Gixxted H1

Gixxted Bluetooth Headset H1 User Manual

Your comprehensive guide to setting up, operating, and maintaining your Gixxted Bluetooth Headset.

1. INTRODUCTION

Welcome to the Gixxted Bluetooth Headset H1 user manual. This guide provides detailed instructions to help you get the most out of your new headset, from initial setup to advanced features and troubleshooting. Please read this manual carefully before using the product to ensure optimal performance and longevity.

2. PRODUCT OVERVIEW

The Gixxted Bluetooth Headset H1 is designed for comfort and clear communication, ideal for truckers, home office work, and general computer/cell phone use. It features advanced ENC noise-canceling technology and a long-lasting battery.

- **Comfortable Fit:** Breathable foam wrapped in ultra-soft leather for extended wear.
- **Simplified Control Panel:** Intuitive three-button design for ease of use.
- **Mute Function:** Integrated mute function accessible via the volume down button during calls.
- **Stable Connection:** Latest Bluetooth version with a wireless range of up to 33 feet (10 meters).
- **Advanced Noise Canceling:** ENC technology eliminates 95% of unwanted background noise.
- **Long Battery Life:** Up to 2100 hours standby, 30 hours talk time, and 40 hours music time.

3. SETUP

3.1 What's in the Box

Upon unboxing your Gixxted Bluetooth Headset H1, you should find the following items:

- Gixxted Bluetooth Headset
- User Manual
- USB-C Charging Cable

3.2 Charging the Headset

Before first use, fully charge your headset. The headset features a 300mAh battery providing significant usage time.

1. Locate the Type-C Charge Port on the headset (refer to Figure 4.1 for location).
2. Connect the provided USB-C charging cable to the headset and a compatible USB power source.
3. Charging typically takes 2-3 hours for a full charge.
4. **Important:** Do not charge the headset with a fast charger to prevent damage.

Figure 3.1: Headset Battery Life and Charging. This image illustrates the impressive battery life, including 2100 hours of standby time, 40 hours

of music time, and 30 hours of talk time, along with the 2-3 hour charging duration.

3.3 Bluetooth Pairing

The Gixxted Bluetooth Headset H1 utilizes the latest Bluetooth version for stable and quick connections.

1. Ensure the headset is charged and powered on.
2. Activate Bluetooth on your device (computer, cell phone, tablet).
3. Search for "H1" or "Gixxted H1" in your device's Bluetooth settings.
4. Select the headset to pair. You will hear an audio confirmation when successfully connected.
5. The headset can connect to two devices simultaneously, offering seamless switching between them.

Figure 3.2: Simultaneous Device Connection. This image demonstrates the headset's ability to connect stably and simultaneously to two devices, such as a laptop and a smartphone.

4. OPERATING INSTRUCTIONS

4.1 Headset Controls

The Gixxted H1 features a simplified control panel for easy operation:

- **MFB (Multi-Function Button):** The central circular button. Press to answer/reject calls or play/pause music.
- **Volume + / Previous Track:** The top button. Press to increase volume. Hold to go to the previous track.
- **Volume - / Next Track / Mute:** The bottom button. Press to decrease volume. Hold to go to the next track.
- **Mute Function:** During a phone call, press and hold the "Volume -" button for approximately 2 seconds until you hear "mute on". This function is only available during phone calls.

Figure 4.1: Headset Control Buttons. This diagram clearly labels the Multi-Function Button (MFB), Volume +/- buttons, and the Type-C charging port, along with their primary functions.

Figure 4.2: Mute Function in Use. This image demonstrates how to activate the mute function by pressing and holding the Volume - button during a phone call.

4.2 Wearing the Headset

The Gixxted H1 is designed for superior comfort during long periods of use.

- **Adjustable Headband:** The headband can be adjusted to fit various head sizes.
- **270° Rotatable Microphone:** The microphone arm can be rotated 270 degrees, allowing you to wear the headset on either your left or right ear. Adjust the microphone position for optimal voice pickup.
- **Anti-Slip Pad:** Features an anti-slip pad for secure and comfortable placement.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Gixted Bluetooth Headset H1.

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials. For the ear cushions, gently wipe with a damp cloth and allow to air dry completely before use.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.

- **Charging:** Always use the provided USB-C cable for charging. Avoid overcharging or completely draining the battery for extended periods.

6. TROUBLESHOOTING

If you encounter any issues with your Gixxted Bluetooth Headset H1, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Headset won't turn on.	Low battery.	Charge the headset fully using the provided USB-C cable.
Cannot pair with device.	Bluetooth not enabled on device; headset not in pairing mode; too far from device.	Ensure Bluetooth is on. Make sure headset is powered on and within 10 meters (33 feet) of your device. Restart both devices and try pairing again.
Poor audio quality / Background noise during calls.	Interference; microphone not positioned correctly; environmental factors.	Move closer to your device. Ensure the microphone is properly aligned near your mouth. While the headset features ENC, performance can be affected by extremely loud or complex background noises. Test in a quieter environment if possible.
Audio stopped working.	Connection issue; software glitch.	Disconnect and reconnect the headset. Restart your device. If the issue persists, try pairing with a different device to isolate the problem.
Mute function not working.	Not during a call; incorrect button press.	Ensure you are actively on a phone call. Press and hold the "Volume -" button for 2 seconds.

If these steps do not resolve your issue, please contact Gixxted customer support for further assistance.
