

Segway F2 Pro

Segway Ninebot F2 Pro Electric KickScooter User Manual

Model: F2 Pro

1. SAFETY INFORMATION

Always wear a helmet when riding.

Operating an electric kick scooter carries inherent risks, including but not limited to loss of control, collisions, and falls. To minimize these risks, it is crucial to read and follow all instructions and warnings in this manual. Ensure you understand how to operate the kick scooter safely before your first ride.

- Always wear appropriate safety gear, including a helmet, knee pads, and elbow pads.
- Do not ride in wet conditions, on slippery surfaces, or in poor visibility.
- Adhere to local laws and regulations regarding electric kick scooter use.
- Maintain a safe speed and distance from other vehicles and pedestrians.
- Avoid sudden maneuvers, sharp turns, and excessive speeds.
- Do not allow children under the recommended age or individuals exceeding the weight limit to operate the kick scooter.
- Regularly inspect the kick scooter for any damage or loose parts before each ride.

2. PRODUCT OVERVIEW

The Segway Ninebot F2 Pro Electric KickScooter is designed for urban commuting, offering a balance of performance, safety, and convenience. It features a robust design with advanced functionalities.

Image: The Segway Ninebot F2 Pro Electric KickScooter, showcasing its design for urban commuting.

Key Features:

- **Max Speed:** 32 km/h (20 mph)
- **Max Range:** Up to 55 km (34 miles)
- **Motor Output:** 800W maximum power
- **Tires:** 10-inch self-sealing tubeless tires
- **Suspension:** Front spring suspension for a smoother ride
- **Braking System:** Dual braking system (front disc brake + rear E-ABS)
- **Safety Features:** Integrated turn signals, Traction Control System (TCS), high-decibel electric horn, built-in LED headlight.
- **Connectivity:** Bluetooth connection, Apple Find My compatibility.
- **Portability:** Portable folding design.

3. SETUP

3.1 Unfolding the KickScooter

1. Place the kick scooter on a flat surface.
2. Lift the stem until it locks into the upright position. Ensure the locking mechanism is securely engaged.
3. Unfold the kickstand to support the scooter.

3.2 Initial Charging

Before first use, fully charge the kick scooter's battery. Connect the charger to the charging port and then to a power outlet. The charging indicator on the charger will change color (e.g., red to green) when fully charged.

- Charging time is approximately 8 hours for a full charge.
- Only use the official charger provided with the kick scooter.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

- **Power On:** Press the power button located on the display panel.
- **Power Off:** Press and hold the power button for a few seconds.

4.2 Riding the KickScooter

1. Place one foot firmly on the deck.
2. Push off with your other foot to gain initial momentum.
3. Once moving, gently press the throttle lever to engage the motor.
4. Place your second foot on the deck.
5. To slow down, release the throttle. To brake, use the brake lever on the handlebar.

4.3 Using Turn Signals and Horn

- **Turn Signals:** Use the switch on the handlebar to activate the integrated turn signals for indicating turns.
- **Horn:** Press the horn button on the handlebar to alert others.

Image: Close-up of the handlebar, showing the activated turn signal for improved visibility.

4.4 Folding for Transport

To fold the kickscooter for storage or transport:

1. Ensure the kickscooter is powered off.
2. Locate the folding mechanism at the base of the stem.
3. Follow the specific instructions in the quick start guide to release the latch and fold the stem down until it clicks into place.

Image: A person carrying the folded Segway Ninebot F2 Pro KickScooter, demonstrating its portability.

5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your Segway Ninebot F2 Pro KickScooter.

5.1 General Cleaning

Wipe the kick scooter with a soft, damp cloth. Do not use alcohol, gasoline, kerosene, or other corrosive chemical solvents to clean the scooter. Do not wash the scooter with a high-pressure water jet.

5.2 Tire Care

The F2 Pro features 10-inch self-sealing tubeless tires, which reduce the risk of punctures. However, it is important to regularly check tire pressure and inflate to the recommended PSI for optimal performance and safety.

Image: Diagram showing the self-sealing layer within the tire, designed to prevent punctures.

5.3 Battery Maintenance

- Avoid fully discharging the battery. Charge it regularly, even if not in use for extended periods.
- Store the kickscooter in a cool, dry place, away from direct sunlight and extreme temperatures.
- Do not attempt to disassemble or modify the battery pack.

5.4 Brake System Check

Periodically check the functionality of both the front disc brake and the rear E-ABS brake. Ensure the brake levers operate smoothly and the braking power is effective. If you notice any issues, consult a qualified technician.

Image: Illustration detailing the dual braking system, which includes a front disc brake and a rear E-ABS for effective stopping power.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your F2 Pro KickScooter.

6.1 KickScooter Not Powering On

- **Check Battery Level:** Ensure the battery is sufficiently charged. Connect the charger and attempt to power on after a short charge.
- **Power Button:** Confirm the power button is being pressed correctly and held for the required duration.

6.2 App Connection Issues

- **Bluetooth:** Ensure Bluetooth is enabled on your smartphone and the kickscooter is within range.
- **App Restart:** Close and reopen the Segway-Ninebot app.
- **Firmware Update:** If possible, check for and install any pending firmware updates via the app on a successful connection.

6.3 Reduced Performance or Range

- **Tire Pressure:** Incorrect tire pressure can significantly impact range and performance. Check and adjust to recommended levels.
- **Riding Conditions:** Steep inclines, heavy loads, and aggressive riding (e.g., frequent acceleration/braking) will reduce range.
- **Battery Health:** Over time, battery capacity may decrease. Ensure proper battery maintenance.

7. SPECIFICATIONS

Feature	Specification
Model Name	F2 Pro
Item Model Number	051203U
Brand	Segway
Max Speed	32 km/h (20 mph)
Max Range	Up to 55 km (34 miles)
Motor Output	900W (Peak)
Hill Grade	Up to 22%
Tire Size	10 Inches (Self-Sealing Tubeless)
Brake Type	Front Disc Brake, Rear E-ABS
Suspension	Front Spring Suspension
Battery Type	Lithium Ion (1 required, included)
Charging Time	Approx. 8 hours
Product Dimensions (Unfolded)	56.9 x 125.22 x 115.82 cm
Item Weight	18.5 kg (Approx. 39 lbs)
Maximum Weight Capacity	265 Pounds
Age Range	Adult
Material	Aluminum (Frame: Alloy Steel)
Water Resistance	IPX5 Resistant
Included Components	Charger

Product Security Update Support

We do our best to provide continuous security updates for our IoT products. The security updates generally include the latest security patches, security vulnerability fixes, and other security improvements. We will maintain the security updates for at least 3 years from the launch day of certain device models.

The support period will not be shortened after publication. If the defined support period is extended, we will update the lists below as soon as possible to help you check whether your device can still receive security updates.

Product List

Product Name	Type designation	Launch Date	End date of security update support
Ninebot eKickScooter F2 Pro II	051203EE	2025-03-01	2028-03-01

Software List

Software Name	Launch Date	End date of security update support
Segway-Ninebot App	2024-04-01	2034-04-01

Note:

The security updates policies and devices are subject to change and will be reviewed on a regular basis.
