## Eureka Forbes Gold Nova UV KIT (GWPMGDGDUK00050)

# Eureka Forbes Aquaguard Gold Nova UV KIT Instruction Manual

Model: Gold Nova UV KIT (GWPMGDGDUK00050)

[Overview](#) [Setup](#) [Operating](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Support](#)

## 1. PRODUCT OVERVIEW

---

The Eureka Forbes Aquaguard Gold Nova UV KIT is a genuine replacement cartridge set designed for Aquaguard Total Gold NOVA and Total Infinity UV water purifiers. This kit includes an Advanced Chemiblock Filter and a UV cartridge, engineered to ensure the continuous supply of safe and purified drinking water by effectively removing impurities.

## 2. SETUP AND INSTALLATION

---

### 2.1 Included Components

- Activated Carbon Block
- Water Filter Cartridge (UV)
- Service Sticker

### 2.2 Installation Guidelines

This UV KIT is intended for use as a replacement for existing cartridges in compatible Aquaguard water purifiers. For optimal performance and to ensure proper installation, it is highly recommended to have the cartridges installed by a certified Eureka Forbes service technician. Incorrect installation may lead to water leakage or improper filtration.

**Figure 1:** Front view of the Aquaguard Gold Nova UV KIT, showing the activated carbon block and water filter cartridge.

Before installation, ensure the main water supply to the purifier is turned off. After installation, allow water to flow through the purifier for a few minutes to flush out any air or loose carbon particles before consuming.

### 3. OPERATING INSTRUCTIONS

---

Once the Aquaguard Gold Nova UV KIT cartridges are correctly installed in your compatible Aquaguard water purifier, the system will operate automatically. The activated carbon block removes organic impurities, chlorine, and odor, while the UV lamp (part of your existing purifier, not this kit) disinfects the water by eliminating bacteria and viruses. Ensure your water purifier is connected to a power source for the UV lamp to function.

#### 3.1 Initial Use

Upon first use after cartridge replacement, dispense and discard approximately 2-3 liters of water. This flushes out any residual carbon dust and prepares the system for optimal performance.

### 4. MAINTENANCE

---

#### 4.1 Cartridge Replacement

The Aquaguard Gold Nova UV KIT cartridges have a specific lifespan, which varies depending on the quality of the input water and usage volume. It is recommended to replace the cartridges annually or as indicated by your water purifier's service indicator. Regular replacement ensures consistent water quality and extends the life of your purifier.

**Figure 3:** Back view of a single water filter cartridge from the Aquaguard Gold Nova UV KIT, showing product label.

## 4.2 Cleaning

The filter cartridges themselves are not designed for cleaning and should be replaced when their lifespan expires. The exterior of the water purifier housing can be wiped clean with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.

## 5. TROUBLESHOOTING

---

### 5.1 Slow Water Flow

- **Cause:** Clogged filter cartridges.
- **Solution:** This indicates that the cartridges are nearing the end of their life and require replacement.

### 5.2 Unusual Taste or Odor in Water

- **Cause:** Exhausted carbon filter or contamination.
- **Solution:** Replace the filter cartridges. If the issue persists after replacement and flushing, contact customer support.

### 5.3 Water Leakage

- **Cause:** Improperly installed cartridges or damaged seals.
- **Solution:** Turn off the water supply immediately. Recheck the installation of the cartridges. If the problem continues, contact a service technician.

For any issues not listed here or if troubleshooting steps do not resolve the problem, please contact Eureka Forbes customer support.

## 6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Eureka Forbes
Model Number	GWPMGDGDUK00050
Set Name	Gold Nova UV KIT
Material	Carbon
Product Dimensions	9D x 30W x 55H Centimeters
Item Weight	0.6 Kilograms (600 g)
External Testing Certification	ANSI
Product Benefits	Removes Impurities
Net Quantity	1 Count
Special Feature	UV (for compatible purifier)
Included Components	Activated Carbon Block, Water Filter Cartridge, Service Sticker

## 7. WARRANTY INFORMATION

This Aquaguard Gold Nova UV KIT is a consumable item. For specific warranty details regarding manufacturing defects or product integrity upon purchase, please refer to the documentation provided with your original water purifier or contact Eureka Forbes customer support directly. Warranty terms typically apply to the water purifier unit itself, while consumable filters have a limited or no warranty due to their nature.
