MAINTENANCE

Cleaning

To clean the remote control, use a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as these may damage the surface or internal components.

Battery Replacement

Replace batteries when the remote control's response becomes sluggish or stops working. Always replace both batteries at the same time with new alkaline batteries of the same type (AAA). Do not mix old and new batteries or different types of batteries.

Storage

If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage.

TROUBLESHOOTING

- **Remote not responding:**

  - Check if the batteries are inserted correctly with the correct polarity.
  - Replace old batteries with new ones.
  - Ensure there are no obstructions between the remote control and the TV's infrared sensor.
  - Confirm the remote control is pointed directly at the TV.

- **Some buttons not working:**

  - This remote is designed to cover all functions of the original remote. If a specific button does not work, ensure your TV model is listed in the compatible models section.
  - Clean the remote control surface, especially around the non-working buttons, to remove any debris.

- **TV responds intermittently:**

  - Weak batteries may cause intermittent response. Replace them.
  - Ensure no strong light sources (like direct sunlight or bright fluorescent lights) are interfering with the TV's IR receiver.
