Fossil BQ2799

Fossil BQ2799 Men's Watch Instruction Manual

Model: BQ2799

INTRODUCTION

Thank you for choosing the Fossil BQ2799 Men's Watch. This manual provides detailed instructions for setting up, operating, and maintaining your new timepiece. Please read this manual carefully to ensure proper use and to enjoy the full functionality of your watch.

SETUP AND INITIAL USE

Setting the Time

1. **Pull out the crown:** Gently pull the crown (the knob on the side of the watch) out to position 2.
2. **Adjust the time:** Turn the crown clockwise or counter-clockwise to set the hour and minute hands to the correct time.
3. **Push in the crown:** Once the time is set, push the crown back into position 1 to start the watch.

Setting the Date

Your Fossil BQ2799 watch features a date display. To set the date:

1. **Pull out the crown:** Gently pull the crown out to position 1 (first click).
2. **Adjust the date:** Turn the crown clockwise or counter-clockwise to set the date. Avoid setting the date between 9 PM and 3 AM, as this can damage the movement.
3. **Push in the crown:** Push the crown back into its original position.

OPERATING THE CHRONOGRAPH FUNCTION

The Fossil BQ2799 is equipped with a chronograph, allowing you to measure elapsed time. The chronograph features three sub-dials and two pushers.

Image: Close-up of the Fossil BQ2799 watch dial, highlighting the chronograph sub-dials and main hands.

1. **Start:** Press the top pusher (A) to start the chronograph. The chronograph second hand will begin to move.
2. **Stop:** Press the top pusher (A) again to stop the chronograph. The elapsed time will be indicated by the chronograph hands.
3. **Reset:** Press the bottom pusher (B) to reset the chronograph hands to their zero positions.

Understanding the Sub-dials

- **24-Hour Indicator:** Displays the time in a 24-hour format, useful for distinguishing AM/PM.
- **Chronograph Minutes:** Measures elapsed minutes when the chronograph is active.
- **Chronograph Seconds:** Measures elapsed seconds when the chronograph is active.

CARE AND MAINTENANCE

Cleaning Your Watch

- Wipe the watch case and crystal with a soft, dry cloth.
- For the leather strap, avoid prolonged exposure to water, direct sunlight, and harsh chemicals to prevent

damage and discoloration.

- Do not use chemical cleaners, as they may damage the watch's finish.

Water Resistance

Your Fossil BQ2799 watch has a water resistance rating of 50 meters (5 ATM). This means it is suitable for short periods of recreational swimming, but not for diving or snorkeling. Avoid operating the crown or pushers when the watch is wet to prevent water ingress.

Battery Replacement

The watch is powered by a quartz movement and requires a battery. When the battery runs low, the watch may stop or the second hand may skip. Battery replacement should be performed by a qualified watch technician to ensure the watch's water resistance is maintained.

TROUBLESHOOTING

- **Watch not running:** Check if the crown is fully pushed in. If it is, the battery may need replacement.
- **Incorrect time/date:** Refer to the "Setting the Time" and "Setting the Date" sections to re-adjust.
- **Chronograph hands not resetting to zero:** This may require a chronograph reset procedure. Consult a professional watch repair service if the issue persists after attempting to reset.

SPECIFICATIONS

Feature	Detail
Model Number	BQ2799-AMZUK
Movement Type	Quartz
Display Type	Analog
Case Material	Stainless Steel
Case Diameter	50 Millimeters
Case Thickness	13 Millimeters
Band Material	Leather
Band Width	24 Millimeters
Band Color	Brown
