# onerbl 12V AC/DC Adapter User Manual

Model: LP-ALVRD-BLK

## 1. INTRODUCTION

This user manual provides essential information for the safe and effective use of your onerbl 12V AC/DC Adapter. This adapter is designed as a high-quality replacement power supply for devices requiring 12VDC 2A (2000mA) power, such as the Lifepro AllevaRed LP-ALVRD-BLK Red Light Therapy Cloth Wrap Belt. Please read this manual thoroughly before use and retain it for future reference.

## 2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Ensure the adapter's voltage and current output (12VDC, 2A) match the requirements of your device. Using an incompatible adapter may damage your device.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not disassemble or attempt to repair the adapter. Refer all servicing to qualified personnel.
- Unplug the adapter from the power outlet when not in use or during electrical storms.
- Keep out of reach of children.
- The adapter features built-in **Over Voltage Protection**, **Over Heat Protection**, and **Short-Circuit Protection** to safeguard your devices.

# SMART CHIP

Guard Your Electricity Safety

short-circuit  
protection

over-voltage  
protection

over-current  
protection

## Multiple Protection

Image: The adapter incorporates a smart chip for multiple protections, including short-circuit, over-voltage, and over-current protection, ensuring electrical safety.

### 3. PRODUCT OVERVIEW

---

The onerbl 12V AC/DC Adapter is a compact and durable power supply unit. It consists of the main adapter body with integrated AC prongs and an attached DC output cable with a barrel connector.

## 4. SETUP

---

Setting up your onerbl 12V AC/DC Adapter is straightforward:

1. **Verify Compatibility:** Before connecting, ensure your device requires a 12V DC input and a current of 2A (2000mA) or less. Check your device's specifications or original power adapter.
2. **Connect to Device:** Insert the barrel connector of the adapter's DC output cable firmly into the power input port of your device (e.g., Lifepro AllevaRed LP-ALVRD-BLK).
3. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard AC 100-240V 50/60Hz wall power outlet.
4. **Power On:** Once connected, your device should receive power. Refer to your device's manual for specific power-on procedures.

Image: The adapter connected to a device, demonstrating a typical setup scenario on a desk, providing power to the connected unit.

## 5. OPERATING INSTRUCTIONS

---

The onerbl 12V AC/DC Adapter operates automatically once connected to a power source and a compatible device. It provides a stable power supply for continuous operation.

- The adapter is designed for continuous use within its specified operating parameters.
- It automatically adjusts to worldwide AC input voltages (100-240V, 50/60Hz).
- No user intervention is required for power conversion or regulation.

## 6. MAINTENANCE

---

Proper maintenance ensures the longevity and optimal performance of your adapter:

- **Cleaning:** Disconnect the adapter from the power outlet and your device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.

- **Storage:** When not in use, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly coiling the cable to prevent damage.
- **Inspection:** Periodically inspect the adapter and cable for any signs of damage, such as frayed wires, bent prongs, or cracks in the casing. If damage is found, discontinue use immediately.

## 7. TROUBLESHOOTING

If you encounter issues with your adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not powering on.	Adapter not fully plugged in.	Ensure adapter is securely plugged into both the wall outlet and the device.  Test the outlet with another device.  Try the adapter with another compatible device.  Verify device power requirements.
	Power outlet is not active.	
	Device power input port is faulty.	
	Adapter is faulty.	
	Device requires more power than 2A.	
Adapter feels hot.	Normal operation (slight warmth).	A slight warmth is normal.  Disconnect immediately if excessively hot. Ensure device is compatible.  Ensure adapter is in a well-ventilated area.
	Overload or short circuit.	
	Poor ventilation.	
Intermittent power.	Loose connection.	Check all connections.  Inspect cable and connector for damage. Replace if damaged.
	Damaged cable or connector.	

If the problem persists after trying these solutions, please contact customer support.

## 8. SPECIFICATIONS

Feature	Detail
Model	LP-ALVRD-BLK (Replacement Adapter)
Input Voltage	AC 100-240V, 50/60Hz
Output Voltage	DC 12V
Output Current	2A (2000mA)
Connector Type	Barrel Connector (standard DC plug for Lifepro AllevaRed)
Cable Length	Approx. 76 inches (6.3 feet)
Dimensions (Adapter Body)	Approx. 2.6 inches (L) x 1.6 inches (W) x 1.2 inches (H)
Weight	8 ounces
Protections	Over Voltage Protection, Over Heat Protection, Short Circuit Protection
Manufacturer	Shenzhen Waweis Technology Co., Ltd
