

EIGIIS KE3

EIGIIS KE3 Military Smart Watch User Manual

Your guide to setting up, operating, and maintaining your EIGIIS KE3 Smart Watch.

1. GETTING STARTED (SETUP)

1.1 What's in the Box

- 1x EIGIIS Military Smart Watch for Men
- 1x Charging Cable
- 1x User Manual

1.2 Charging the Smart Watch

Before first use, fully charge your EIGIIS KE3 Smart Watch. Connect the magnetic charging cable to the charging contacts on the back of the watch and plug the USB end into a standard USB power adapter (not included). The watch will display a charging indicator. A full charge typically takes approximately 2 hours.

1.3 Installing the App (FitCloudPro)

To unlock the full potential of your smart watch, download the 'FitCloudPro' app on your smartphone. Search for 'FitCloudPro' in the Apple App Store (for iOS devices) or Google Play Store (for Android devices) and install it.

1.4 Pairing with Your Phone

Follow these steps to pair your EIGIIS KE3 Smart Watch with your smartphone via the FitCloudPro app:

1. Ensure your watch is charged and Bluetooth is enabled on your smartphone.
2. Open the 'FitCloudPro' app on your phone.
3. Navigate to the 'Device' section and select 'Add Device' or 'Search Now'.
4. The app will search for nearby devices. Select 'KE3' from the list.
5. Confirm the pairing request on both your phone and the watch.
6. Once paired, allow necessary permissions for notifications and call audio.

For a visual guide on connecting your watch, please refer to the video below:

2. OPERATING YOUR SMART WATCH

2.1 Basic Navigation

The EIGIIS KE3 Smart Watch features a 1.45-inch HD full touch screen and a rotating crown for intuitive navigation. Swipe across the screen to access different menus and functions. Use the rotating crown to scroll through options or adjust settings.

2.7 Custom Dials

Personalize your watch face with over 100 dials available in the FitCloudPro app. You can also upload your favorite pictures to create unique custom dials.

2.8 Other Functions

The EIGIIS KE3 Smart Watch offers a variety of additional features for daily convenience:

- **Voice Assistant:** Control your watch and phone with voice commands.
- **Weather:** Get real-time weather updates.
- **Stopwatch & Timer:** For precise timing during activities.
- **Alarm Clock:** Set alarms for reminders.
- **Calendar:** View dates and schedule.
- **Calculator:** Perform basic calculations on your wrist.
- **Find Phone:** Locate your misplaced smartphone.
- **Remote Camera:** Control your phone's camera remotely.

- **Music Control:** Manage music playback on your phone.

3. MAINTENANCE AND CARE

3.1 Water Resistance

The EIGIIS KE3 Smart Watch is IP67 waterproof, meaning it is resistant to splashes, rain, and brief immersion in water. It is suitable for washing hands but **not recommended for swimming, diving, or hot showers/saunas**, as steam and hot water can damage the seals.

3.2 Durability

Constructed from zinc alloy and tempered glass, the EIGIIS KE3 is designed for durability. It offers resistance to heat, cold, humidity, and salt spray, making it suitable for outdoor enthusiasts.

3.3 Battery Life

The 300mAh battery provides 3-5 days of typical usage and up to 25 days of standby time on a single charge. Charging takes approximately 2 hours.

3.4 Cleaning

Wipe the watch regularly with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Avoid using harsh chemicals or abrasive materials.

4. TROUBLESHOOTING

4.1 Watch Not Turning On

- Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- Press and hold the power button (usually the top right button) for 5-10 seconds.

4.2 Pairing Issues

- Make sure Bluetooth is enabled on your phone and the watch.
- Ensure the watch is within range of your phone (typically 10 meters).
- Restart both your phone and the watch.
- Clear the Bluetooth cache on your phone (if applicable) and try pairing again.
- If previously paired, try unpairing and re-pairing the device in the FitCloudPro app and your phone's Bluetooth settings.

4.3 Call Function Not Working

- Verify that the watch is successfully paired for both data and call audio. Check the 'Call audio' setting in the FitCloudPro app.
- Ensure your phone's Bluetooth is connected to the watch for calls.
- Check your phone's volume settings.

4.4 Notifications Not Appearing

- Confirm that notification permissions are granted to the FitCloudPro app in your phone's settings.
- Ensure the app is running in the background and not being closed by battery optimization settings.
- Check the notification settings within the FitCloudPro app to ensure specific app notifications are enabled.

4.5 Inaccurate Health Data

- Ensure the watch is worn snugly on your wrist, not too tight or too loose.
- Clean the sensors on the back of the watch regularly.
- Remember that the watch is a consumer electronic device and not a professional medical instrument. Readings are for reference only.

5. SPECIFICATIONS
