Hot Wheels HCB00

Hot Wheels Action Looping Infernal Track Set

Model: HCB00

Brand: Hot Wheels

PRODUCT OVERVIEW

The Hot Wheels Action Looping Infernal track set is designed for dynamic racing and stunt play. It features a large, approximately 70 cm (28 inch) wide loop, allowing multiple Hot Wheels vehicles to race simultaneously. The set includes a lever-activated launcher to propel cars through the loop. The objective is to navigate the loop while avoiding collisions with other vehicles. This set encourages timing and skill, providing an engaging play experience. One Hot Wheels vehicle (1:64 scale) is included with the set. Additional vehicles are sold separately.

SAFETY INFORMATION

WARNING: Not suitable for children under 36 months due to small parts that may present a choking hazard.

Adult supervision is recommended during assembly and play.

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all track pieces, the launcher, and the vehicle from the packaging.
2. **Adult Assembly Required:** This product requires adult assembly. Refer to the included visual instructions for detailed steps on connecting the track pieces to form the complete Looping Infernal circuit. Ensure all connections are secure and click into place.
3. **Install Batteries:** Locate the battery compartment on the motorized booster section of the track. This set requires 4 D batteries (not included). Open the compartment, insert the batteries according to the polarity indicators (+/-), and close the compartment securely.
4. **Place on Flat Surface:** Assemble the track set on a flat, stable surface to ensure proper operation and prevent accidental disassembly during play.

OPERATING INSTRUCTIONS

1. **Power On:** Ensure batteries are installed and the motorized booster is switched on (if applicable).

2. **Load Vehicle:** Place a Hot Wheels vehicle onto the starting position of the launcher. Ensure the car is properly aligned with the track.
3. **Launch Car:** Use the lever-activated launcher to propel the car forward. Push the lever down firmly and quickly to give the car sufficient speed to complete the loop.
4. **Multi-Car Play:** For enhanced play, introduce additional Hot Wheels vehicles (sold separately) onto the track after the first car has cleared the initial launch area. The challenge is to time subsequent launches to avoid collisions within the loop.

MAINTENANCE

- **Cleaning:** Wipe the track pieces and vehicles with a damp cloth to remove dust and debris. Do not immerse electronic components in water.
- **Battery Replacement:** If the motorized booster's performance diminishes, replace the 4 D batteries. Ensure proper disposal of old batteries.
- **Storage:** When not in use, store the track set in a clean, dry place away from direct sunlight and extreme temperatures to prevent warping or damage.

TROUBLESHOOTING

- **Cars not completing the loop:**
 - Check if the batteries in the motorized booster are fresh and correctly installed.
 - Ensure all track connections are secure and there are no gaps.
 - Verify that the car is properly placed on the launcher and the lever is pushed firmly.
 - Some Hot Wheels cars perform better than others on specific tracks; try different vehicles.
- **Track pieces separating:**
 - Ensure all connectors are fully engaged.
 - Assemble the track on a flat, stable surface.
- **Launcher not working:**
 - Check for any obstructions in the launcher mechanism.
 - Ensure the lever moves freely.
