AMADA HOMEFURNISHING AMFS31W

AMADA HOMEFURNISHING Floating Shelves (15-inch, White) Instruction Manual

Model: AMFS31W

1. INTRODUCTION

Thank you for choosing AMADA HOMEFURNISHING Floating Shelves. This manual provides detailed instructions for the safe and proper installation, use, and maintenance of your new wall-mounted shelves. Please read this manual thoroughly before installation and retain it for future reference.

These 15-inch white floating shelves are designed to provide versatile storage and display solutions for various rooms in your home, including bathrooms, bedrooms, living rooms, and kitchens. Each shelf features a matte white finish and is constructed from MDF with sturdy, invisible metal brackets.

2. SAFETY INFORMATION

Important Safety Precautions:

- Do not exceed the maximum weight limit of **20 pounds (9.07 kg) per shelf**. Overloading can cause the shelves to detach from the wall, resulting in injury or damage to property.
- Ensure proper installation to avoid tipping or falling. Incorrect installation can compromise the stability of the shelves.
- Always use appropriate tools and follow all installation steps carefully. If you are unsure about any part of the installation, consult a qualified professional.
- Keep small parts and hardware out of reach of children to prevent choking hazards.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning installation. If any parts are missing or damaged, contact AMADA HOMEFURNISHING customer support.

- 2 x Floating Shelf Boards (15" L x 6.7" W x 1.2" H)

- 2 x Invisible Metal Brackets
- Mounting Hardware (screws, wall anchors)
- Instruction Manual

4. SETUP AND INSTALLATION

The AMADA HOMEFURNISHING Floating Shelves are designed for easy installation on various wall types. Ensure you have the necessary tools before starting.

Tools Required (Not Included):

- Pencil
- Measuring Tape
- Level
- Drill with appropriate drill bits
- Hammer (for wall anchors)
- Screwdriver (Phillips head recommended)

- Stud Finder (recommended for wood stud installation)

Compatible Wall Types:

These shelves are compatible with wood studs, drywall, and concrete walls. Always use the appropriate anchors and screws for your specific wall material.

Figure 4.1: Wall compatibility and shelf dimensions. This image illustrates that the shelves can be mounted on wood studs, concrete/brick, or drywall, and highlights the shelf dimensions of 15" L x 6.7" W x 1.2" H.

Installation Steps:

Follow these three steps for a secure installation:

1. **Marking and Drilling:** Position the metal bracket on the desired wall location. Use a level to ensure it is straight. Mark the screw hole positions with a pencil. Drill pilot holes at the marked spots. For drywall, insert wall anchors before screwing. For wood studs, drill directly. For concrete, use appropriate concrete anchors and drill bits.
2. **Attach Bracket:** Securely fasten the metal bracket to the wall using the provided screws. Ensure the bracket is firmly attached and does not wobble. The 'UP' arrow on the bracket should point upwards.
3. **Mount Shelf:** Slide the floating shelf board onto the rods of the mounted bracket. The shelf should fit snugly over the rods, concealing the bracket for a seamless look.

Figure 4.2: Easy 3-Step Installation. This image visually guides the user through the process of marking the wall, securing the bracket, and finally mounting the shelf board.

Sturdy and Stylish

Figure 4.3: Sturdy and Invisible Metal Brackets. This close-up shows how the black metal bracket supports the white shelf, with the security screws ensuring stability and the bracket remaining hidden.

5. OPERATING AND USAGE

Once installed, your AMADA HOMEFURNISHING Floating Shelves are ready for use. These shelves are designed to hold various items, enhancing both storage and decor.

Recommended Use:

- Display decorative items such as photos, small plants, trophies, and figurines.
- Store lightweight books, cosmetics, toiletries, and kitchen spices.
- Ideal for use in living rooms, bedrooms, bathrooms, kitchens, hallways, and offices.

Remember to distribute weight evenly and not exceed the 20-pound weight limit per shelf.

Figure 5.1: Shelves in a bedroom setting. This image shows three white floating shelves used to display personal items and electronics above a bed, demonstrating their decorative and functional use.

Figure 5.2: Bathroom storage application. This image illustrates the shelves providing practical storage for bathroom essentials, highlighting their moisture-resistant feature.

Figure 5.3: Kitchen organization. This image demonstrates the shelves' utility in a kitchen environment for storing and displaying frequently used items, helping to keep countertops clear.

6. MAINTENANCE

To maintain the appearance and longevity of your floating shelves, follow these simple care instructions:

- **Cleaning:** Wipe the shelves with a dry, soft cloth to remove dust and light dirt. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- **Moisture:** While the shelves are moisture-resistant, prolonged exposure to excessive moisture should be avoided. Promptly wipe up any spills.
- **Inspection:** Periodically check the mounting hardware to ensure screws remain tight and the shelves are securely attached to the wall. Tighten any loose screws as needed.

7. TROUBLESHOOTING

If you encounter any issues with your floating shelves, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Shelf is wobbly or not level	Improper installation; loose screws; incorrect wall anchors; uneven drilling.	Ensure all screws are tightened. Verify that the correct wall anchors were used for your wall type. Re-check with a level and adjust if necessary. If the issue persists, re-install the bracket.
Shelf detaches from wall	Exceeded weight limit; improper installation; damaged wall or hardware.	Immediately remove all items from the shelf. Inspect the wall and hardware for damage. Re-install using new, appropriate anchors and screws, ensuring the weight limit is not exceeded. If the wall is damaged, repair it before re-installation.
Shelf does not slide onto bracket rods easily	Bracket rods are misaligned; debris inside shelf holes.	Ensure the bracket is perfectly level and the rods are parallel. Check the shelf's internal holes for any obstructions and clear them if found.

8. SPECIFICATIONS

Brand	AMADA HOMEFURNISHING
Model Name	Floating Shelves
Item Model Number	AMFS31W
Color	White
Size	15 inches (15" L x 6.7" W x 1.2" H)
Number of Shelves	2
