MVMT Rise Mini

MVMT Rise Mini Watch User Manual

Model: Rise Mini (Aqua Blue)

1. Introduction

This manual provides essential information for the proper use and care of your MVMT Rise Mini Watch. Please read these instructions carefully to ensure optimal performance and longevity of your timepiece.

Image 1.1: Front view of the MVMT Rise Mini Watch, showcasing its aqua blue dial and silver-tone bracelet.

2. Setup and Initial Use

2.1 Setting the Time

1. **Pull out the crown:** Gently pull the crown (the small knob on the side of the watch case) to the outermost position.
2. **Adjust the time:** Rotate the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. **Push in the crown:** Once the time is set, push the crown back into its original position. This will start the watch movement.

MVMTM

Image 2.1: Side view of the MVMT Rise Mini Watch, highlighting the crown used for time adjustment.

2.2 Adjusting the Bracelet

The MVMT Rise Mini Watch features a metal bracelet. For optimal comfort, the bracelet may need to be adjusted to fit your wrist size. This typically involves adding or removing links.

- **Professional Adjustment Recommended:** Due to the specialized tools and techniques required, it is highly recommended to have bracelet adjustments performed by a qualified jeweler or watch technician. Improper adjustment can damage the bracelet or watch.
- **Clasp Type:** The watch features a Push Button Deployment Clasp for secure fastening.

3. Operating Your Watch

Your MVMT Rise Mini Watch is an analog timepiece designed for reliable timekeeping. Once the time is set, the watch will continuously display the current hour, minute, and second.

Image 3.1: The MVMT Rise Mini Watch worn on a wrist, demonstrating its fit and appearance.

3.1 Timekeeping Accuracy

The watch utilizes a precise Japanese quartz movement (Epson Y121F) for accurate timekeeping.

4. Maintenance and Care

4.1 Water Resistance

The MVMT Rise Mini Watch is water resistant up to 10 ATM (100 meters). This means it is suitable for everyday use, including splashes, rain, and recreational swimming. However, it is not recommended for

high-impact water sports, diving, or showering, as steam and hot water can compromise the seals over time.

4.2 Cleaning Your Watch

To maintain the appearance of your watch:

- Wipe the case and crystal with a soft, dry, lint-free cloth.
- For the metal bracelet, a soft brush and mild soapy water can be used, followed by thorough rinsing and drying. Ensure the crown is fully pushed in before any contact with water.
- Avoid using harsh chemicals, solvents, or abrasive cleaners.

4.3 Battery Information

The watch requires 1 Lithium Ion battery (included). Battery life varies depending on usage. When the watch stops running, it indicates the battery needs replacement. Battery replacement should be performed by a qualified watch technician to ensure proper sealing and function.

5. Troubleshooting

- **Watch Not Running:** Ensure the crown is fully pushed into the watch case. If the watch still does not run, the battery may need to be replaced.
- **Inaccurate Time:** If the time is consistently inaccurate, the battery may be low, or the watch may require servicing.

For issues not resolved by these steps, please contact MVMT customer support or a certified watch repair center.

6. Specifications

Item Model Number	Rise Mini
Brand	MVMT
Movement	Classic 3 Hand Epson Y121F Quartz
Water Resistance	10 ATM / 100 Meters
Case Size	30mm
Glass Case Material	Hardened Mineral Crystal
Clasp Type	Push Button Deployment Clasp
