Changan Eado, Eado Plus

Generic Heated Exterior Rearview Mirror Glass Instruction Manual

Model: Changan Eado 2018-2022, Eado Plus 2020-2022
Brand: Generic

Introduction

This instruction manual provides comprehensive guidance for the installation, operation, and maintenance of your new heated exterior rearview mirror glass. This product is designed as a direct replacement for Changan Eado models from 2018 to 2022 and Changan Eado Plus models from 2020 to 2022. Please read these instructions carefully before proceeding with installation to ensure proper function and safety.

Safety Precautions

- Always wear appropriate safety gear, such as gloves and eye protection, during installation.
- Ensure the vehicle's ignition is off and the battery is disconnected before beginning any electrical work.
- Handle the mirror glass with care to prevent breakage.
- If you are unsure about any step, consult a qualified automotive technician.

Package Contents

- 1x Left Side Heated Mirror Glass
- 1x Right Side Heated Mirror Glass

Setup and Installation

Follow these steps to replace your vehicle's exterior rearview mirror glass:

1. **Preparation:** Park your vehicle on a level surface and engage the parking brake. Turn off the ignition and remove the key.
2. **Remove Old Mirror Glass:** Carefully pry the old mirror glass from its housing. You may need a plastic trim removal tool to avoid damaging the mirror assembly. Disconnect any electrical connectors attached to the old mirror glass (e.g., for heating elements).

Image: Rear view of the mirror glass, highlighting the mounting clips and electrical terminals for the heating function.

3. **Connect New Mirror Glass:** Connect the electrical wires from your vehicle's mirror assembly to the terminals on the back of the new heated mirror glass. Ensure a secure connection.
4. **Install New Mirror Glass:** Align the new mirror glass with the mirror housing. Apply even pressure to the center of the mirror until it clicks securely into place. Ensure all clips are engaged.

Image: The heated mirror glass correctly installed on a vehicle's side mirror assembly.

5. **Test Functionality:** Reconnect the vehicle battery. Turn on the ignition and test the mirror's adjustment and heating functions. The heating element should activate with the rear defroster or a dedicated mirror heat button, depending on your vehicle's features.

Operating Instructions

This mirror glass features an integrated heating element. The heating function is typically activated automatically when the vehicle's rear defroster is turned on, or via a dedicated button on your vehicle's dashboard. Refer to your vehicle's owner's manual for specific instructions on activating the heated mirror function.
The mirror glass provides a clear, undistorted reflection for optimal rear visibility. Adjust the mirror angle using your vehicle's standard mirror controls to achieve the best viewing position.

Maintenance

- **Cleaning:** Clean the mirror surface with a soft cloth and standard glass cleaner. Avoid abrasive cleaners or harsh chemicals that could damage the mirror coating.

- **Inspection:** Periodically inspect the mirror glass for cracks or damage. Replace immediately if damaged to maintain safe driving visibility.
- **Electrical Connections:** Ensure electrical connections remain secure and free from corrosion.

Troubleshooting

Problem	Possible Cause	Solution
Mirror heating not working	Loose electrical connection; Blown fuse; Faulty heating element (unlikely for new part); Vehicle's defroster system issue.	Check electrical connections; Inspect vehicle's fuse box (refer to vehicle manual); Consult a technician if the issue persists.
Mirror glass is loose	Improper installation; Clips not fully engaged.	Gently press the mirror glass firmly into the housing until it clicks into place. Ensure all mounting clips are secure.
Distorted reflection	Improper installation; Manufacturing defect (unlikely).	Re-seat the mirror glass; If distortion persists, contact support.

Specifications

Feature	Detail
Product Type	Exterior Rearview Mirror Glass
Compatibility	Changan Eado (2018-2022), Changan Eado Plus (2020-2022)
Material	Glass
Features	Heated (Defrost/Demist Function)
