Tobenone XYY-PD100CL

Tobenone 100W USB C Laptop Charger Instruction Manual

Model: XYY-PD100CL

INTRODUCTION

Thank you for choosing the Tobenone 100W USB C Laptop Charger. This universal power supply adapter is engineered for efficient and rapid charging of a wide range of USB-C compatible devices. Featuring advanced GaN III technology and multiple safety protections, it provides a reliable and convenient charging solution for your laptops, tablets, smartphones, and more.

PRODUCT OVERVIEW

The Tobenone 100W USB C Charger (Model: XYY-PD100CL) is designed for high-speed power delivery. Its compact and foldable design makes it ideal for both home and travel use. The integrated 5ft USB-C cable ensures a secure and efficient connection to your devices.

SETUP INSTRUCTIONS

1. **Unfold the Plug:** Gently pull out the foldable prongs from the charger body until they lock into place.

2. **Connect to Power Outlet:** Insert the charger's prongs into a standard wall power outlet (100-240V).

3. **Connect to Device:** Plug the USB-C connector of the integrated 5ft cable into the USB-C charging port of your

compatible device (laptop, tablet, smartphone, etc.).

4. **Verify Charging:** Confirm that your device indicates it is receiving power and charging. The charger may feature an indicator light to show it is powered on.

MAINTENANCE

- Keep the charger and cable clean and dry. Avoid exposure to liquids.
- Do not expose the charger to extreme temperatures or direct sunlight.
- Avoid dropping or subjecting the charger to strong impacts.

- When not in use, fold the prongs for compact storage and to prevent damage.
- Store the cable neatly to prevent tangling and damage. The included cable is designed for durability, having withstood 10,000 bending tests.

TROUBLESHOOTING

- **Device not charging:**

  - Ensure the charger is securely plugged into a working power outlet.
  - Verify the USB-C cable is firmly connected to both the charger and your device.
  - Check if your device's charging port is clean and free of debris.
  - Confirm your device is compatible with USB-C Power Delivery.

- **Slow charging:**

  - Ensure your device supports fast charging via USB-C PD3.0.
  - Avoid using your device for intensive tasks while charging, as this can slow down the process.

- **Charger feels warm:**

  - It is normal for the charger to become warm during operation, especially during high-power charging. If it becomes excessively hot, disconnect it immediately and contact support.

The charger is equipped with multiple safety protections, including over-current, over-voltage, over-temperature, overload, short circuit, and leakage protection, to ensure safe operation.
