CARE AND MAINTENANCE

Proper care will extend the life and maintain the appearance of your Madesa Glamy 08 kitchen cabinet. The ecological Polyester Paint finish is designed for durability.

- **Cleaning:** For general cleaning, use a soft, damp cloth with mild soap. Wipe dry immediately with a clean, soft cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or strong chemical detergents, as these can damage the finish.
- **Spills:** Wipe up spills immediately, especially liquids, to prevent staining or damage to the wood and finish. The Polyester Paint offers resistance to water and alcohol, but prolonged exposure should be avoided.
- **Heat Protection:** While the finish offers some heat resistance, always use heat pads or trivets under hot pots and pans to protect countertops and surfaces.
- **Sunlight Exposure:** Avoid prolonged direct exposure to strong sunlight, which can cause fading over time.
- **Humidity:** Maintain a stable humidity level in your kitchen. Extreme fluctuations can affect wood products.
