Zipro Jump Pro Series (Ø 107-427cm)

ZIPRO Jump Pro Outdoor Trampoline User Manual

MODEL: JUMP PRO SERIES (Ø 107-427cm)

1. Important Safety Information

Read all instructions carefully before assembling and using the ZIPRO Jump Pro Trampoline. Failure to follow these instructions can result in serious injury or property damage. Keep this manual for future reference.

- **Adult Supervision:** Always ensure adult supervision when children are using the trampoline.
- **One Jumper at a Time:** To prevent collisions, only one person should use the trampoline at any given time.
- **Weight Limit:** Do not exceed the maximum weight recommendation of 150 kg.
- **Proper Attire:** Remove shoes, jewelry, and any sharp objects before using the trampoline.
- **Clearance:** Ensure adequate overhead and surrounding clearance from walls, fences, trees, and other obstacles.
- **Weather Conditions:** Do not use the trampoline in strong winds, rain, or lightning. Secure the trampoline during adverse weather.
- **No Somersaults or Flips:** Attempting somersaults or flips can lead to severe head and neck injuries.
- **Entry and Exit:** Always use the designated entry/exit point and never jump off the trampoline.
- **Inspection:** Regularly inspect the trampoline for damaged, worn, or missing parts before each use.

2. Package Contents

Please verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, contact Zipro customer support.

- Trampoline Frame Sections (Alloyed Steel)
- Jumping Mat (UV-resistant)
- Springs
- Spring Cover Pad
- Safety Enclosure Net (with Zipper)
- Enclosure Poles and Foam Sleeves
- Ladder (if included with your model)
- Assembly Hardware (bolts, nuts, washers)

- Spring Loading Tool
- User Manual

3. Setup and Assembly

Assembly requires at least two adults. Follow the step-by-step instructions provided in the separate assembly guide (if applicable) or the detailed diagrams. Ensure you have sufficient space and all necessary tools.

1. **Site Selection:** Choose a flat, level surface free from obstacles. Ensure adequate overhead clearance (at least 7.3 meters / 24 feet) and side clearance (at least 2.4 meters / 8 feet) from structures or other objects.
2. **Frame Assembly:** Connect the frame sections according to the diagrams, securing them with the provided hardware.
3. **Jumping Mat and Springs:** Lay the jumping mat inside the frame. Attach the springs evenly around the frame and mat using the spring loading tool. This step requires significant force.
4. **Spring Cover Pad:** Place the spring cover pad over the springs and frame to prevent contact with the springs. Secure it firmly.
5. **Safety Enclosure Poles:** Attach the enclosure poles to the trampoline frame. Slide the foam sleeves over the poles.
6. **Safety Enclosure Net:** Secure the safety net to the top of the enclosure poles and the bottom of the spring cover pad. Ensure the zipper entrance is functional and securely closed during use.
7. **Final Inspection:** Double-check all connections, bolts, and safety features before first use.

4. Operating Instructions

The ZIPPRO Jump Pro Trampoline is designed for recreational outdoor use. Adhere to all safety guidelines during operation.

- **Entering the Trampoline:** Use the ladder (if applicable) or step carefully onto the jumping mat through the zippered opening. Close the zipper securely behind you.
- **Jumping Technique:** Begin with small bounces to get accustomed to the trampoline. Maintain control and jump in the center of the mat.
- **Stopping a Bounce:** To stop bouncing, flex your knees as your feet come into contact with the mat.
- **Exiting the Trampoline:** Stop bouncing completely, then carefully exit through the zippered opening. Never jump off the trampoline.

5. Maintenance

Regular maintenance will extend the life of your trampoline and ensure continued safe use.

- **Daily/Before Each Use:** Inspect the trampoline for any loose, missing, or damaged parts. Pay close attention to the jumping mat, springs, spring cover pad, and safety net.
- **Monthly/Seasonally:** Check all bolts and nuts for tightness. Lubricate any moving parts if necessary (e.g., hinges on a ladder).
- **Cleaning:** Clean the jumping mat and safety net with mild soap and water. Rinse thoroughly and allow to air dry. Do not use abrasive cleaners.
- **UV Protection:** The jumping mat and safety net are UV-resistant, but prolonged exposure to intense sunlight can still cause degradation over time.
- **Winter Storage:** In regions with harsh winters, it is recommended to disassemble and store the trampoline indoors to protect it from snow, ice, and extreme cold.

- **Replacement Parts:** Use only genuine Zipro replacement parts. Contact Zipro customer support for assistance.

6. Troubleshooting

This section addresses common issues you might encounter with your trampoline.

- **Squeaking Noise:** Check all frame connections and ensure bolts are tight. A small amount of lubricant on frame joints may help.
- **Loose Safety Net:** Ensure the net is properly attached to both the poles and the spring cover pad. Check all straps and ties.
- **Reduced Bounce:** Over time, springs can lose some elasticity. Inspect springs for stretching or damage. Replace worn springs.
- **Damaged Jumping Mat/Net:** Discontinue use immediately. Order genuine Zipro replacement parts and replace them before further use.

7. Specifications

Feature	Detail
Brand	Zipro
Model Series	Jump Pro
Shape	Round
Frame Material	Alloyed Steel
Material Type	Steel
Available Frame Sizes	Ø 107cm - 427cm
Maximum Weight Recommendation	150 Kilograms
Special Features	Safety Net, UV-Resistant Jumping Mat, Zippered Entry

8. Warranty and Support

Specific warranty details for your ZIPRO Jump Pro Trampoline may vary by region and retailer. Please refer to the warranty card included with your purchase or visit the official Zipro website for the most accurate and up-to-date information.

For customer support, replacement parts, or further assistance, please contact Zipro directly through their official website or the contact information provided in your purchase documentation.

Note: Always provide your product model and purchase date when contacting support.
