5. Maintenance and Care

To ensure the longevity and optimal performance of your WolfLawS TA2000 headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headset. For earcups, gently wipe with a damp cloth and mild soap if

necessary, then dry thoroughly. Avoid harsh chemicals or abrasive materials.

- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. The earcups can rotate 90° to lay flat, making them easier to store and transport.
- **Handling:** Avoid dropping the headset or exposing it to excessive force. Do not attempt to disassemble the headset, as this may void the warranty.
