Yaheetech Vintage Twin Size Metal Bed Frame

Yaheetech Vintage Twin Size Metal Bed Frame Instruction Manual

Model: Vintage Twin Size Metal Bed Frame

INTRODUCTION

This instruction manual provides comprehensive guidance for the assembly, safe use, and maintenance of your Yaheetech Vintage Twin Size Metal Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

- Exercise caution around sharp edges during assembly and handling.
- Do not exceed the maximum weight capacity of **450 pounds** on the bed frame.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Keep small parts away from children during assembly to prevent choking hazards.
- Assemble the bed frame on a soft, clean surface to prevent damage to the product or your floor.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Headboard components
- Footboard components

- Side rails
- Support legs
- Metal slats
- Assembly hardware (screws, bolts, washers, Allen wrench)
- Instruction manual

ASSEMBLY INSTRUCTIONS

Follow these steps for efficient and stress-free setup. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface. Identify each component using the parts list provided in your package.
2. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided hardware. Ensure all connections are firm but do not fully tighten screws until the entire frame is assembled.
3. **Install Support Legs:** Securely attach the central support legs to the designated points on the frame.
4. **Place Metal Slats:** Position the metal slats across the frame. The slats are designed to fit into specific notches or attachment points.

Image: Close-up view illustrating the connection method for the metal frame components, showing how to align an iron pipe with a notch and press to fix it securely.

5. **Secure Slats:** Ensure all slats are properly seated and secured. Some designs may require pressing the slats firmly into place or using additional fasteners.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts using the provided Allen wrench. Do not overtighten.
7. **Add Mattress:** Place your standard twin-size mattress (75" L × 39" W) directly onto the assembled slat system. No box spring is required.

PRODUCT FEATURES AND USAGE

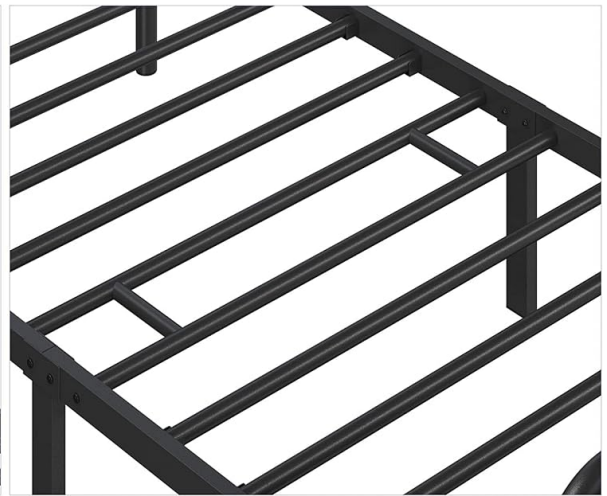

Your Yaheetech bed frame is designed for comfort, stability, and convenience.

- **Durable Construction:** Crafted with a powder-coated metal frame, including side rails and 6 sturdy support legs, ensuring stability and a squeak-free experience.
- **Mattress Support:** Features 12 properly spaced metal slats that provide direct support for your mattress, eliminating the need for a box spring.
- **Diamond Pattern Headboard:** A 41.5-inch high headboard with an exquisite diamond pattern provides an aesthetic focal point and a comfortable backrest.

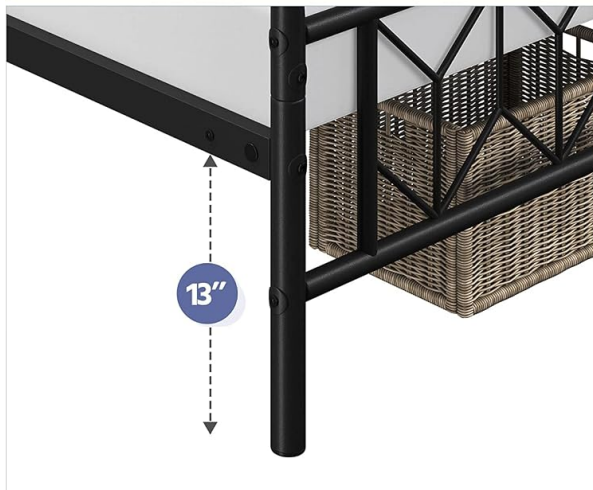

- **Under-bed Storage:** Offers 13 inches of clearance beneath the frame, providing ample space for storage.
- **Safety Details:** Designed with rounded edges on the head and footboard to minimize accidental bumps. Non-slip foot caps protect your floors and enhance stability.

Vintage design with Diamond Pattern Headboard

Premium metal tubes ensure extended years of use

Ample under-bed room maximizes your storage space

Bottom rubber caps keep your floor away from damage

MAINTENANCE

To ensure the longevity and appearance of your bed frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe clean with a dry cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if any looseness is detected to maintain structural integrity and prevent squeaking.
- **Weight Distribution:** Distribute weight evenly across the bed frame to prevent undue stress on any single point.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame, especially where the side rails connect to the headboard and footboard, and where slats

attach.

- **Instability/Wobbling:** Ensure the bed frame is on a level surface. Check that all support legs are making full contact with the floor and that all connections are securely tightened.
- **Mattress Sliding:** The built-in slats are designed to prevent mattress sliding. Ensure your mattress is correctly positioned and that the slats are fully engaged. If sliding persists, consider using a non-slip mattress pad.
- **Missing Parts:** If you find any parts missing during assembly, do not proceed. Contact Yaheetech customer support immediately for assistance.

SPECIFICATIONS

Feature	Detail
Standard Size	Twin
Material	Iron
Weight Capacity	450 lb
Applicable Mattress Size	75" L x 39" W
Assembly Required	Yes
Overall Dimensions (L x W x H)	77.5" x 41" x 41.5"
Ground To Item Distance (Under-bed Clearance)	13 Inches
Item Weight	33.4 lb
Color	Black
Finish Type	Powder Coated
