

SZHLUX SZ-DC31YB

SZHLUX Double Hammock with Steel Stand (Model SZ-DC31YB) - Instruction Manual

Your guide to comfortable relaxation.

1. INTRODUCTION

Thank you for choosing the SZHLUX Double Hammock with Steel Stand. This manual provides essential information for the safe and proper assembly, operation, and maintenance of your new hammock. Please read all instructions carefully before use.

Important Safety Information

- **WARNING:** Maximum weight capacity 450 lbs. Do not exceed this limit.
- Securely anchor the hammock to the steel stand.
- Do not leave children unattended while on the hammock.
- Not to be used as a swing.
- Always enter your hammock in the middle.
- Do not sit past the base legs.
- Regularly check hooks and wingnuts to ensure they are tight.
- Inspect the hammock and frame regularly for deterioration or damage. Do not use if worn or damaged.

2. PACKAGE CONTENTS

Before assembly, ensure all parts are present:

- Hammock (1)
- Hammock Stand (comprised of multiple steel tubing pieces)
- Two Anti-Roll Balance Beams
- Hooks, Washers, and Wingnuts (for assembly)
- Premium Carry Bag (1)

3. SETUP INSTRUCTIONS

The SZHLUX Double Hammock stand is designed for tool-free assembly. Follow these steps for quick and easy setup:

1. Place all steel tubing pieces for the stand on a flat, clear surface.
2. Connect the crossbar sections with the base sections. Secure them by screwing the provided bolts tightly into place.
3. Attach the hammock frame bars to the assembled bases. Ensure all bolts are screwed in tightly.
4. Insert the hook and washer into the appropriate hole on the stand's uprights to suit your desired hammock height and tension. Screw the wingnut to fix the hook securely.
5. Unfold the hammock. If the ropes are tangled, carefully untangle them. For optimal setup, thread one rope through each end slot of the balance beam, and two ropes through each middle slot.
6. Hang the hammock onto the hooks on the stand. The hammock should have a slight curve when first fitted. Adjust the hook height as the cotton stretches over time to maintain desired tension.

SET UP ANYWHERE

Disassembling steel stand comes with a convenient carrying bag

Video 3.2: A detailed seller video showing the assembly of the hammock stand, including tips for attaching the hammock ropes correctly.

4. OPERATING INSTRUCTIONS

Your SZHLUX Double Hammock is designed for comfortable relaxation, accommodating up to two adults with a 450 lb capacity. Its Brazilian-style cotton bed offers a comfortable refuge for an afternoon snuggle.

Usage Tips

- The hammock can be used indoors or outdoors, making it versatile for bedrooms, gardens, patios, courtyards, balconies, and camping.
- The included carry bag allows for easy portability, so you can enjoy your hammock anywhere without needing trees for support.
- When entering or exiting the hammock, do so slowly and from the center to maintain stability.

Product Features

- **Comfortable Cotton:** The hammock is precisely woven from 100% cotton, offering a strong sense of wrapping and proper elasticity for gravity-free relaxation.
- **Durable Steel Stand:** The space-saving 9-foot stand is constructed of heavy-duty steel with zinc-coated legs to prevent rust and scratches.
- **Reinforced Support:** Features reinforced metal support rings and superior polyester end strings for long-lasting durability.

Video 4.2: A seller video highlighting the hammock's suitability for summer relaxation and its overall design.

5. MAINTENANCE

Proper maintenance will extend the life of your SZHLUX Double Hammock.

Cleaning

- **Hammock Fabric:** The 100% cotton hammock can be spot cleaned with mild soap and water. For deeper cleaning, hand wash with cold water and air dry. Avoid using harsh chemicals or bleach.
- **Steel Stand:** Wipe the steel stand with a damp cloth to remove dirt and debris. The zinc coating helps prevent rust, but regular cleaning is recommended, especially after exposure to rain or humidity.

Storage

- When not in use for extended periods, especially during inclement weather, disassemble the hammock and store it in its premium carry bag in a dry, protected area.
- Ensure the hammock fabric is completely dry before storing to prevent mildew.

Inspection

- Regularly inspect the hammock fabric for any tears, fraying, or weak spots.
- Check the steel frame for any signs of rust, bends, or structural damage.
- Ensure all connection points, hooks, and wingnuts are secure and free from wear.
- Do not use the hammock if any part is worn or damaged. Replace damaged components immediately.

6. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Hammock Ropes Slipping from Balance Beam Slots

If the hammock ropes tend to slip out of the slots on the anti-roll balance beams, it may be due to incorrect threading or insufficient tension.

- **Solution:** Ensure that the ropes are threaded correctly. Typically, the end slots of the balance beam should have one rope each, while the middle slots should have two ropes each. This configuration helps distribute tension evenly and prevents slippage. Refer to the assembly video (Video 3.2) for a visual guide on proper rope threading.
- **Adjustment:** If the hammock feels too loose after initial use, adjust the height of the hooks on the stand to a lower hole. This will increase the tension on the hammock fabric and ropes, making it more secure.

7. SPECIFICATIONS

Feature	Detail
Model Number	SZ-DC31YB
Brand	SZHLUX
Material	100% Cotton (Hammock), Heavy Duty Steel (Stand)
Color	Beige
Product Dimensions (L x W)	106.3"L x 42.5"W
