EUGAD 0003MG

EUGAD 0003MG Cat Cabinet Instruction Manual

Model: 0003MG

1. INTRODUCTION

Thank you for choosing the EUGAD 0003MG Cat Cabinet. This versatile piece of furniture is designed to provide a private space for your cat's litter box or serve as a cozy retreat for small dogs, while also functioning as a stylish storage cabinet or bedside table. This manual provides detailed instructions for assembly, safe operation, and proper maintenance to ensure the longevity and optimal use of your product.

2. SAFETY INSTRUCTIONS

Please read and follow these safety instructions carefully before assembly and use:

- Keep all small parts and packaging materials away from children and pets during assembly to prevent choking hazards.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not exceed the maximum load capacity of the top panel (60 kg) to prevent damage or injury.
- Place the cabinet on a flat, stable surface to prevent tipping.
- Do not allow children to climb on or play inside the cabinet.
- This product is intended for indoor use only.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Cabinet Panels (various sizes, typically labeled A, B, C, etc.)
- Hardware Pack (screws, dowels, hinges, magnetic clasps, handles)
- Assembly Tools (usually an Allen key, screwdriver may be required)
- Instruction Manual

4. SETUP AND ASSEMBLY

Assembly typically requires two people and a Phillips head screwdriver. All panels and hardware are usually numbered for easy identification.

1. **Unpack and Identify Parts:** Lay out all panels and hardware on a clean, soft surface to prevent scratches.

Match each part to the corresponding label in the assembly diagram.

2. **Assemble the Base and Side Panels:** Attach the bottom panel to the side panels using the provided screws and dowels. Ensure the side panel with the round entrance is correctly oriented.
3. **Install the Internal Partition:** Secure the internal partition panel, which creates separate compartments, into the designated slots or with screws.
4. **Attach the Top Panel:** Place the top panel onto the assembled structure and secure it with screws.
5. **Install Hinges and Doors:** Attach the hinges to the cabinet doors and then to the main cabinet frame. Adjust hinges as needed for proper door alignment.
6. **Attach Magnetic Clasps and Handles:** Install the magnetic clasps on the inside of the doors and the cabinet frame to ensure secure closure. Attach the handles to the exterior of the doors.

5. OPERATING INSTRUCTIONS

The EUGAD 0003MG Cat Cabinet offers multiple functionalities:

- **Litter Box Enclosure:** Place a standard-sized litter box in the larger compartment. The round side entrance allows your cat easy access while keeping the litter box discreetly hidden and reducing odor spread. The internal partition helps contain litter and provides a separate space.
- **Pet House:** For small dogs or cats, the cabinet can serve as a private and cozy sleeping or resting area. Add a pet bed or cushion for comfort.
- **Storage Cabinet:** Utilize the top surface and the smaller internal compartment for storing pet supplies, books, or decorative items. The magnetic doors ensure contents remain secure.

6. MAINTENANCE

Regular maintenance will help keep your EUGAD Cat Cabinet in excellent condition:

- **Cleaning:** The cabinet is made from E1 chipboard with a water-repellent veneer. Wipe surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners.
- **Odor Control:** Regularly clean the litter box and the interior of the cabinet to prevent odor buildup. Ensure good air circulation in the room.
- **Hardware Check:** Periodically inspect all screws, hinges, and magnetic clasps to ensure they are tight and functioning correctly. Re-tighten if necessary.
- **Storage:** Store the cabinet in a cool, dry environment if not in use or during relocation.

7. TROUBLESHOOTING

- **Wobbly Cabinet:** Ensure all screws are fully tightened. Check that the cabinet is placed on a level surface.
- **Doors Not Closing Properly:** Check the alignment of the hinges and magnetic clasps. Adjust hinges if necessary. Ensure no obstructions are preventing the doors from closing.
- **Pet Not Using Cabinet:** Allow your pet time to adjust to the new furniture. Place familiar items (e.g., a favorite blanket or toy) inside. Ensure the litter box is clean and accessible.
