies and vlogging while holding the device.
- **Desktop Tripod Mode:** Quickly transforms into a stable desktop stand for video calls, online meetings, or hands-free viewing.
- **Floor Tripod Mode:** Extend the pole and tripod legs to stand on the ground, perfect for full-body shots, group photos, or stable video recording from a distance.

## 3-IN-1 Selfie Stick Tripod

The 3-in-1 design allows for diverse applications, from group photos to vlogging and hands-free recording.

### MAINTENANCE AND CARE

- Clean the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

- Store the selfie stick tripod in a cool, dry place away from direct sunlight and extreme temperatures.
- Ensure the telescopic pole and tripod legs are fully retracted before storing to prevent damage.
- Keep the wireless remote dry and free from dust.

## TROUBLESHOOTING

---

- **Remote Not Connecting:** Ensure the remote is charged and turned on. Check your phone's Bluetooth settings and try re-pairing.
- **Lights Not Working:** Verify the fill lights are charged. Press the power button on each light to turn them on.
- **Tripod Instability:** Ensure all tripod legs are fully extended and placed on a flat, stable surface. Avoid overloading the device with heavy phones or accessories.
